

Inhibition by FGF2 of CNP signaling in ATDC5 cells

Figure 1

A

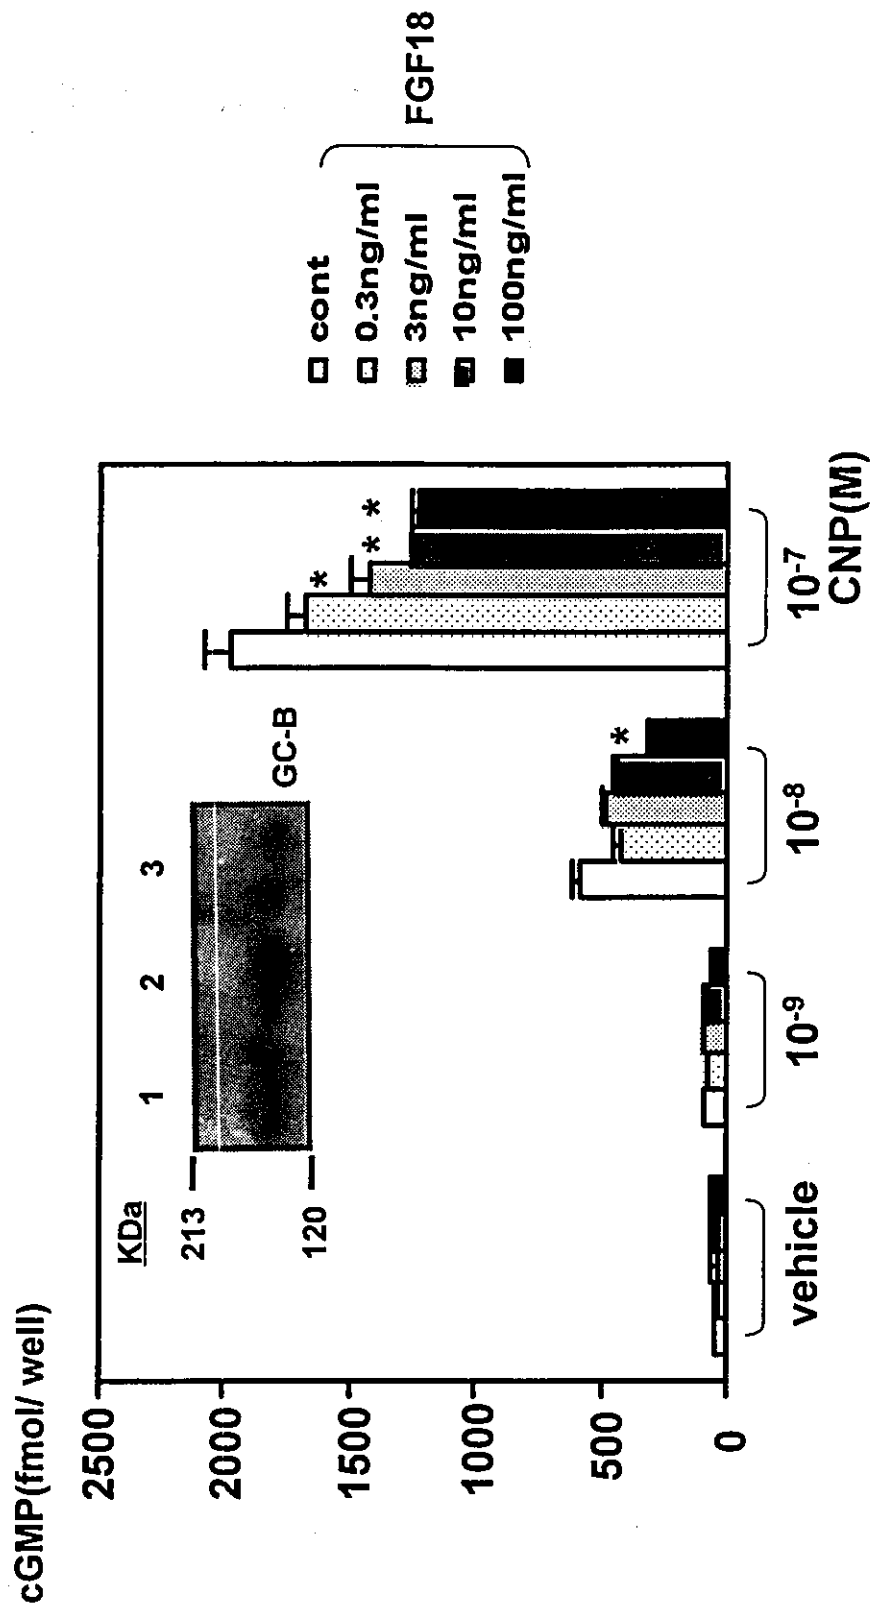

B

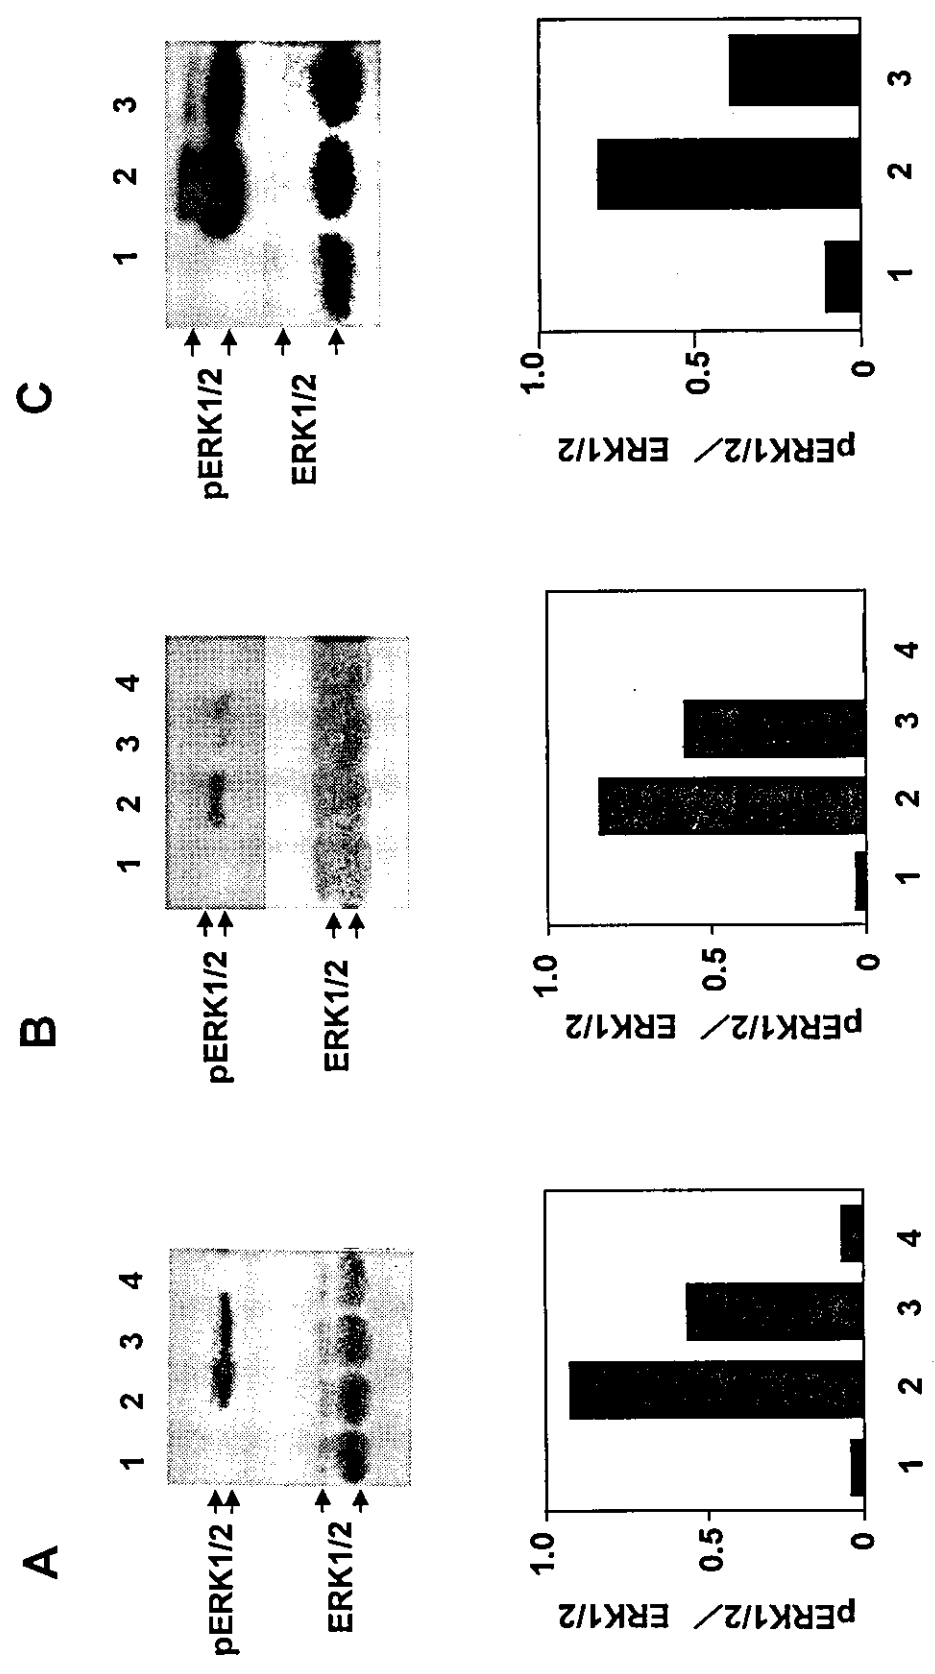

Inhibition by FGF18 of CNP signaling in ATDC5 cells

Figure 2

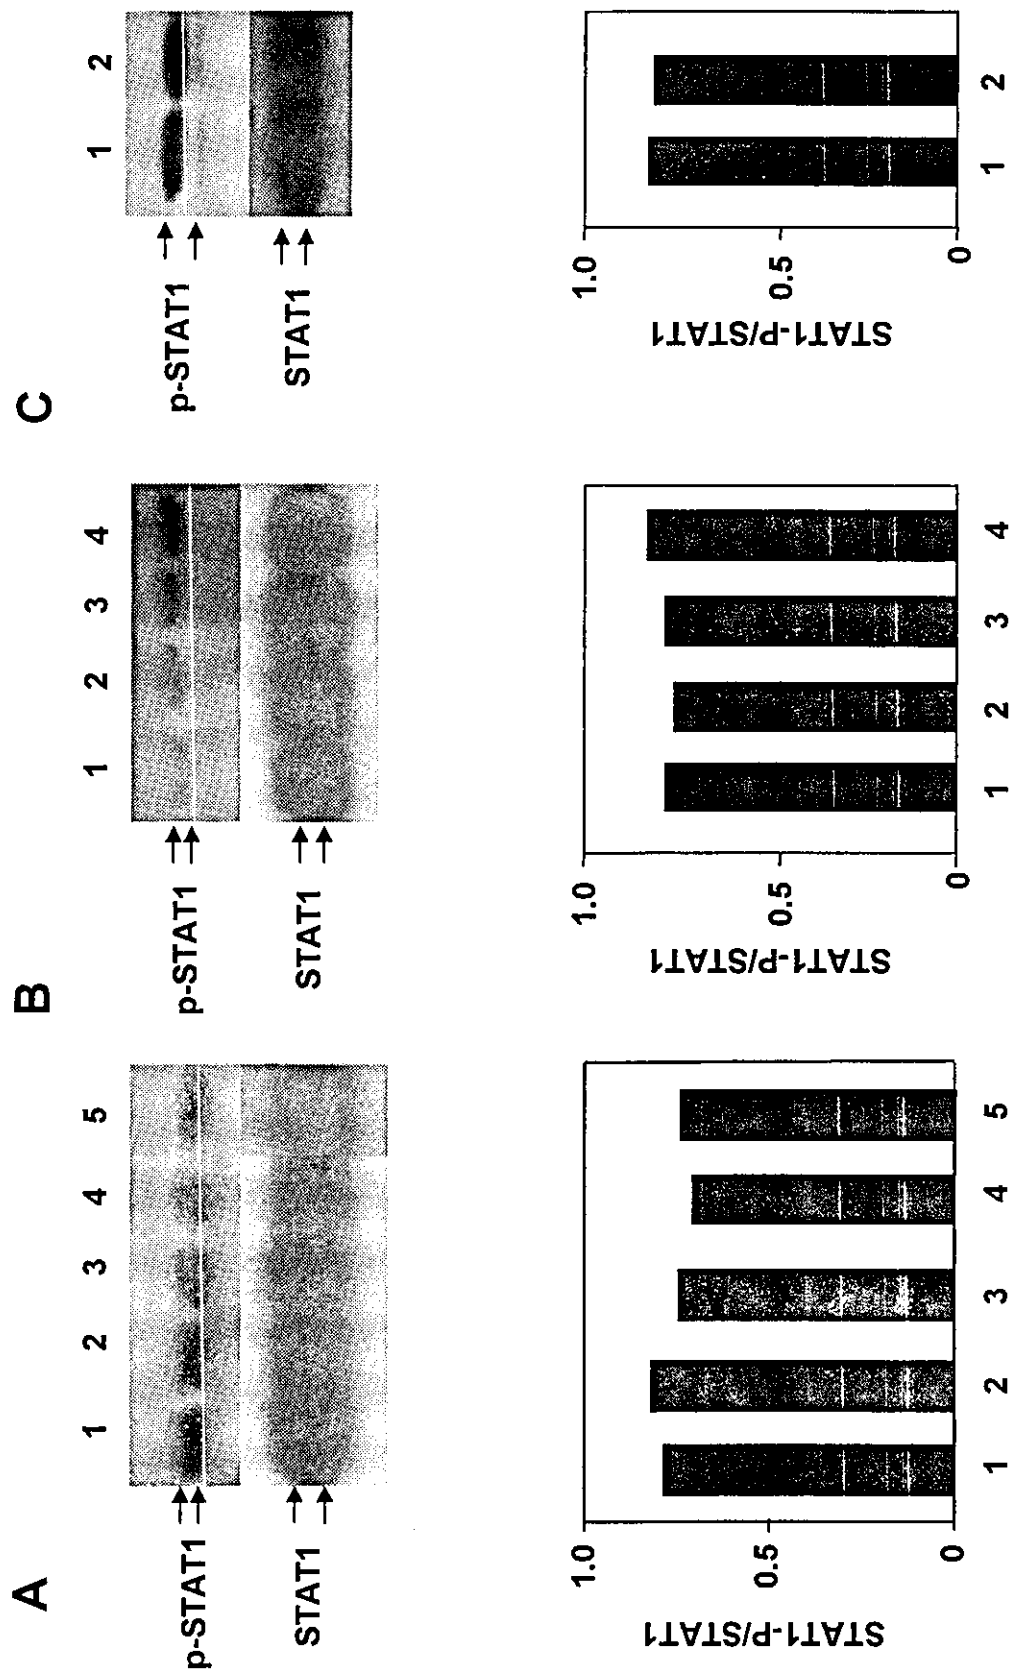

Attenuation by CNP of MAPK activity of FGFs

Figure 3

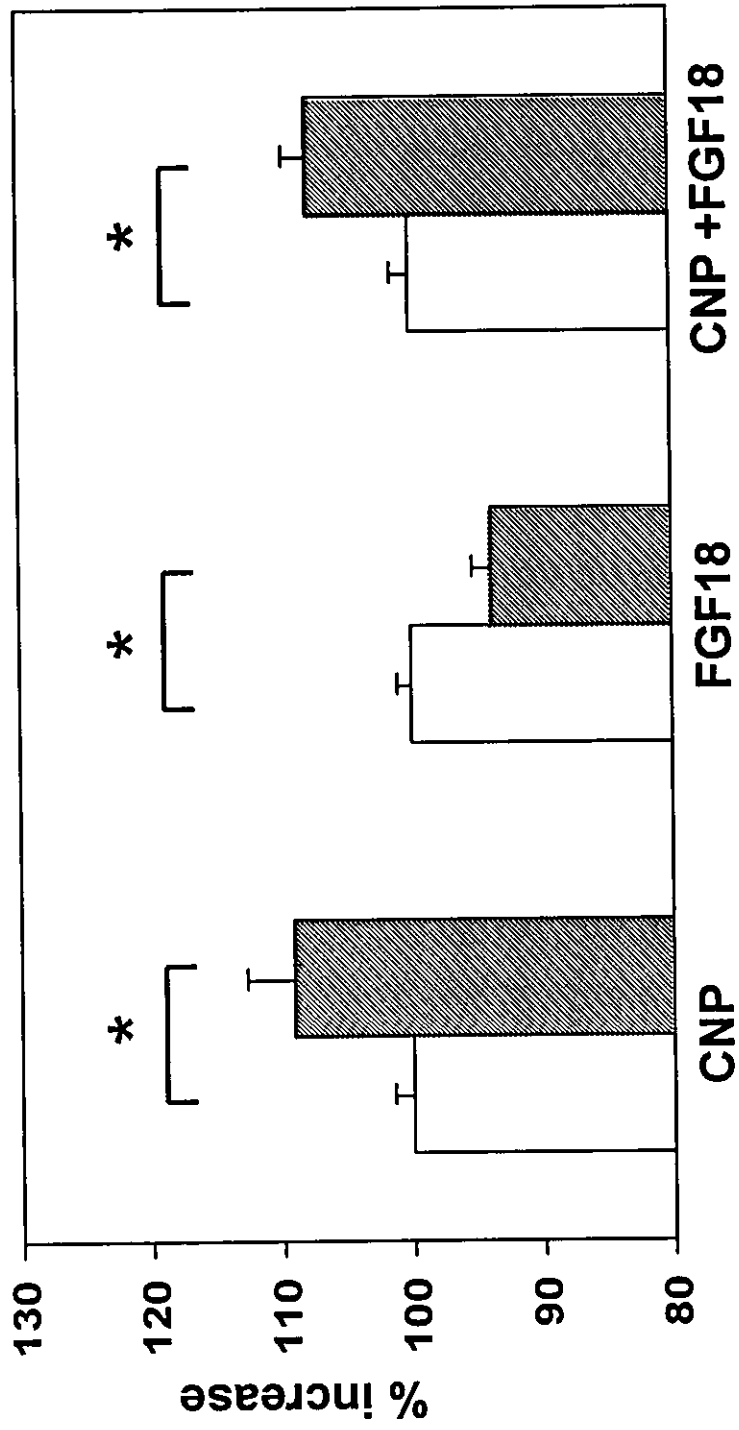

No change in STAT-1 phosphorylation in ATDC5 cells by FGFs or CNP

Figure 4

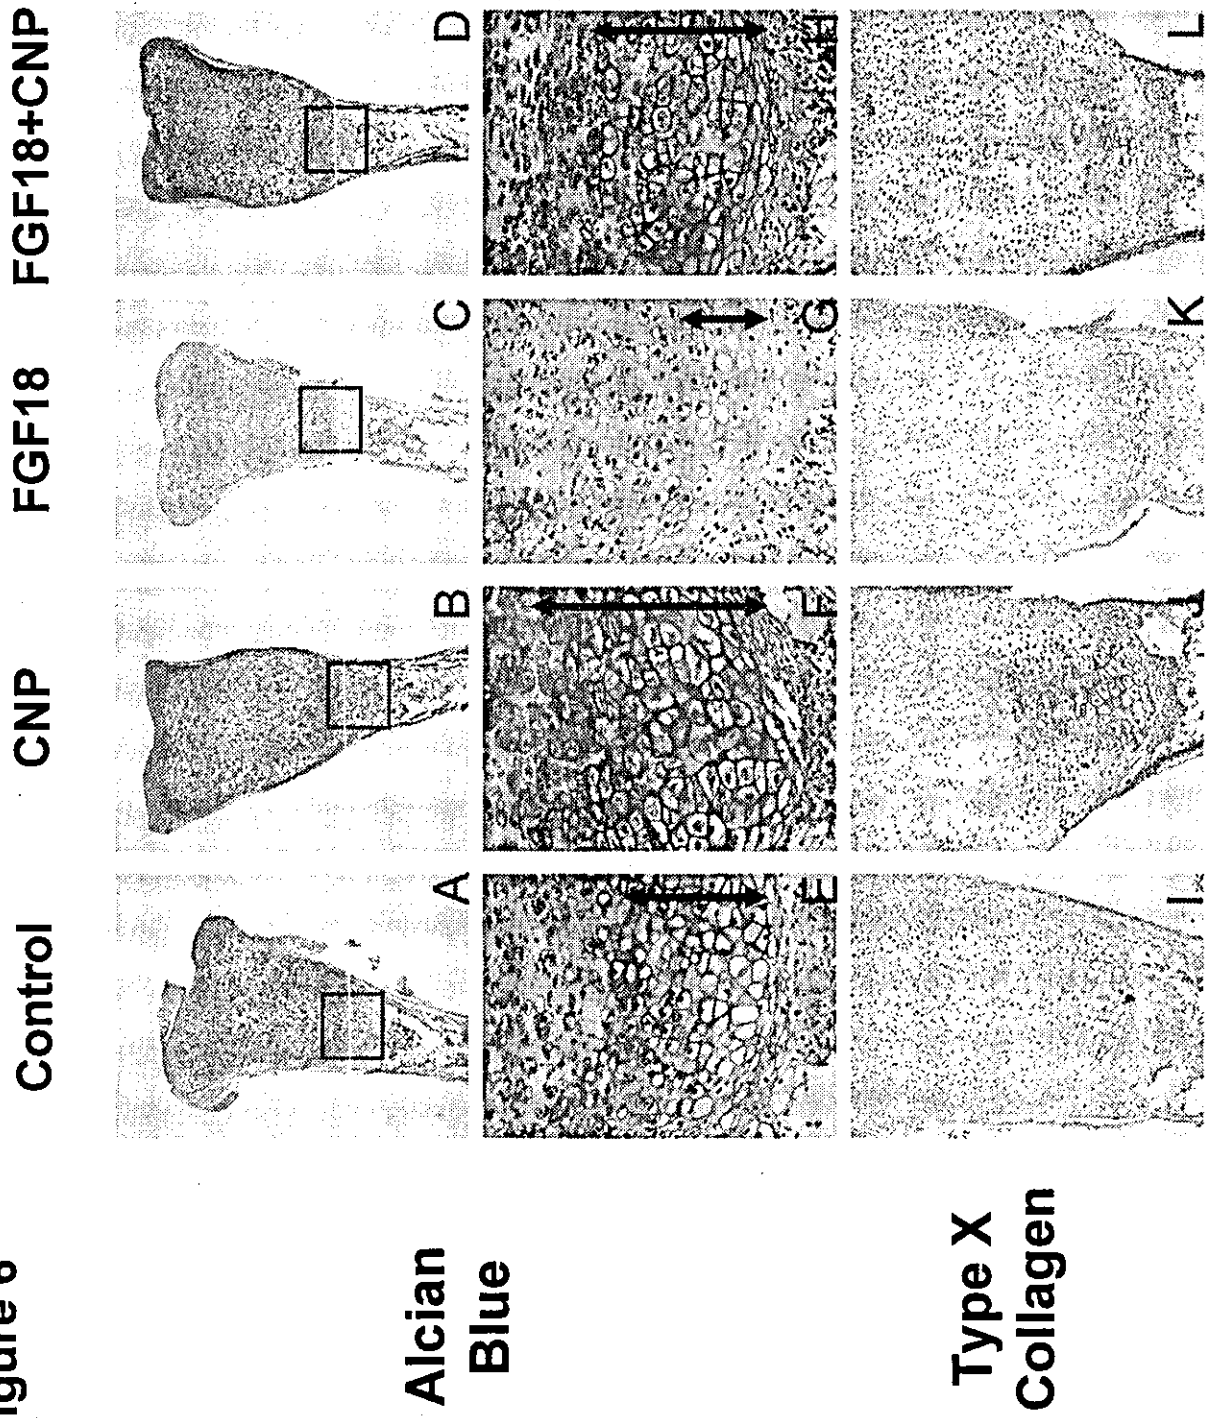

Effect of CNP and FGF18 on mouse fetal tibia organ culture

Figure 5

Effect of CNP and FGF18 on mouse fetal tibia organ culture

Figure 6

Effect of CNP and FGF18 on mouse fetal tibia organ culture

Figure 7
