

Ⅲ. 看護実践用語標準マスター（看護行為編 ver.1.0）英訳版

注）最新版（2006年12月更新）の英訳版は現在作成中である

Master List of Standardized Nursing Terminology <Nursing Action Ver. 1.0>

Medical Information System Development Center

Medical institutions have rapidly computerized treatment information along with the wide-spread adoption of ordering systems and electronic medical records. However no standard terms or codes for treatment information exist, therefore, medical institutions have originated their own terms and codes. As a result electronic information exchange between medical institutions and development of databases is totally inefficient and computerization at nation level is impossible.

In FY2004 the contract organization of the Ministry of Health, Labour and Welfare (MHLW) , the Medical Information System Development Center (MEDIS-DC), aiming at the standardization of terms and codes, developed 10 standard master lists in 9 areas (disease names, surgeries and procedures, clinical examinations, dentistry, nursing terms, examination findings, imaging tests, drugs, and medical devices), posting them on the official web site for public response.

Beginning in February 2004 MEDIS-DC made the ‘Master List of Standardized Nursing Terminology <Nursing Action, pilot version> available to the public for comments from users. Finally, MEDIS-DC has just published ‘Master List of Standardized Nursing Terminology <Nursing Action, Ver.1.0>’ .
