Supporting Information

Additional Supporting Information may be found in the online version of this article:

Table S1. List of genes showing altered expression in microdissected focal follicular cell hyperplasias (FFCH) + adenomas (Ad) induced in the thyroids of rats using a two-stage thyroid carcinogenesis model (≥ 2 -fold, ≤ 0.5 -fold).

Table S2. List of genes showing altered expression in microdissected carcinomas (Ca) induced in the thyroid of rats using a two-stage thyroid carcinogenesis model (≥ 2 -fold, ≤ 0.5 -fold).

Table S3. List of genes showing altered expression in common in all types of thyroid proliferative lesion induced in rats using a two-stage thyroid carcinogenesis model (≥ 2 -fold, ≤ 0.5 -fold).
