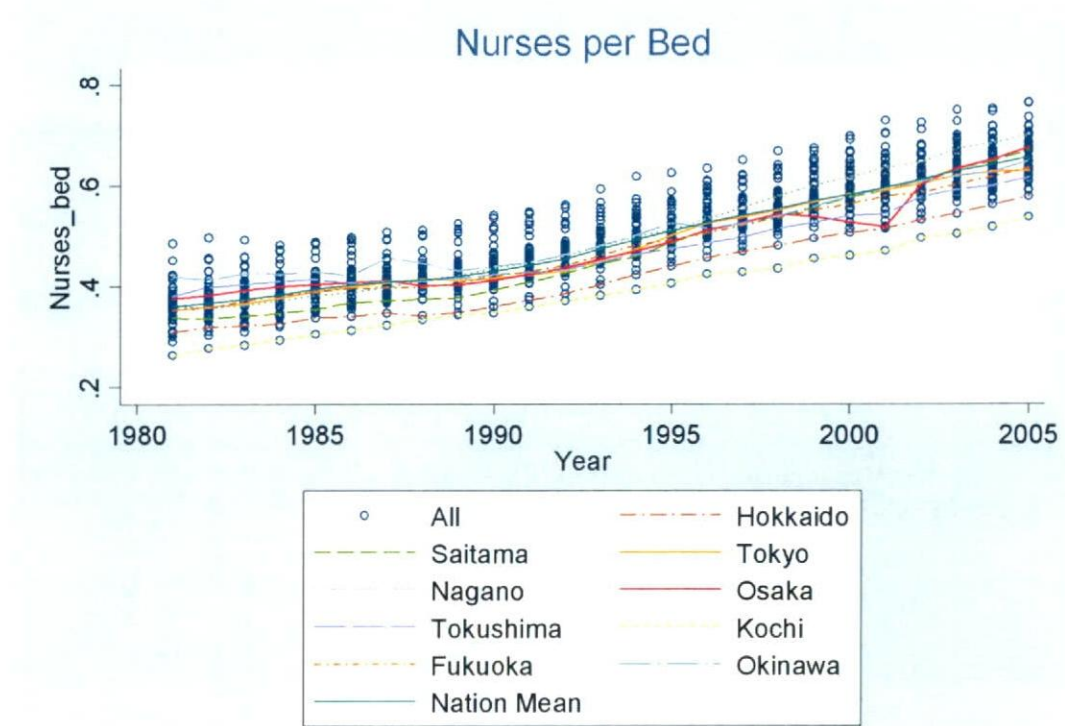

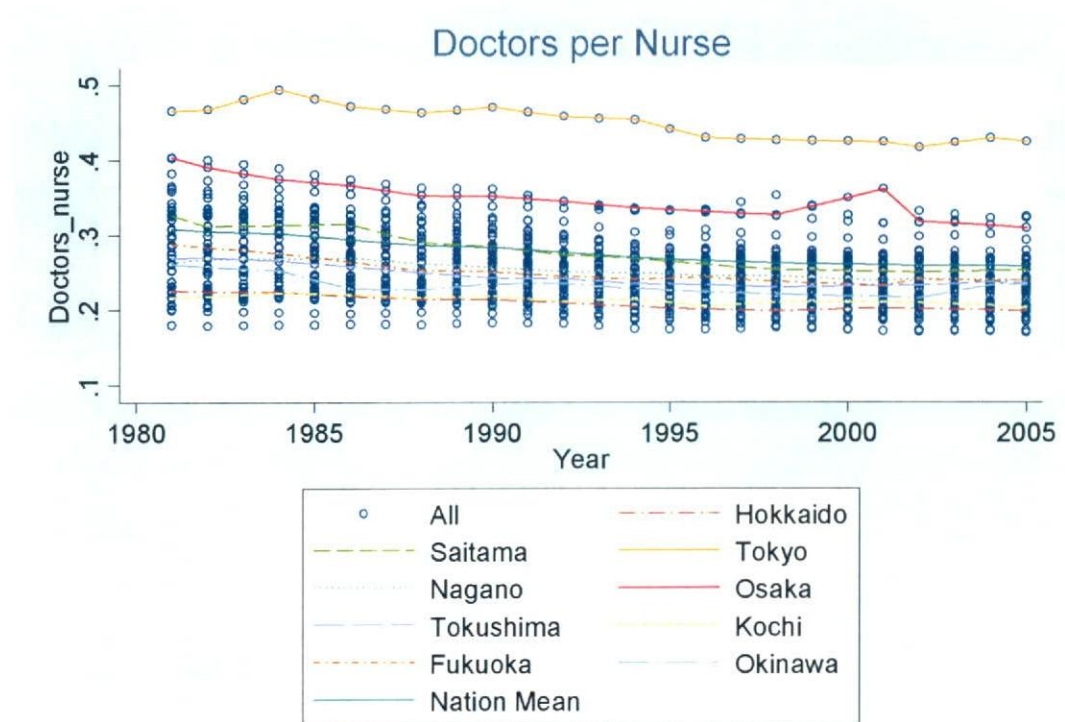

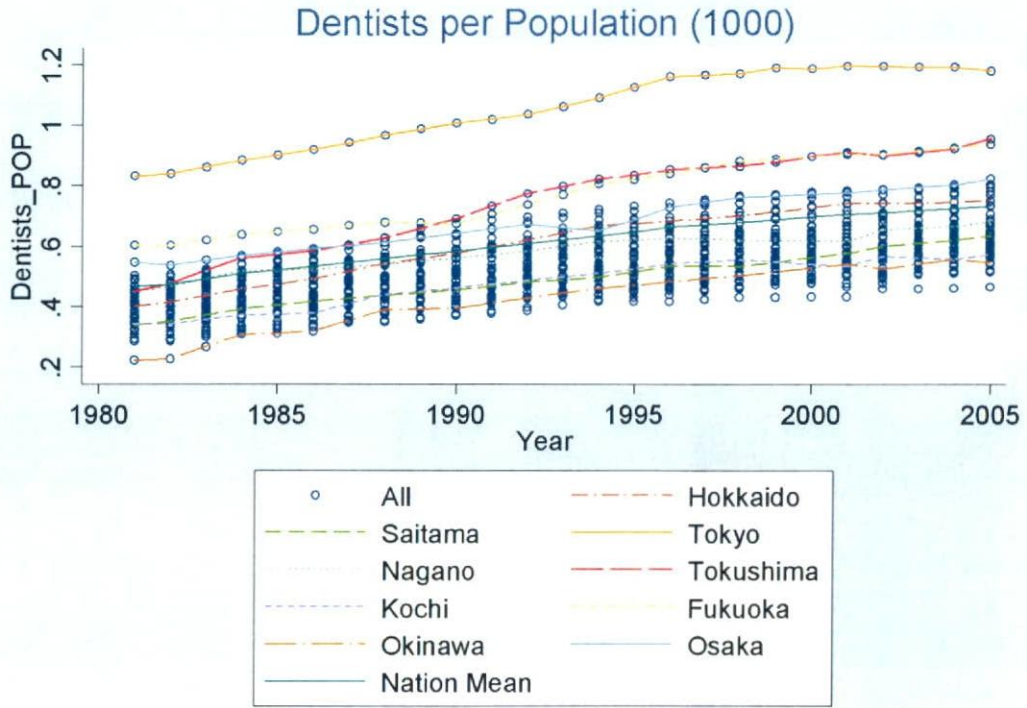

Figure 1-8. Doctors per Nurse

Source: Author's calculation which method and data sources are explained in text.

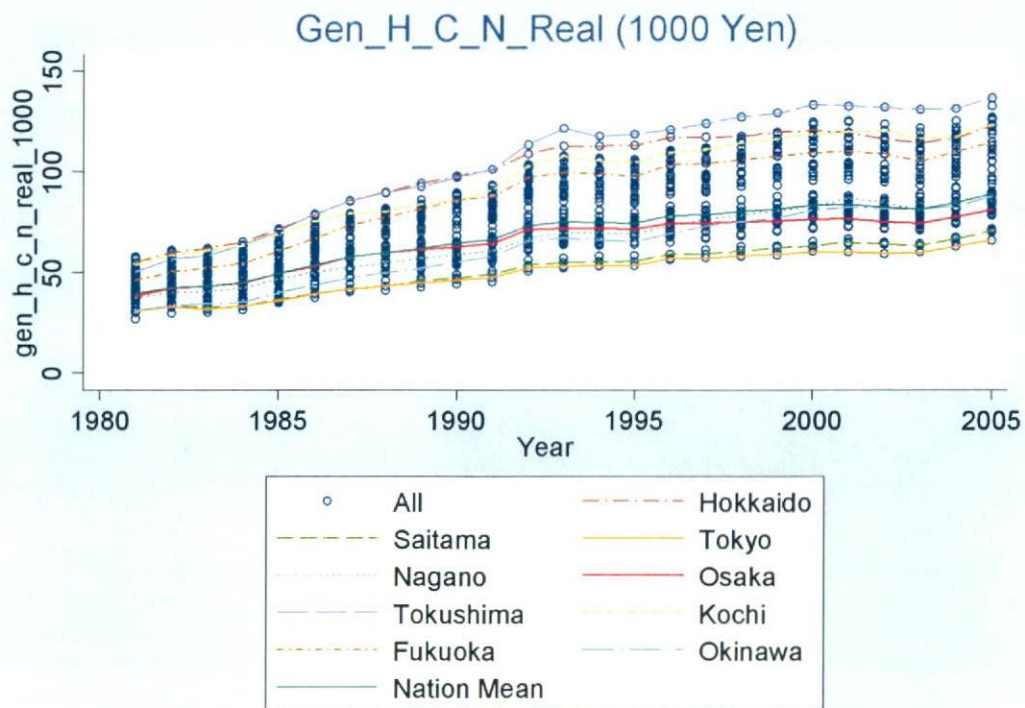

Figure 1-9. Dentists per Population

Source: Author's calculation which method and data sources are explained in text.

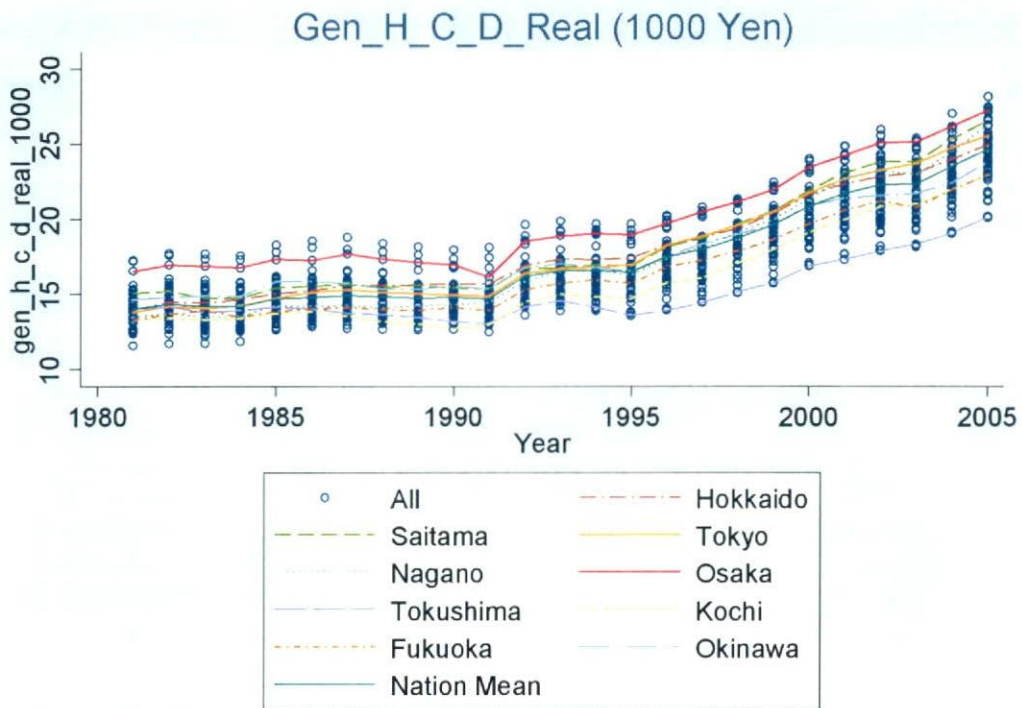

Figure 2-1 General Hospitalization Real Cost per Population (C/N)

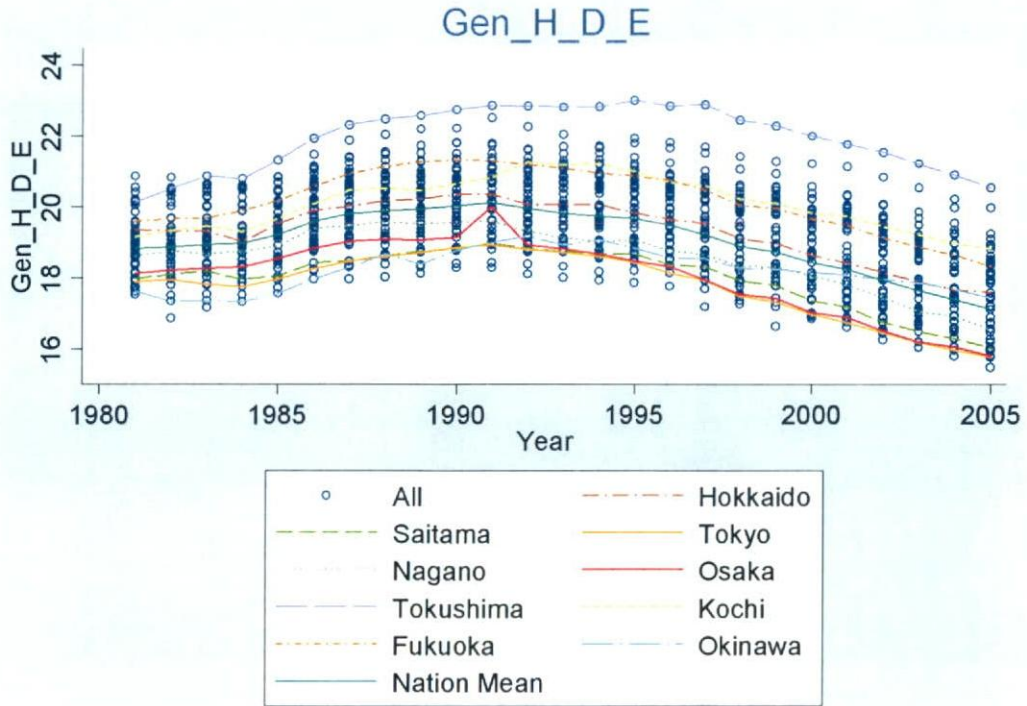

Source: Author's calculation which method and data sources are explained in text.

Figure 2-2. General Hospitalization Real Cost per Day (C/D)

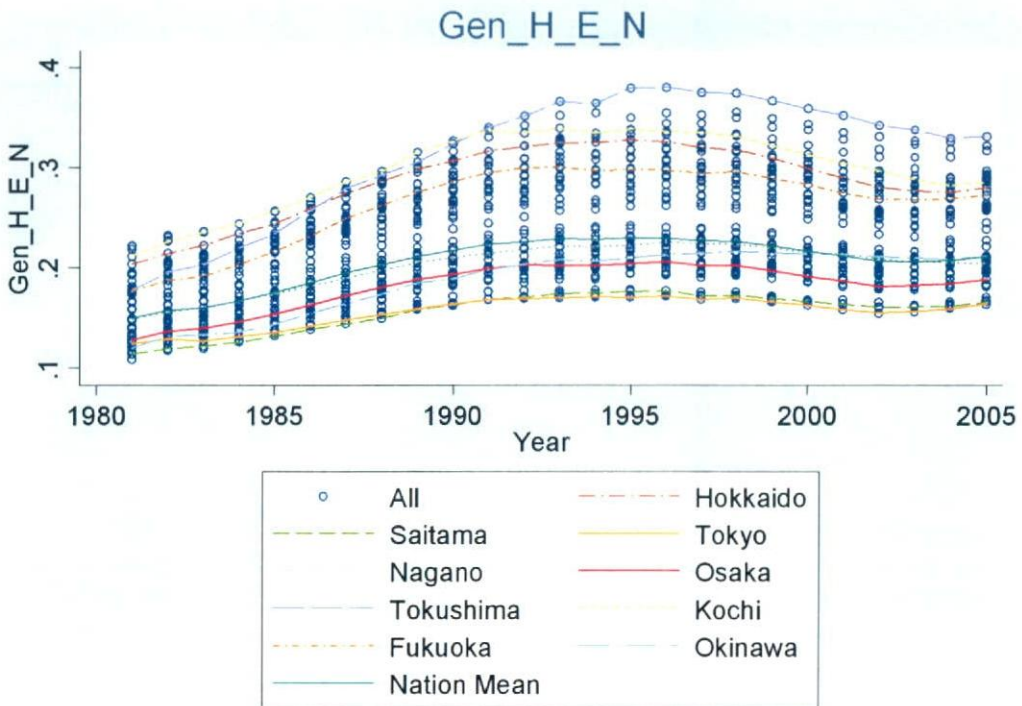

Source: Author's calculation which method and data sources are explained in text.

Figure 2-3. General Hospitalization Days per Event (D/E)

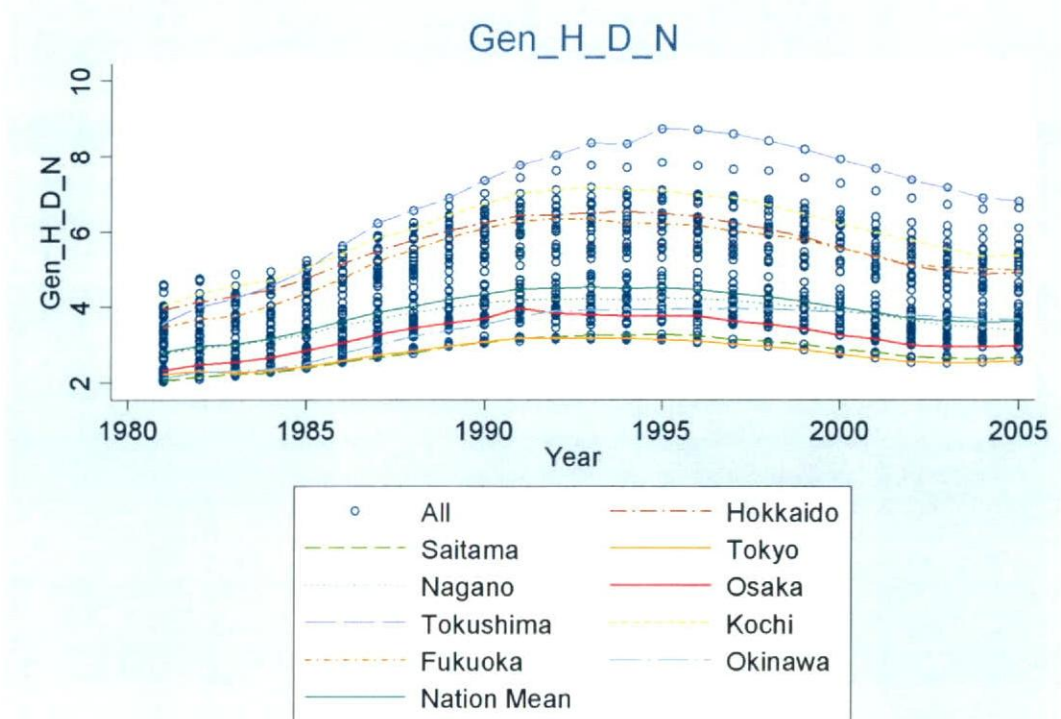

Source: Author's calculation which method and data sources are explained in text.

Figure 2-4. General Hospitalization Events per Person (E/N)

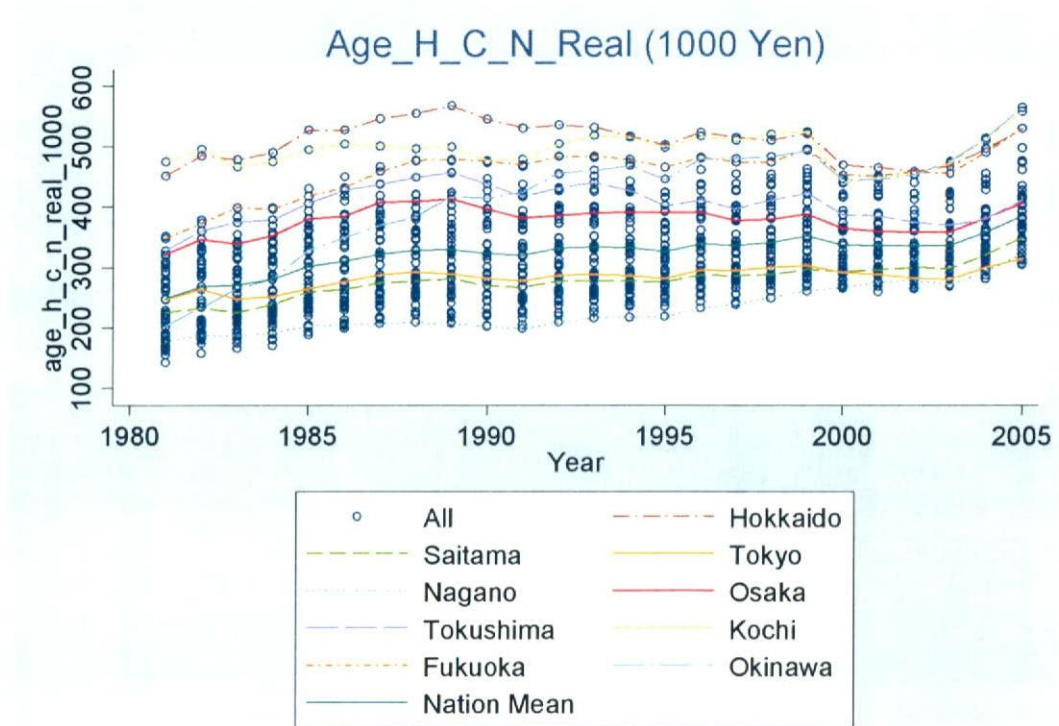

Source: Author's calculation which method and data sources are explained in text.

Figure 2-5. General Hospitalization Days per Population (D/N)

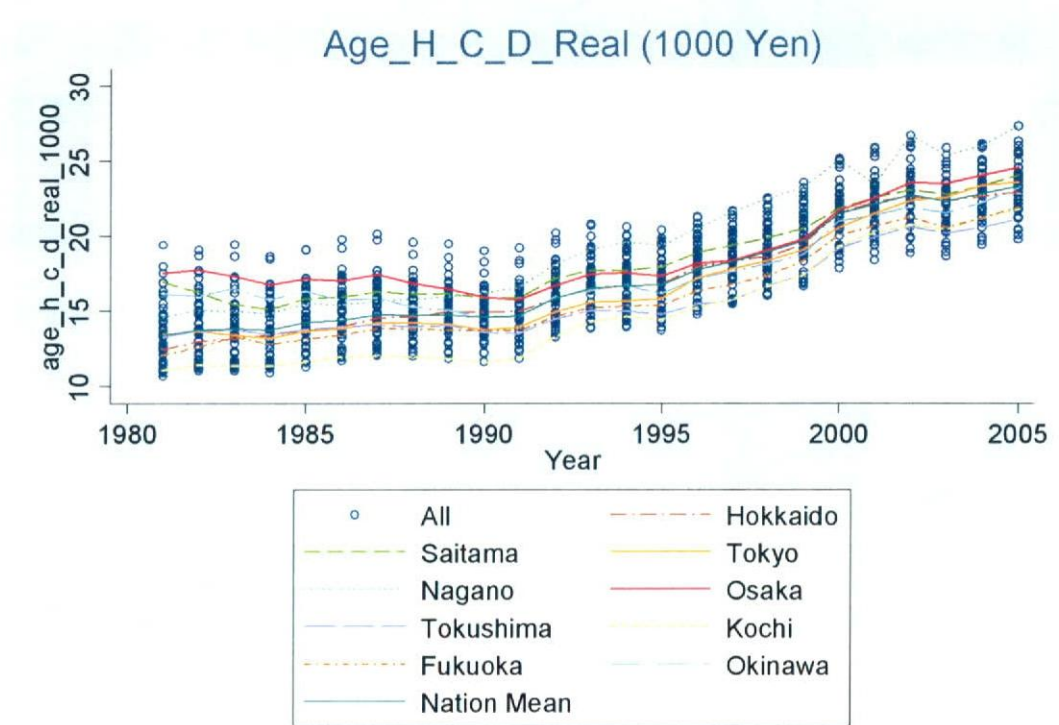

Source: Author's calculation which method and data sources are explained in text.

Figure 2-6 Aged Hospitalization Real Cost per Population (C/N)

Source: Author's calculation which method and data sources are explained in text.

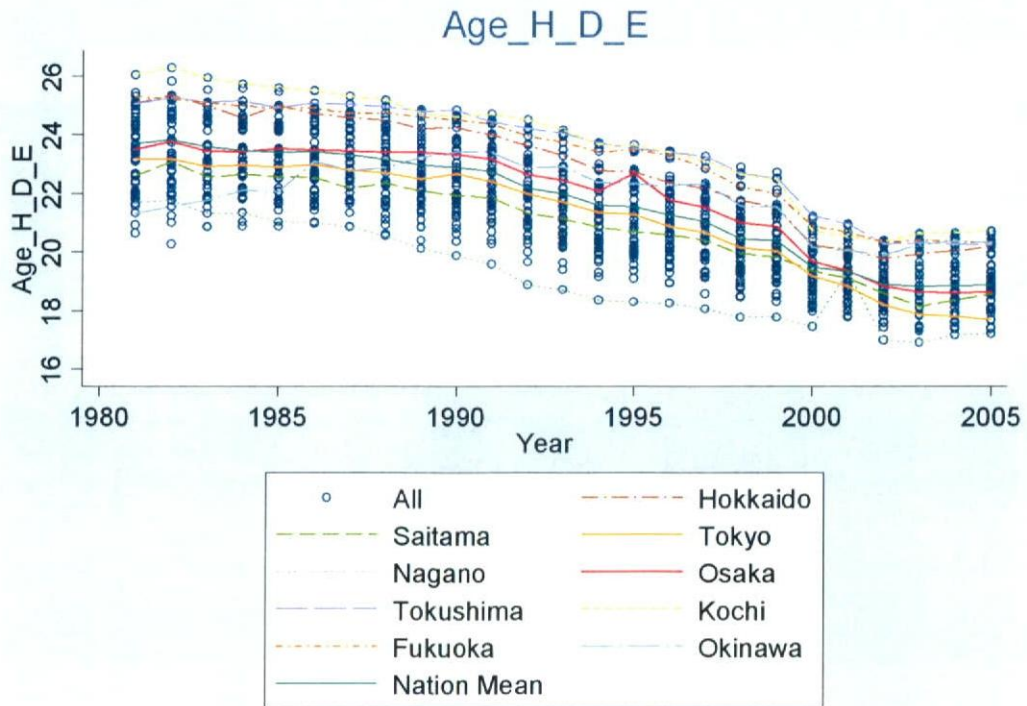

Figure 2-7. Aged Hospitalization Real Cost per Day (C/D)

Source: Author's calculation which method and data sources are explained in text.

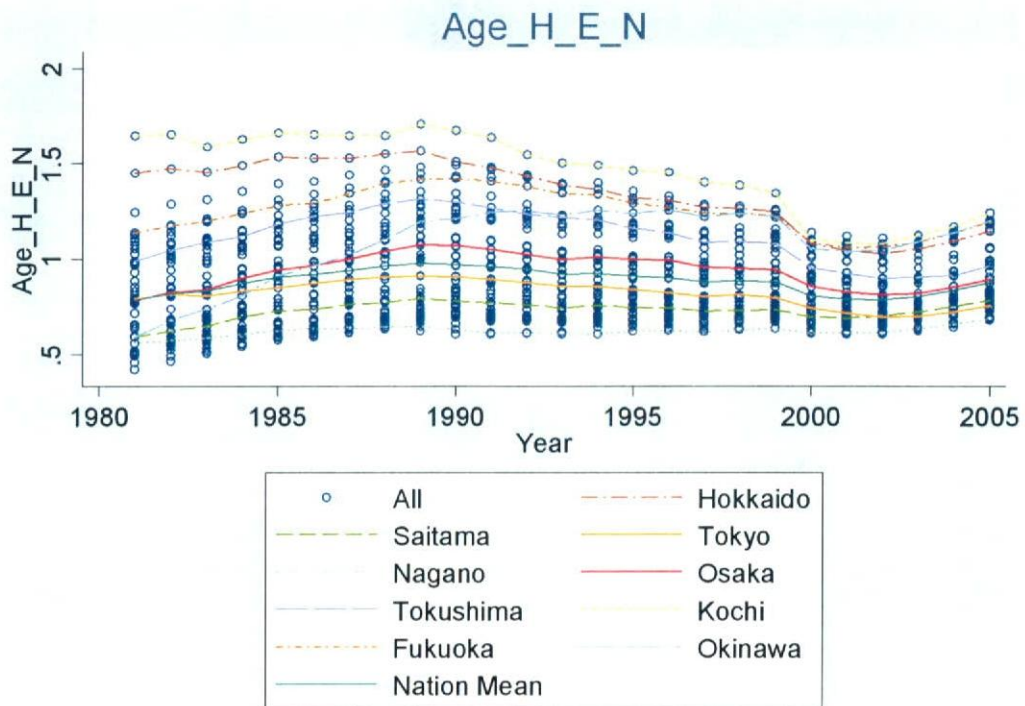

Figure 2-8. Aged Hospitalization Days per Event (D/E)

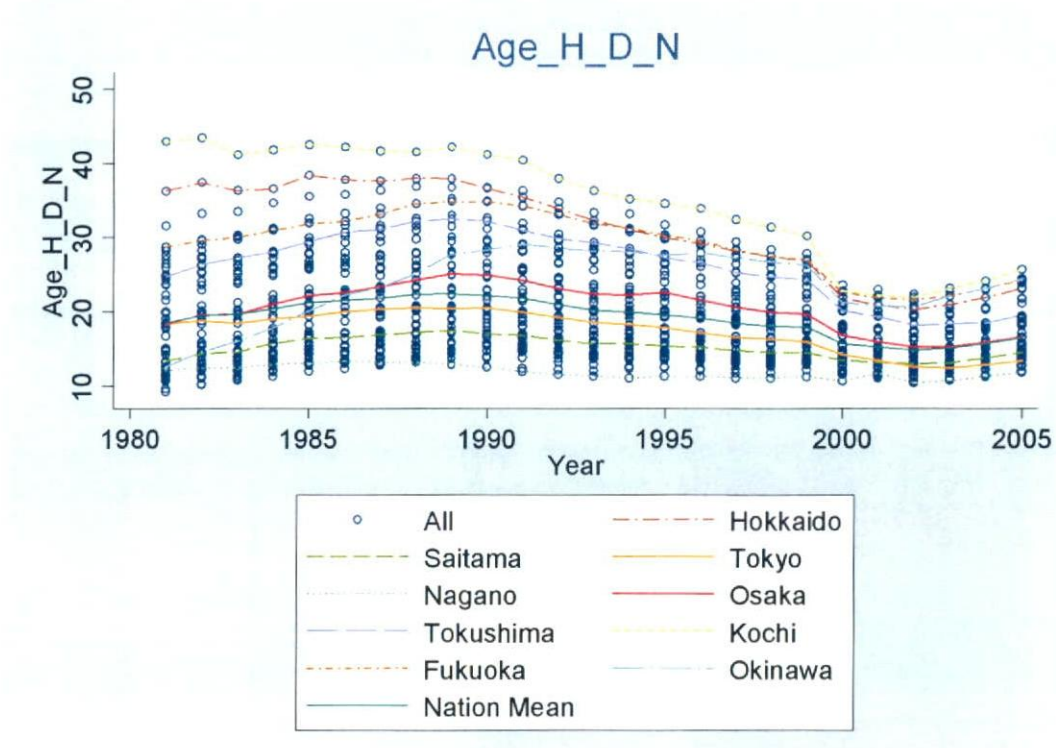

Source: Author's calculation which method and data sources are explained in text.

Figure 2-9. Aged Hospitalization Events per Population (E/N)

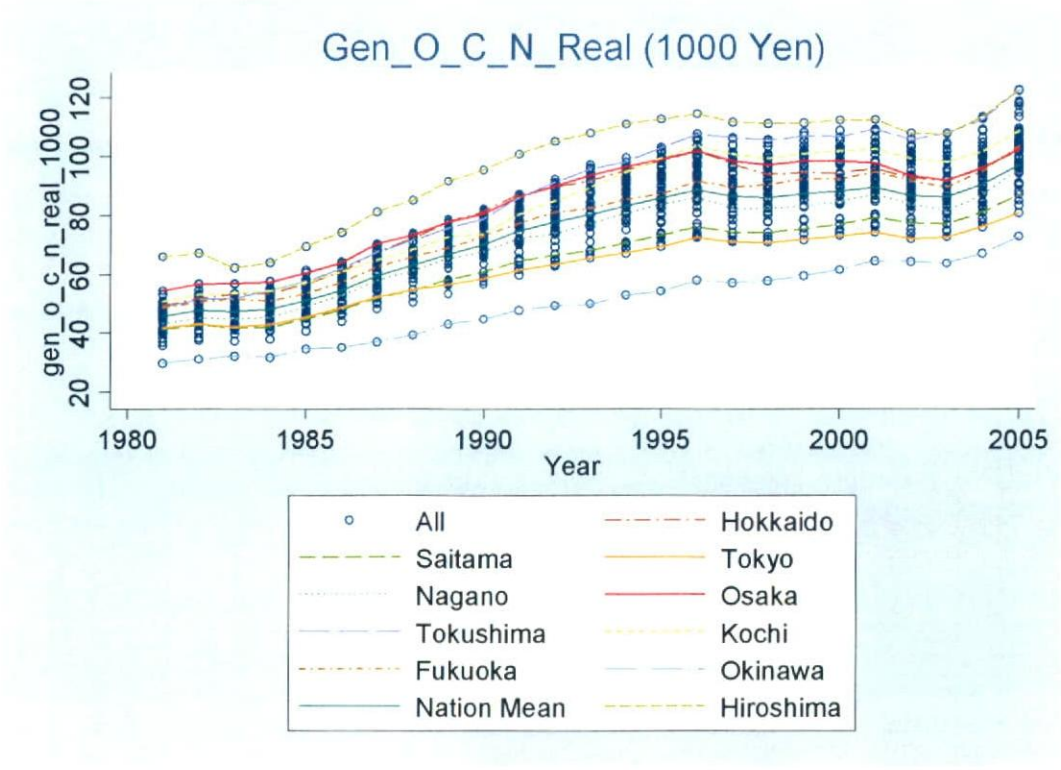

Source: Author's calculation which method and data sources are explained in text.

Figure 2-10. Aged Hospitalization Days per Person (D/N)

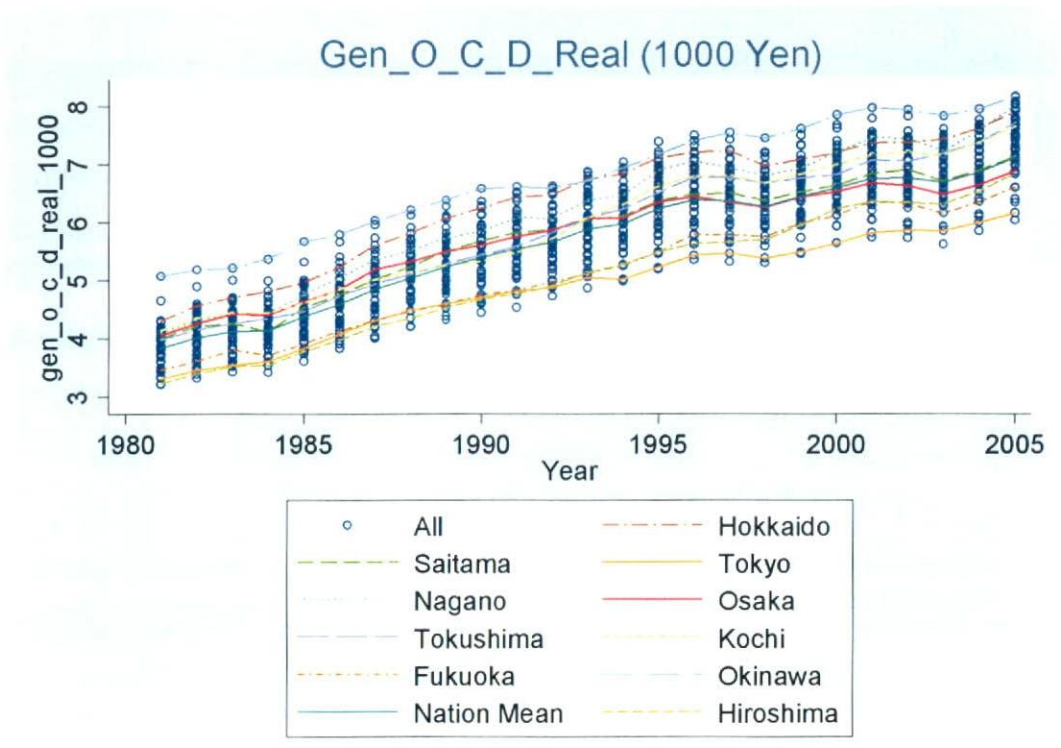

Source: Author's calculation which method and data sources are explained in text.

Figure 2-11. General Outpatient Real Cost per Population

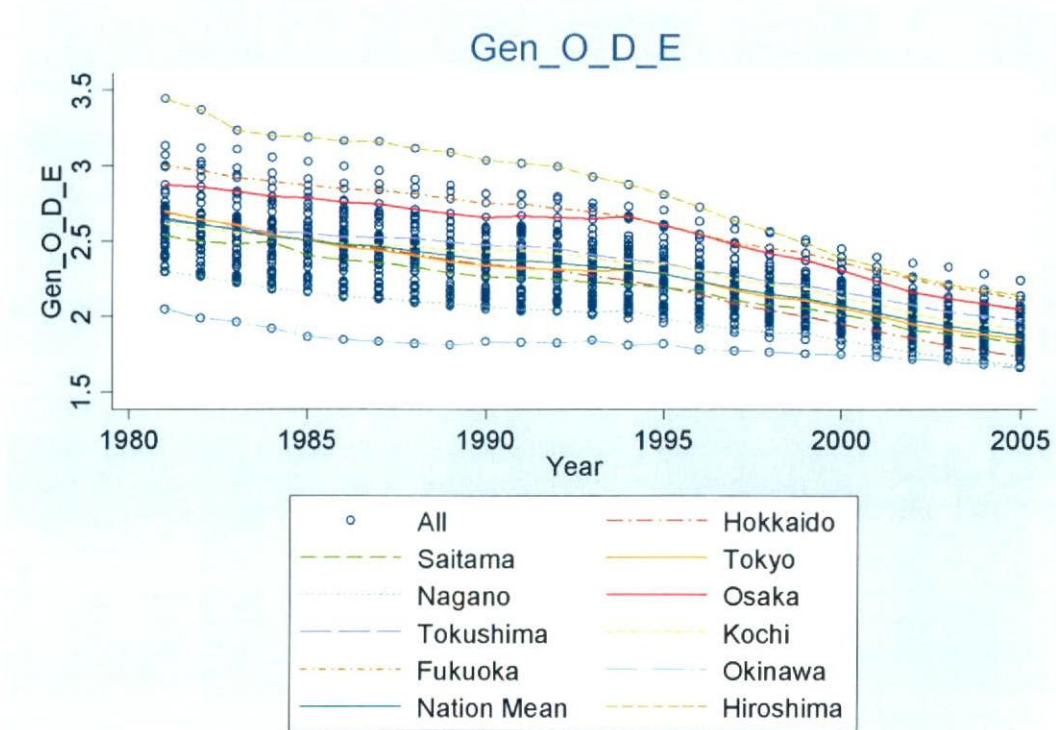

Source: Author's calculation which method and data sources are explained in text.

Figure 2-12. General Outpatient Real Cost per Day

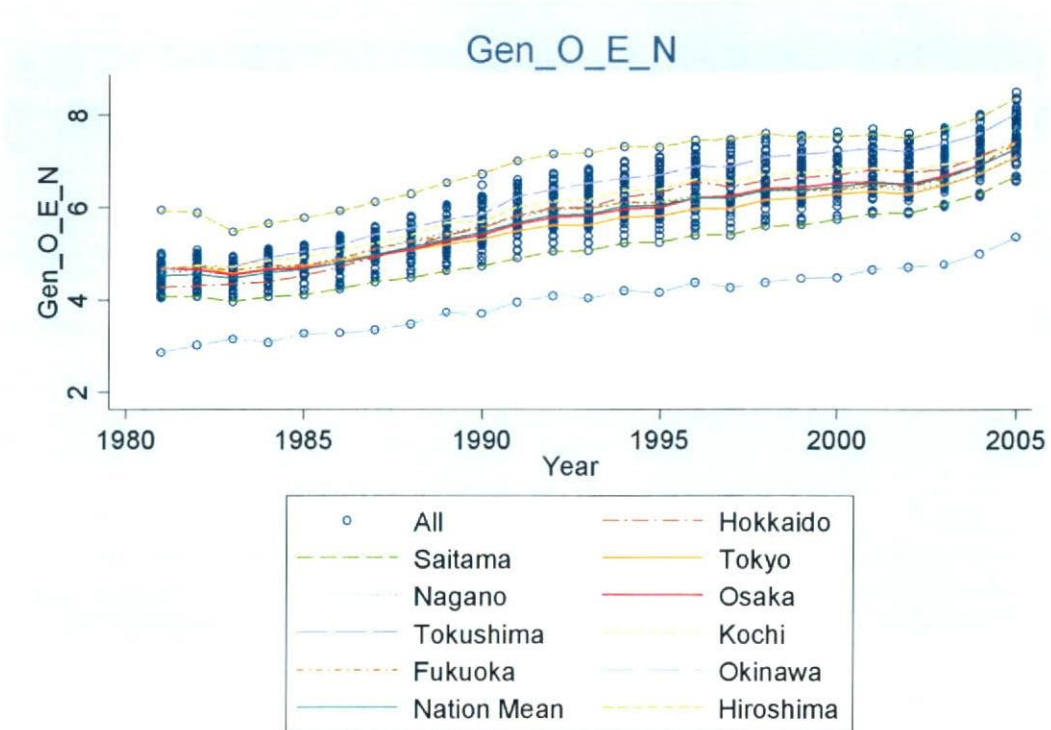

Source: Author's calculation which method and data sources are explained in text.

Figure 2-13. General Outpatient Days per Event

Source: Author's calculation which method and data sources are explained in text.

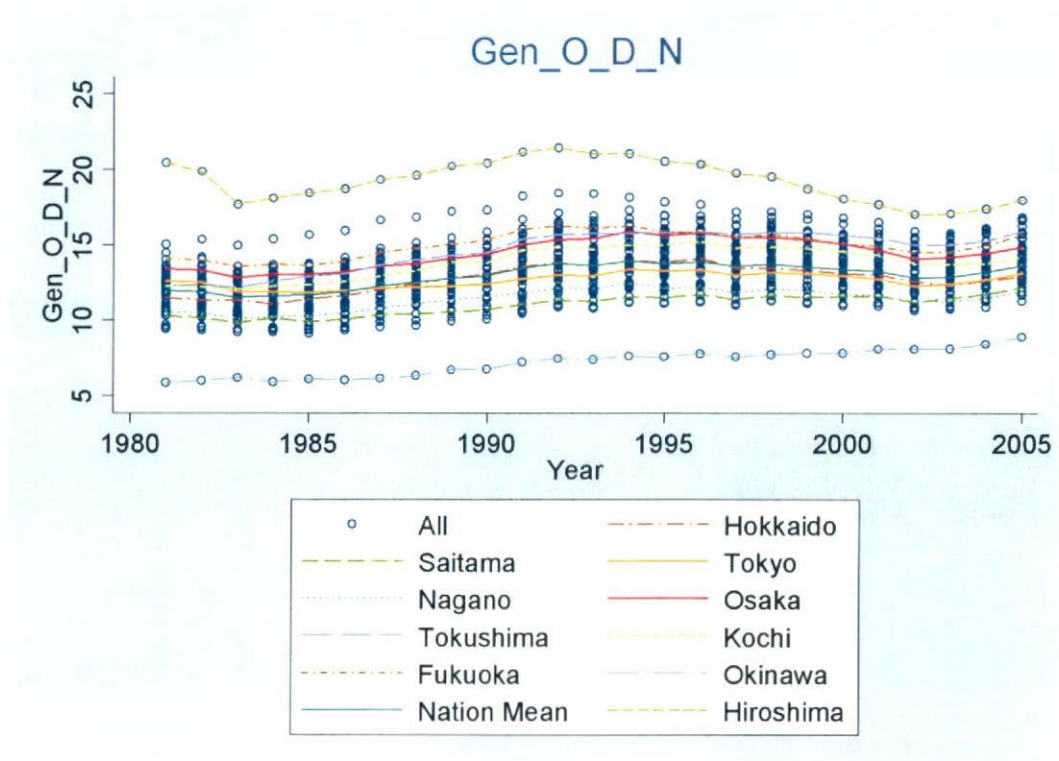

Figure 2-14. General Outpatient Events per Population

Source: Author's calculation which method and data sources are explained in text.

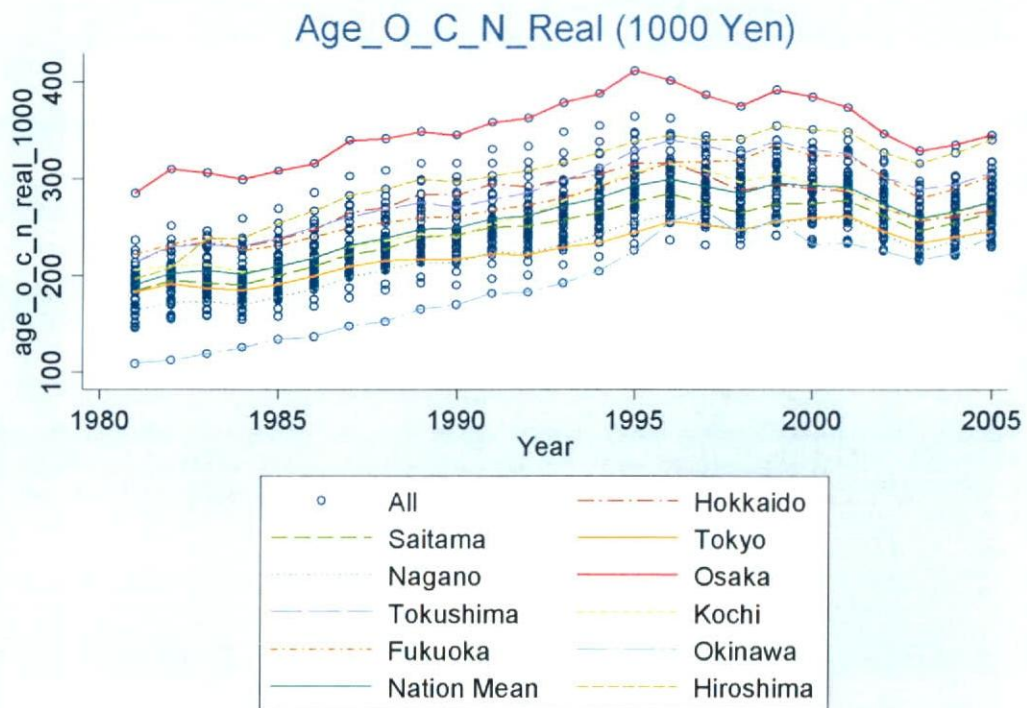

Figure 2-15. General Outpatient Days per Population

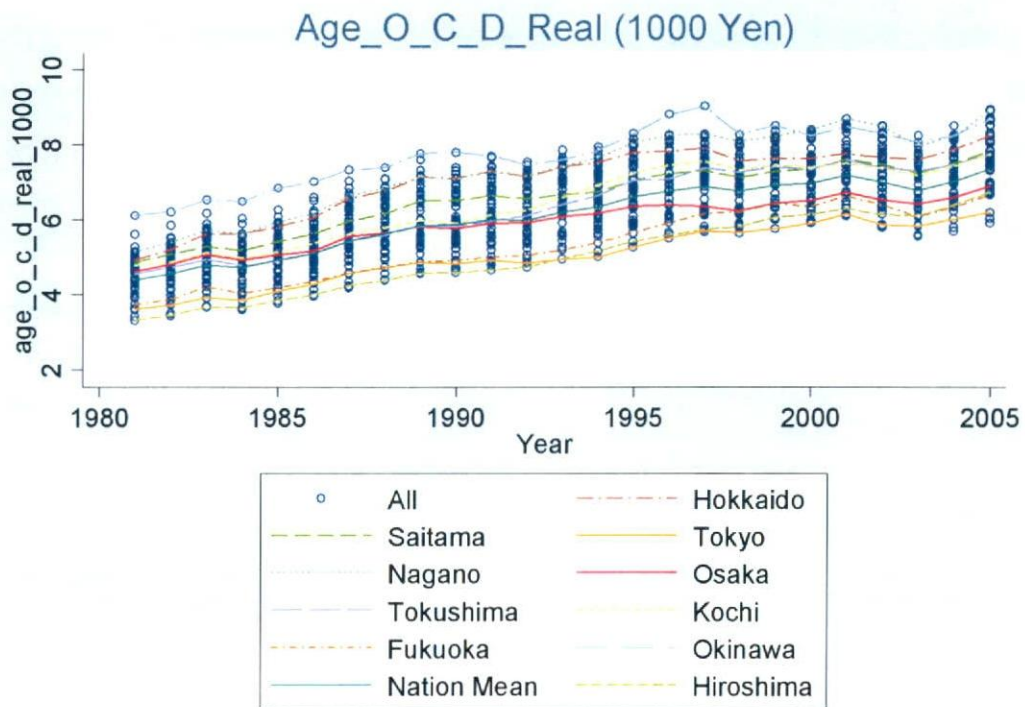

Source: Author's calculation which method and data sources are explained in text.

Figure 2-16. Aged Outpatient Real Cost per Population

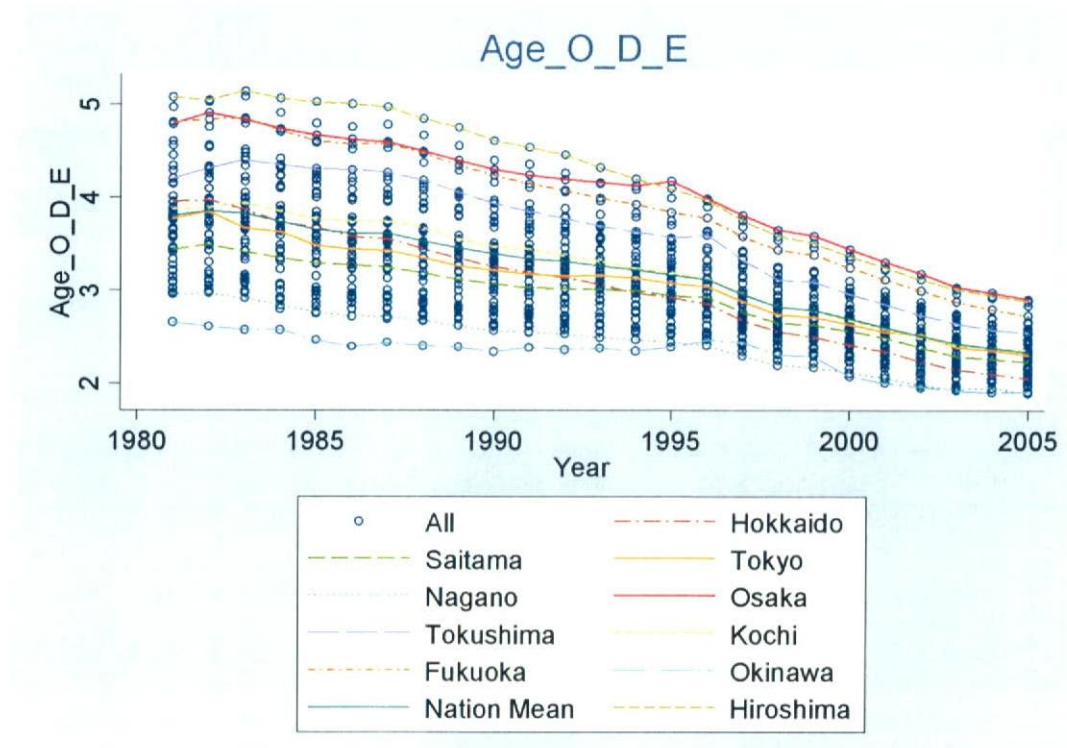

Source: Author's calculation which method and data sources are explained in text.

Figure 2-17. Aged Outpatient Real Cost per Day

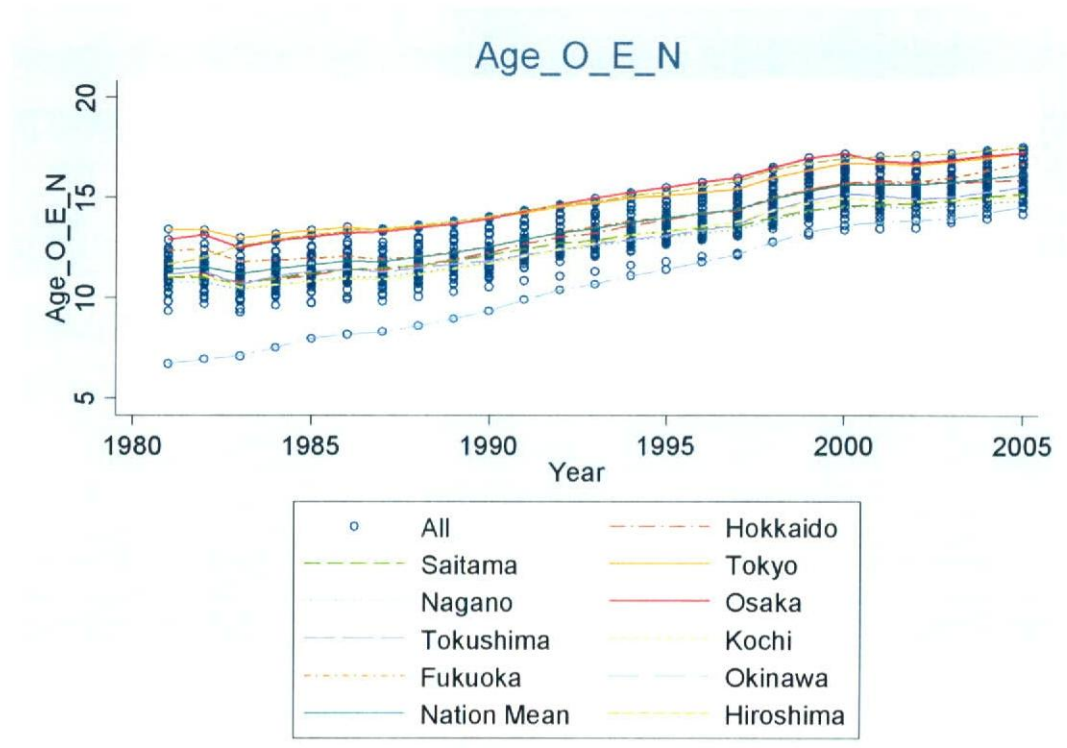

Source: Author's calculation which method and data sources are explained in text.

Figure 2-18. Aged Outpatient Days per Event

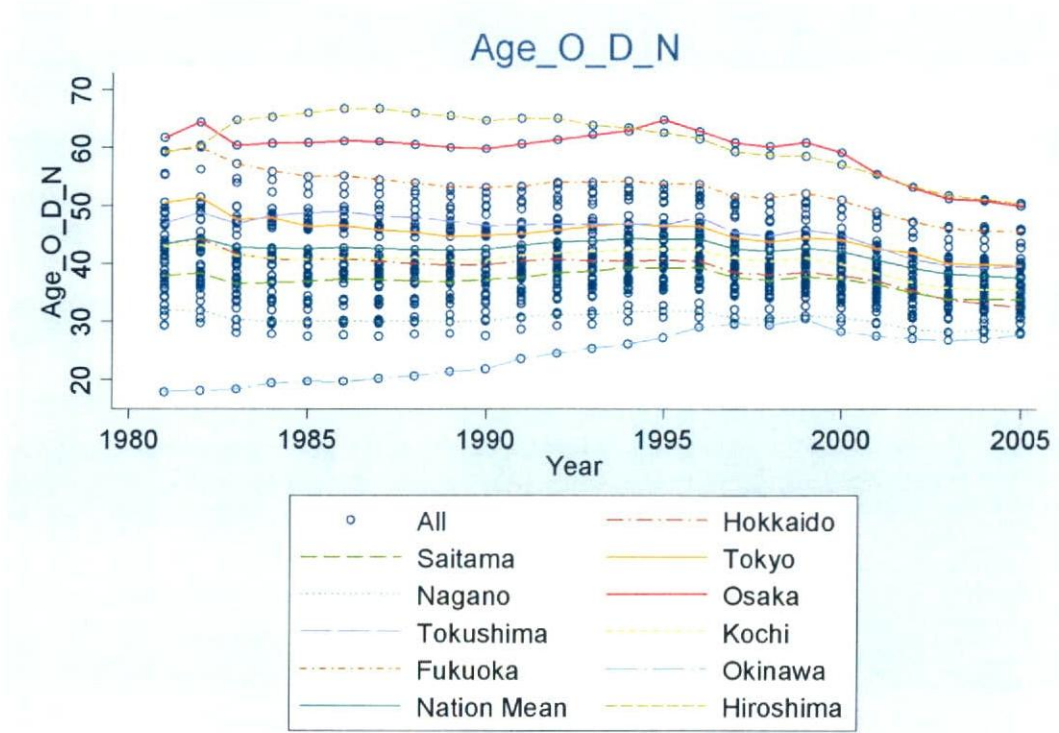

Source: Author's calculation which method and data sources are explained in text.

Figure 2-19. Aged Outpatient Events per Population

Source: Author's calculation which method and data sources are explained in text.

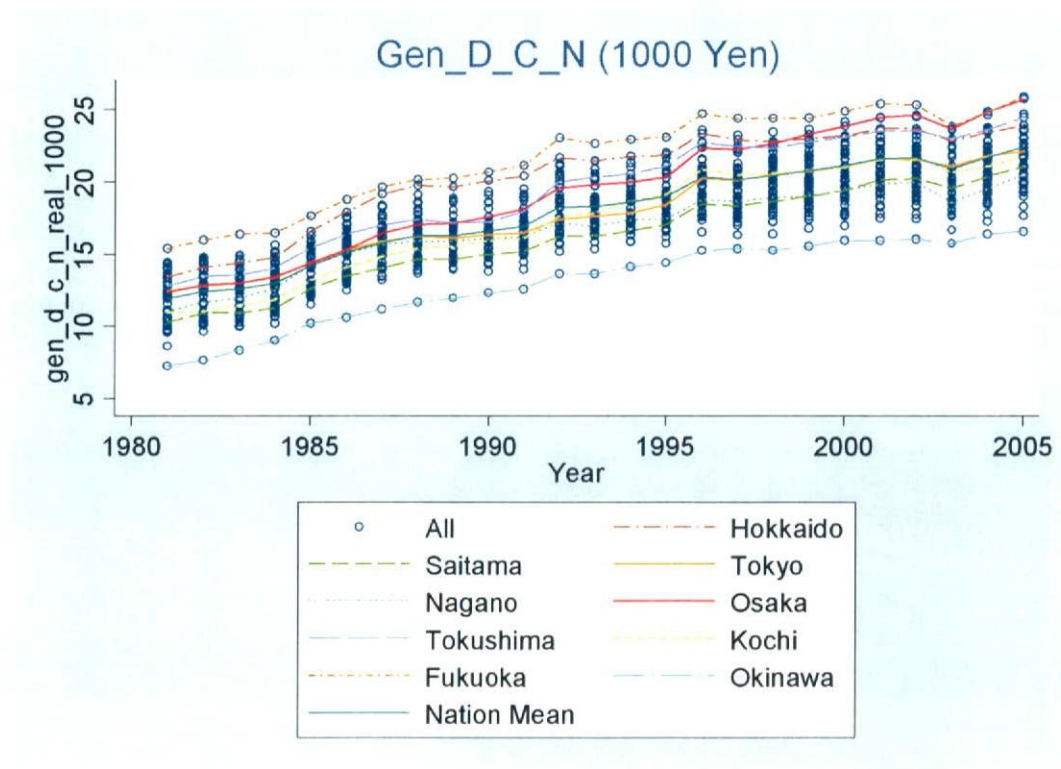

Figure 2-20. Aged Outpatient Days per Population

Source: Author's calculation which method and data sources are explained in text.

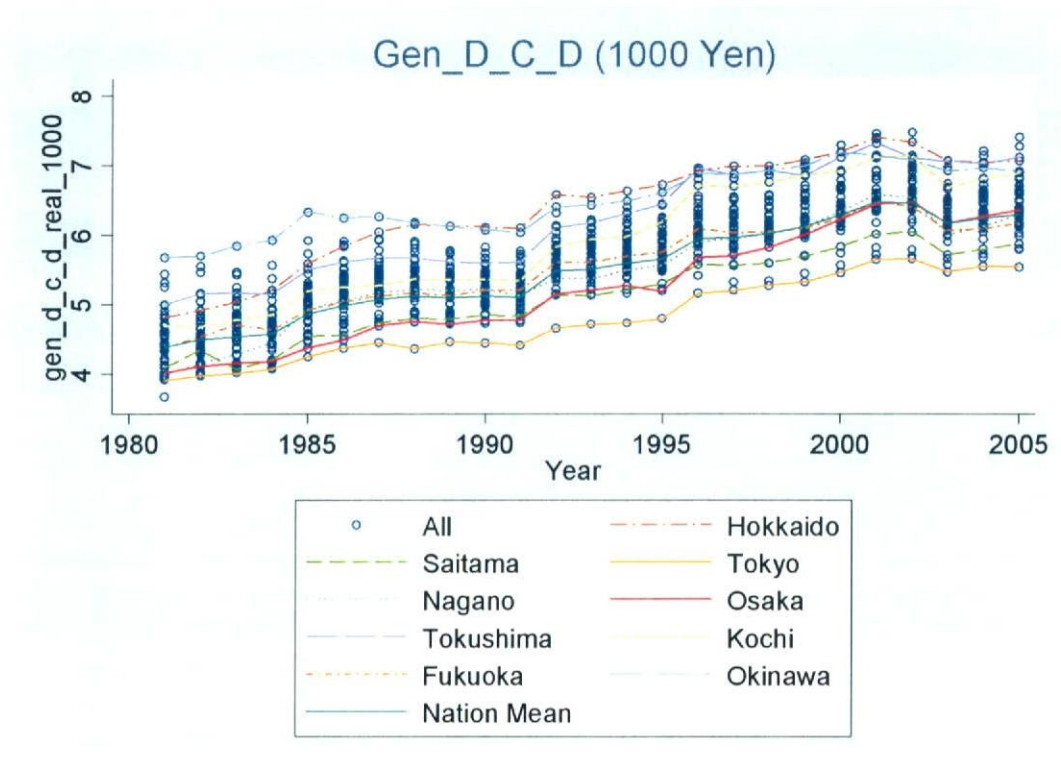

Figure 2-21. General Dental Real Cost per Population

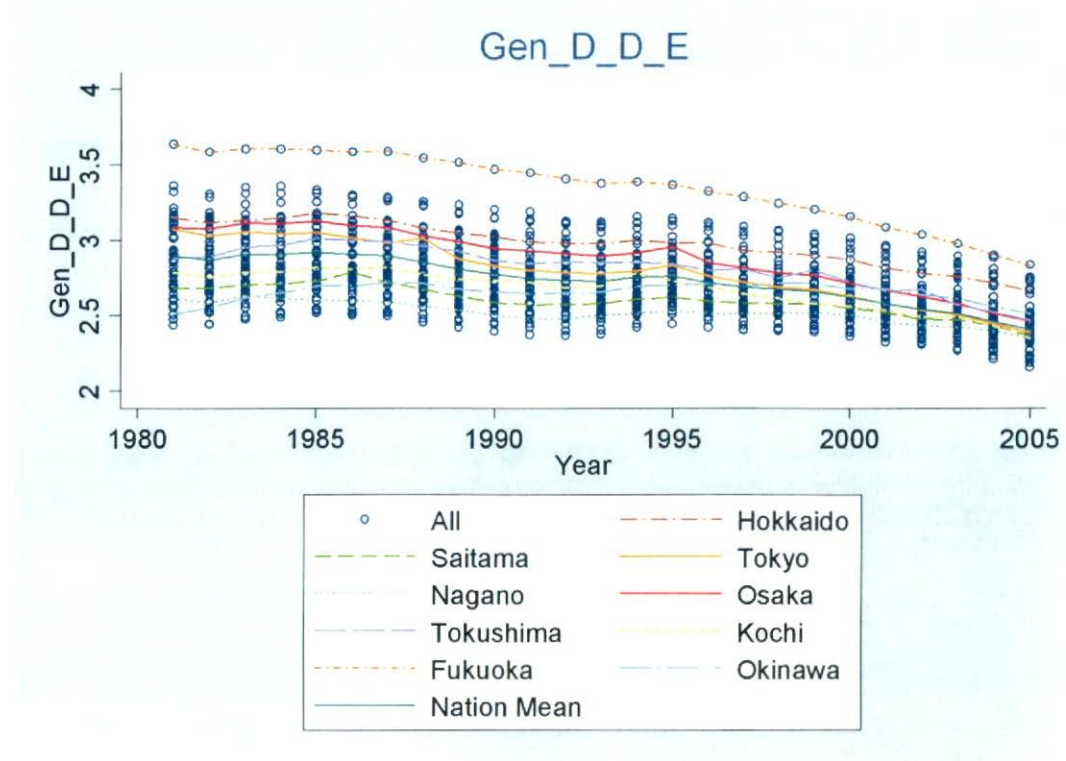

Source: Author's calculation which method and data sources are explained in text.

Figure 2-22. General Dental Real Cost per Day

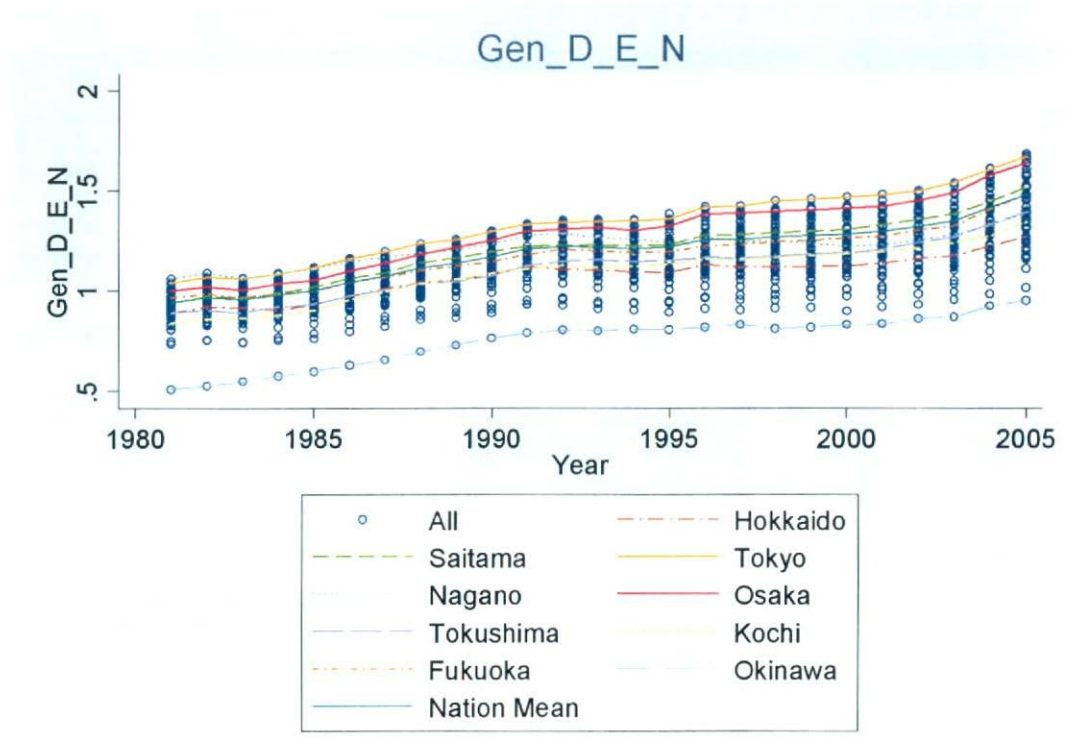

Source: Author's calculation which method and data sources are explained in text.

Figure 2-23. General Dental Days per Events

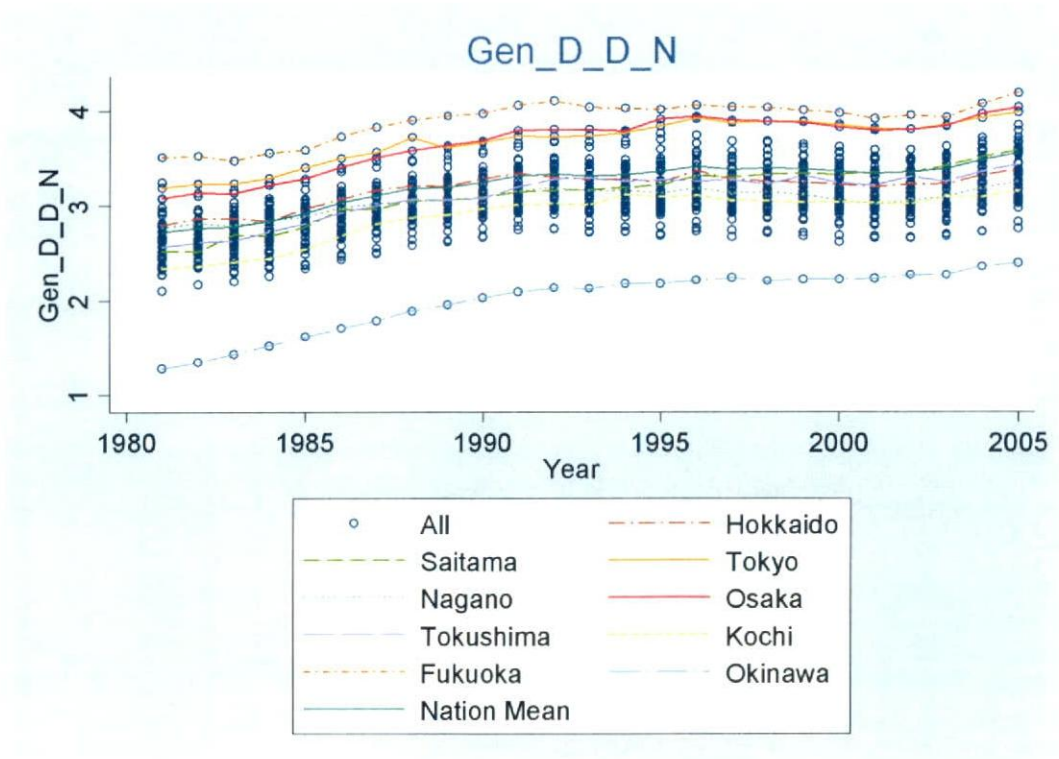

Source: Author's calculation which method and data sources are explained in text.
