

(19) "Person" means an individual, corporation, business trust, estate, trust, partnership, limited liability company, association, joint venture, public corporation, government or governmental subdivision, agency, or instrumentality, or any other legal or commercial entity.

(20) "Physician" means an individual authorized to practice medicine or osteopathy under the law of any state.

(21) "Procurement organization" means an eye bank, organ procurement organization, or tissue bank.

(22) "Prospective donor" means an individual who is dead or near death and has been determined by a procurement organization to have a part that could be medically suitable for transplantation, therapy, research, or education. The term does not include an individual who has made a refusal.

(23) "Reasonably available" means able to be contacted by a procurement organization without undue effort and willing and able to act in a timely manner consistent with existing medical criteria necessary for the making of an anatomical gift.

(24) "Recipient" means an individual into whose body a decedent's part has been or is intended to be transplanted.

(25) "Record" means information that is inscribed on a tangible medium or that is stored in an electronic or other medium and is retrievable in perceivable form.

(26) "Refusal" means a record created under Section 7 that expressly states an intent to bar other persons from making an anatomical gift of an individual's body or part.

(27) "Sign" means, with the present intent to authenticate or adopt a record:

(A) to execute or adopt a tangible symbol; or

(B) to attach to or logically associate with the record an electronic symbol, sound,

or process.

(28) “State” means a state of the United States, the District of Columbia, Puerto Rico, the United States Virgin Islands, or any territory or insular possession subject to the jurisdiction of the United States.

(29) “Technician” means an individual determined to be qualified to remove or process parts by an appropriate organization that is licensed, accredited, or regulated under federal or state law. The term includes an enucleator.

(30) “Tissue” means a portion of the human body other than an organ or an eye. The term does not include blood unless the blood is donated for the purpose of research or education.

(31) “Tissue bank” means a person that is licensed, accredited, or regulated under federal or state law to engage in the recovery, screening, testing, processing, storage, or distribution of tissue.

(32) “Transplant hospital” means a hospital that furnishes organ transplants and other medical and surgical specialty services required for the care of transplant patients.

Legislative note: If this state does not license “hospitals”, the definition of “hospital” should include a reference to the facility or facilities with equivalent functions by an additional sentence such as the following: “The term includes an acute care facility.”

SECTION 3. APPLICABILITY. This [act] applies to an anatomical gift or amendment to, revocation of, or refusal to make an anatomical gift, whenever made.

SECTION 4. WHO MAY MAKE ANATOMICAL GIFT BEFORE DONOR’S DEATH. Subject to Section 8, an anatomical gift of a donor’s body or part may be made during the life of the donor for the purpose of transplantation, therapy, research, or education in the manner provided in Section 5 by:

(1) the donor, if the donor is an adult or if the donor is a minor and is:

(A) emancipated; or

(B) authorized under state law to apply for a driver's license because the donor is at least [insert the youngest age at which an individual may apply for any type of driver's license] years of age;

(2) an agent of the donor, unless the power of attorney for health care or other record prohibits the agent from making an anatomical gift;

(3) a parent of the donor, if the donor is an unemancipated minor; or

(4) the donor's guardian.

SECTION 5. MANNER OF MAKING ANATOMICAL GIFT BEFORE DONOR'S DEATH.

(a) A donor may make an anatomical gift:

(1) by authorizing a statement or symbol indicating that the donor has made an anatomical gift to be imprinted on the donor's driver's license or identification card;

(2) in a will;

(3) during a terminal illness or injury of the donor, by any form of communication addressed to at least two adults, at least one of whom is a disinterested witness; or

(4) as provided in subsection (b).

(b) A donor or other person authorized to make an anatomical gift under Section 4 may make a gift by a donor card or other record signed by the donor or other person making the gift or by authorizing that a statement or symbol indicating that the donor has made an anatomical gift be included on a donor registry. If the donor or other person is physically unable to sign a record, the record may be signed by another individual at the direction of the donor or other person and must:

(1) be witnessed by at least two adults, at least one of whom is a disinterested witness, who have signed at the request of the donor or the other person; and

(2) state that it has been signed and witnessed as provided in paragraph (1).

(c) Revocation, suspension, expiration, or cancellation of a driver's license or identification card upon which an anatomical gift is indicated does not invalidate the gift.

(d) An anatomical gift made by will takes effect upon the donor's death whether or not the will is probated. Invalidation of the will after the donor's death does not invalidate the gift.

SECTION 6. AMENDING OR REVOKING ANATOMICAL GIFT BEFORE DONOR'S DEATH.

(a) Subject to Section 8, a donor or other person authorized to make an anatomical gift under Section 4 may amend or revoke an anatomical gift by:

(1) a record signed by:

(A) the donor;

(B) the other person; or

(C) subject to subsection (b), another individual acting at the direction of the donor or the other person if the donor or other person is physically unable to sign; or

(2) a later-executed document of gift that amends or revokes a previous anatomical gift or portion of an anatomical gift, either expressly or by inconsistency.

(b) A record signed pursuant to subsection (a)(1)(C) must:

(1) be witnessed by at least two adults, at least one of whom is a disinterested witness, who have signed at the request of the donor or the other person; and

(2) state that it has been signed and witnessed as provided in paragraph (1).

(c) Subject to Section 8, a donor or other person authorized to make an anatomical gift

under Section 4 may revoke an anatomical gift by the destruction or cancellation of the document of gift, or the portion of the document of gift used to make the gift, with the intent to revoke the gift.

(d) A donor may amend or revoke an anatomical gift that was not made in a will by any form of communication during a terminal illness or injury addressed to at least two adults, at least one of whom is a disinterested witness.

(e) A donor who makes an anatomical gift in a will may amend or revoke the gift in the manner provided for amendment or revocation of wills or as provided in subsection (a).

SECTION 7. REFUSAL TO MAKE ANATOMICAL GIFT; EFFECT OF REFUSAL.

(a) An individual may refuse to make an anatomical gift of the individual's body or part by:

(1) a record signed by:

(A) the individual; or

(B) subject to subsection (b), another individual acting at the direction of the individual if the individual is physically unable to sign;

(2) the individual's will, whether or not the will is admitted to probate or invalidated after the individual's death; or

(3) any form of communication made by the individual during the individual's terminal illness or injury addressed to at least two adults, at least one of whom is a disinterested witness.

(b) A record signed pursuant to subsection (a)(1)(B) must:

(1) be witnessed by at least two adults, at least one of whom is a disinterested

witness, who have signed at the request of the individual; and

(2) state that it has been signed and witnessed as provided in paragraph (1).

(c) An individual who has made a refusal may amend or revoke the refusal:

(1) in the manner provided in subsection (a) for making a refusal;

(2) by subsequently making an anatomical gift pursuant to Section 5 that is inconsistent with the refusal; or

(3) by destroying or canceling the record evidencing the refusal, or the portion of the record used to make the refusal, with the intent to revoke the refusal.

(d) Except as otherwise provided in Section 8(h), in the absence of an express, contrary indication by the individual set forth in the refusal, an individual's unrevoked refusal to make an anatomical gift of the individual's body or part bars all other persons from making an anatomical gift of the individual's body or part.

SECTION 8. PRECLUSIVE EFFECT OF ANATOMICAL GIFT, AMENDMENT, OR REVOCATION.

(a) Except as otherwise provided in subsection (g) and subject to subsection (f), in the absence of an express, contrary indication by the donor, a person other than the donor is barred from making, amending, or revoking an anatomical gift of a donor's body or part if the donor made an anatomical gift of the donor's body or part under Section 5 or an amendment to an anatomical gift of the donor's body or part under Section 6.

(b) A donor's revocation of an anatomical gift of the donor's body or part under Section 6 is not a refusal and does not bar another person specified in Section 4 or 9 from making an anatomical gift of the donor's body or part under Section 5 or 10.

(c) If a person other than the donor makes an unrevoked anatomical gift of the donor's

body or part under Section 5 or an amendment to an anatomical gift of the donor's body or part under Section 6, another person may not make, amend, or revoke the gift of the donor's body or part under Section 10.

(d) A revocation of an anatomical gift of a donor's body or part under Section 6 by a person other than the donor does not bar another person from making an anatomical gift of the body or part under Section 5 or 10.

(e) In the absence of an express, contrary indication by the donor or other person authorized to make an anatomical gift under Section 4, an anatomical gift of a part is neither a refusal to give another part nor a limitation on the making of an anatomical gift of another part at a later time by the donor or another person.

(f) In the absence of an express, contrary indication by the donor or other person authorized to make an anatomical gift under Section 4, an anatomical gift of a part for one or more of the purposes set forth in Section 4 is not a limitation on the making of an anatomical gift of the part for any of the other purposes by the donor or any other person under Section 5 or 10.

(g) If a donor who is an unemancipated minor dies, a parent of the donor who is reasonably available may revoke or amend an anatomical gift of the donor's body or part.

(h) If an unemancipated minor who signed a refusal dies, a parent of the minor who is reasonably available may revoke the minor's refusal.

SECTION 9. WHO MAY MAKE ANATOMICAL GIFT OF DECEDENT'S BODY OR PART.

(a) Subject to subsections (b) and (c) and unless barred by Section 7 or 8, an anatomical gift of a decedent's body or part for purpose of transplantation, therapy, research, or education may be made by any member of the following classes of persons who is reasonably available, in

the order of priority listed:

- (1) an agent of the decedent at the time of death who could have made an anatomical gift under Section 4(2) immediately before the decedent's death;
- (2) the spouse of the decedent;
- (3) adult children of the decedent;
- (4) parents of the decedent;
- (5) adult siblings of the decedent;
- (6) adult grandchildren of the decedent;
- (7) grandparents of the decedent;
- (8) an adult who exhibited special care and concern for the decedent;
- (9) the persons who were acting as the [guardians] of the person of the decedent at the time of death; and
- (10) any other person having the authority to dispose of the decedent's body.

(b) If there is more than one member of a class listed in subsection (a)(1), (3), (4), (5), (6), (7), or (9) entitled to make an anatomical gift, an anatomical gift may be made by a member of the class unless that member or a person to which the gift may pass under Section 11 knows of an objection by another member of the class. If an objection is known, the gift may be made only by a majority of the members of the class who are reasonably available.

(c) A person may not make an anatomical gift if, at the time of the decedent's death, a person in a prior class under subsection (a) is reasonably available to make or to object to the making of an anatomical gift.

**SECTION 10. MANNER OF MAKING, AMENDING, OR REVOKING
ANATOMICAL GIFT OF DECEDENT'S BODY OR PART.**

(a) A person authorized to make an anatomical gift under Section 9 may make an anatomical gift by a document of gift signed by the person making the gift or by that person's oral communication that is electronically recorded or is contemporaneously reduced to a record and signed by the individual receiving the oral communication.

(b) Subject to subsection (c), an anatomical gift by a person authorized under Section 9 may be amended or revoked orally or in a record by any member of a prior class who is reasonably available. If more than one member of the prior class is reasonably available, the gift made by a person authorized under Section 9 may be:

(1) amended only if a majority of the reasonably available members agree to the amending of the gift; or

(2) revoked only if a majority of the reasonably available members agree to the revoking of the gift or if they are equally divided as to whether to revoke the gift.

(c) A revocation under subsection (b) is effective only if, before an incision has been made to remove a part from the donor's body or before invasive procedures have begun to prepare the recipient, the procurement organization, transplant hospital, or physician or technician knows of the revocation.

**SECTION 11. PERSONS THAT MAY RECEIVE ANATOMICAL GIFT;
PURPOSE OF ANATOMICAL GIFT.**

(a) An anatomical gift may be made to the following persons named in the document of gift:

(1) a hospital; accredited medical school, dental school, college, or university; organ procurement organization; or other appropriate person, for research or education;

(2) subject to subsection (b), an individual designated by the person making the

anatomical gift if the individual is the recipient of the part;

(3) an eye bank or tissue bank.

(b) If an anatomical gift to an individual under subsection (a)(2) cannot be transplanted into the individual, the part passes in accordance with subsection (g) in the absence of an express, contrary indication by the person making the anatomical gift.

(c) If an anatomical gift of one or more specific parts or of all parts is made in a document of gift that does not name a person described in subsection (a) but identifies the purpose for which an anatomical gift may be used, the following rules apply:

(1) If the part is an eye and the gift is for the purpose of transplantation or therapy, the gift passes to the appropriate eye bank.

(2) If the part is tissue and the gift is for the purpose of transplantation or therapy, the gift passes to the appropriate tissue bank.

(3) If the part is an organ and the gift is for the purpose of transplantation or therapy, the gift passes to the appropriate organ procurement organization as custodian of the organ.

(4) If the part is an organ, an eye, or tissue and the gift is for the purpose of research or education, the gift passes to the appropriate procurement organization.

(d) For the purpose of subsection (c), if there is more than one purpose of an anatomical gift set forth in the document of gift but the purposes are not set forth in any priority, the gift must be used for transplantation or therapy, if suitable. If the gift cannot be used for transplantation or therapy, the gift may be used for research or education.

(e) If an anatomical gift of one or more specific parts is made in a document of gift that does not name a person described in subsection (a) and does not identify the purpose of the gift,

the gift may be used only for transplantation or therapy, and the gift passes in accordance with subsection (g).

(f) If a document of gift specifies only a general intent to make an anatomical gift by words such as “donor”, “organ donor”, or “body donor”, or by a symbol or statement of similar import, the gift may be used only for transplantation or therapy, and the gift passes in accordance with subsection (g).

(g) For purposes of subsections (b), (e), and (f) the following rules apply:

(1) If the part is an eye, the gift passes to the appropriate eye bank.

(2) If the part is tissue, the gift passes to the appropriate tissue bank.

(3) If the part is an organ, the gift passes to the appropriate organ procurement organization as custodian of the organ.

(h) An anatomical gift of an organ for transplantation or therapy, other than an anatomical gift under subsection (a)(2), passes to the organ procurement organization as custodian of the organ.

(i) If an anatomical gift does not pass pursuant to subsections (a) through (h) or the decedent’s body or part is not used for transplantation, therapy, research, or education, custody of the body or part passes to the person under obligation to dispose of the body or part.

(j) A person may not accept an anatomical gift if the person knows that the gift was not effectively made under Section 5 or 10 or if the person knows that the decedent made a refusal under Section 7 that was not revoked. For purposes of the subsection, if a person knows that an anatomical gift was made on a document of gift, the person is deemed to know of any amendment or revocation of the gift or any refusal to make an anatomical gift on the same document of gift.

(k) Except as otherwise provided in subsection (a)(2), nothing in this [act] affects the allocation of organs for transplantation or therapy.

SECTION 12. SEARCH AND NOTIFICATION.

(a) The following persons shall make a reasonable search of an individual who the person reasonably believes is dead or near death for a document of gift or other information identifying the individual as a donor or as an individual who made a refusal:

(1) a law enforcement officer, firefighter, paramedic, or other emergency rescuer finding the individual; and

(2) if no other source of the information is immediately available, a hospital, as soon as practical after the individual's arrival at the hospital.

(b) If a document of gift or a refusal to make an anatomical gift is located by the search required by subsection (a)(1) and the individual or deceased individual to whom it relates is taken to a hospital, the person responsible for conducting the search shall send the document of gift or refusal to the hospital.

(c) A person is not subject to criminal or civil liability for failing to discharge the duties imposed by this section but may be subject to administrative sanctions.

SECTION 13. DELIVERY OF DOCUMENT OF GIFT NOT REQUIRED; RIGHT TO EXAMINE.

(a) A document of gift need not be delivered during the donor's lifetime to be effective.

(b) Upon or after an individual's death, a person in possession of a document of gift or a refusal to make an anatomical gift with respect to the individual shall allow examination and copying of the document of gift or refusal by a person authorized to make or object to the making of an anatomical gift with respect to the individual or by a person to which the gift could

pass under Section 11.

SECTION 14. RIGHTS AND DUTIES OF PROCUREMENT ORGANIZATION AND OTHERS.

(a) When a hospital refers an individual at or near death to a procurement organization, the organization shall make a reasonable search of the records of the [state department of motor vehicles] and any donor registry that it knows exists for the geographical area in which the individual resides to ascertain whether the individual has made an anatomical gift.

(b) A procurement organization must be allowed reasonable access to information in the records of the [state department of motor vehicles] to ascertain whether an individual at or near death is a donor.

(c) When a hospital refers an individual at or near death to a procurement organization, the organization may conduct any reasonable examination necessary to ensure the medical suitability of a part that is or could be the subject of an anatomical gift for transplantation, therapy, research, or education from a donor or a prospective donor. During the examination period, measures necessary to ensure the medical suitability of the part may not be withdrawn unless the hospital or procurement organization knows that the individual expressed a contrary intent.

(d) Unless prohibited by law other than this [act], at any time after a donor's death, the person to which a part passes under Section 11 may conduct any reasonable examination necessary to ensure the medical suitability of the body or part for its intended purpose.

(e) Unless prohibited by law other than this [act], an examination under subsection (c) or (d) may include an examination of all medical and dental records of the donor or prospective donor.

(f) Upon the death of a minor who was a donor or had signed a refusal, unless a procurement organization knows the minor is emancipated, the procurement organization shall conduct a reasonable search for the parents of the minor and provide the parents with an opportunity to revoke or amend the anatomical gift or revoke the refusal.

(g) Upon referral by a hospital under subsection (a), a procurement organization shall make a reasonable search for any person listed in Section 9 having priority to make an anatomical gift on behalf of a prospective donor. If a procurement organization receives information that an anatomical gift to any other person was made, amended, or revoked, it shall promptly advise the other person of all relevant information.

(h) Subject to Sections 11(i) and 23, the rights of the person to which a part passes under Section 11 are superior to the rights of all others with respect to the part. The person may accept or reject an anatomical gift in whole or in part. Subject to the terms of the document of gift and this [act], a person that accepts an anatomical gift of an entire body may allow embalming, burial or cremation, and use of remains in a funeral service. If the gift is of a part, the person to which the part passes under Section 11, upon the death of the donor and before embalming, burial, or cremation, shall cause the part to be removed without unnecessary mutilation.

(i) Neither the physician who attends the decedent at death nor the physician who determines the time of the decedent's death may participate in the procedures for removing or transplanting a part from the decedent.

(j) A physician or technician may remove a donated part from the body of a donor that the physician or technician is qualified to remove.

SECTION 15. COORDINATION OF PROCUREMENT AND USE. Each hospital in this state shall enter into agreements or affiliations with procurement organizations for

coordination of procurement and use of anatomical gifts.

SECTION 16. SALE OR PURCHASE OF PARTS PROHIBITED.

(a) Except as otherwise provided in subsection (b), a person that for valuable consideration, knowingly purchases or sells a part for transplantation or therapy if removal of a part from an individual is intended to occur after the individual's death commits a [[felony] and upon conviction is subject to a fine not exceeding [\$50,000] or imprisonment not exceeding [five] years, or both][class[] felony].

(b) A person may charge a reasonable amount for the removal, processing, preservation, quality control, storage, transportation, implantation, or disposal of a part.

SECTION 17. OTHER PROHIBITED ACTS. A person that, in order to obtain a financial gain, intentionally falsifies, forges, conceals, defaces, or obliterates a document of gift, an amendment or revocation of a document of gift, or a refusal commits a [[felony] and upon conviction is subject to a fine not exceeding [\$50,000] or imprisonment not exceeding [five] years, or both] [class[] felony].

SECTION 18. IMMUNITY.

(a) A person that acts in accordance with this [act] or with the applicable anatomical gift law of another state, or attempts in good faith to do so, is not liable for the act in a civil action, criminal prosecution, or administrative proceeding.

(b) Neither the person making an anatomical gift nor the donor's estate is liable for any injury or damage that results from the making or use of the gift.

(c) In determining whether an anatomical gift has been made, amended, or revoked under this [act], a person may rely upon representations of an individual listed in Section 9(a)(2), (3), (4), (5), (6), (7), or (8) relating to the individual's relationship to the donor or prospective donor

unless the person knows that the representation is untrue.

SECTION 19. LAW GOVERNING VALIDITY; CHOICE OF LAW AS TO EXECUTION OF DOCUMENT OF GIFT; PRESUMPTION OF VALIDITY.

(a) A document of gift is valid if executed in accordance with:

(1) this [act];

(2) the laws of the state or country where it was executed; or

(3) the laws of the state or country where the person making the anatomical gift was domiciled, has a place of residence, or was a national at the time the document of gift was executed.

(b) If a document of gift is valid under this section, the law of this state governs the interpretation of the document of gift.

(c) A person may presume that a document of gift or amendment of an anatomical gift is valid unless that person knows that it was not validly executed or was revoked.

SECTION 20. DONOR REGISTRY.

(a) The [insert name of appropriate state agency] may establish or contract for the establishment of a donor registry.

(b) The [state department of motor vehicles] shall cooperate with a person that administers any donor registry that this state establishes, contracts for, or recognizes for the purpose of transferring to the donor registry all relevant information regarding a donor's making, amendment to, or revocation of an anatomical gift.

(c) A donor registry must:

(1) allow a donor or other person authorized under Section 4 to include on the donor registry a statement or symbol that the donor has made, amended, or revoked an

anatomical gift;

(2) be accessible to a procurement organization to allow it to obtain relevant information on the donor registry to determine, at or near death of the donor or a prospective donor, whether the donor or prospective donor has made, amended, or revoked an anatomical gift; and

(3) be accessible for purposes of paragraphs (1) and (2) seven days a week on a 24-hour basis.

(d) Personally identifiable information on a donor registry about a donor or prospective donor may not be used or disclosed without the express consent of the donor, prospective donor, or person that made the anatomical gift for any purpose other than to determine, at or near death of the donor or prospective donor, whether the donor or prospective donor has made, amended, or revoked an anatomical gift.

(e) This section does not prohibit any person from creating or maintaining a donor registry that is not established by or under contract with the state. Any such registry must comply with subsections (c) and (d).

Legislative Note: If the state has an existing donor registry statute, it should consider whether this section is necessary. It should also consider whether subsections (c) and (d), and Section 14(g)(last sentence), should be incorporated into its existing statute. Subsection (b) may be deleted if the state department of motor vehicles is the agency specified in subsection (a).

SECTION 21. EFFECT OF ANATOMICAL GIFT ON ADVANCE HEALTH-CARE DIRECTIVE.

(a) In this section:

(1) "Advance health-care directive" means a power of attorney for health care or a record signed or authorized by a prospective donor containing the prospective donor's direction concerning a health-care decision for the prospective donor.

(2) “Declaration” means a record signed by a prospective donor specifying the circumstances under which a life support system may be withheld or withdrawn from the prospective donor.

(3) “Health-care decision” means any decision regarding the health care of the prospective donor.

(b) If a prospective donor has a declaration or advance health-care directive and the terms of the declaration or directive and the express or implied terms of a potential anatomical gift are in conflict with regard to the administration of measures necessary to ensure the medical suitability of a part for transplantation or therapy, the prospective donor’s attending physician and prospective donor shall confer to resolve the conflict. If the prospective donor is incapable of resolving the conflict, an agent acting under the prospective donor’s declaration or directive, or, if none or the agent is not reasonably available, another person authorized by law other than this [act] to make health-care decisions on behalf of the prospective donor, shall act for the donor to resolve the conflict. The conflict must be resolved as expeditiously as possible. Information relevant to the resolution of the conflict may be obtained from the appropriate procurement organization and any other person authorized to make an anatomical gift for the prospective donor under Section 9. Before resolution of the conflict, measures necessary to ensure the medical suitability of the part may not be withheld or withdrawn from the prospective donor if withholding or withdrawing the measures is not contraindicated by appropriate end-of-life care.

SECTION 22. COOPERATION BETWEEN [CORONER] [MEDICAL EXAMINER] AND PROCUREMENT ORGANIZATION.

(a) A [coroner] [medical examiner] shall cooperate with procurement organizations to maximize the opportunity to recover anatomical gifts for the purpose of transplantation, therapy,

research, or education.

(b) If a [coroner] [medical examiner] receives notice from a procurement organization that an anatomical gift might be available or was made with respect to a decedent whose body is under the jurisdiction of the [coroner] [medical examiner] and a post-mortem examination is going to be performed, unless the [coroner] [medical examiner] denies recovery in accordance with Section 23, the [coroner] [medical examiner] or designee shall conduct a post-mortem examination of the body or the part in a manner and within a period compatible with its preservation for the purposes of the gift.

(c) A part may not be removed from the body of a decedent under the jurisdiction of a [coroner] [medical examiner] for transplantation, therapy, research, or education unless the part is the subject of an anatomical gift. The body of a decedent under the jurisdiction of the [coroner] [medical examiner] may not be delivered to a person for research or education unless the body is the subject of an anatomical gift. This subsection does not preclude a [coroner] [medical examiner] from performing the medicolegal investigation upon the body or parts of a decedent under the jurisdiction of the [coroner] [medical examiner].

SECTION 23. FACILITATION OF ANATOMICAL GIFT FROM DECEDENT WHOSE BODY IS UNDER JURISDICTION OF [CORONER] [MEDICAL EXAMINER].

(a) Upon request of a procurement organization, a [coroner] [medical examiner] shall release to the procurement organization the name, contact information, and available medical and social history of a decedent whose body is under the jurisdiction of the [coroner] [medical examiner]. If the decedent's body or part is medically suitable for transplantation, therapy, research, or education, the [coroner] [medical examiner] shall release post-mortem examination results to the procurement organization. The procurement organization may make a subsequent

disclosure of the post-mortem examination results or other information received from the [coroner] [medical examiner] only if relevant to transplantation or therapy.

(b) The [coroner] [medical examiner] may conduct a medicolegal examination by reviewing all medical records, laboratory test results, x-rays, other diagnostic results, and other information that any person possesses about a donor or prospective donor whose body is under the jurisdiction of the [coroner] [medical examiner] which the [coroner] [medical examiner] determines may be relevant to the investigation.

(c) A person that has any information requested by a [coroner] [medical examiner] pursuant to subsection (b) shall provide that information as expeditiously as possible to allow the [coroner] [medical examiner] to conduct the medicolegal investigation within a period compatible with the preservation of parts for the purpose of transplantation, therapy, research, or education.

(d) If an anatomical gift has been or might be made of a part of a decedent whose body is under the jurisdiction of the [coroner] [medical examiner] and a post-mortem examination is not required, or the [coroner] [medical examiner] determines that a post-mortem examination is required but that the recovery of the part that is the subject of an anatomical gift will not interfere with the examination, the [coroner] [medical examiner] and procurement organization shall cooperate in the timely removal of the part from the decedent for the purpose of transplantation, therapy, research, or education.

(e) If an anatomical gift of a part from the decedent under the jurisdiction of the [coroner] [medical examiner] has been or might be made, but the [coroner] [medical examiner] initially believes that the recovery of the part could interfere with the post-mortem investigation into the decedent's cause or manner of death, the [coroner] [medical examiner] shall consult with the
