Progress report – Code hierarchy

Topic	Code hierarchy	iCAT entry
Acute upper respiratory tract infections	In progress. Discussion on 10/1/2012 between ME and Topic Leader regarding code hierarchy development	No
Influenza and pneumonia	In progress. Discussion on 10/1/2012 between ME and Topic Leader regarding code hierarchy development	No
Other acute lower respiratory infections	In progress	No
Other diseases of upper respiratory tract	In progress. Discussion on 10/1/2012 between ME and Topic Leader regarding code hierarchy development	No
Chronic lower respiratory diseases	In progress	No

Progress report – Code hierarchy

Topic	Code hierarchy	iCAT entry
Lung diseases due to external agents	In progress	No
Suppurative and necrotic conditions of lower respiratory tract	In progress. Discussion on 10/1/2012 between ME and Topic Leader regarding code hierarchy development	No
Other diseases of pleura	Comments received from one sub-group member agreeing with changes, awaiting feedback from other members	No
Complications of transplant	In progress. Discussion on 10/1/2012 between ME and Topic Leader regarding code hierarchy development	No
Respiratory disorders in diseases classified elsewhere	In progress	No

Progress report – code hierarchy *continued*

Topic	Code hierarchy	iCAT entry
Neoplasms of respiratory & intrathoracic organs	In progress	No
Respiratory & cardiovascular disorders specific to the perinatal period	In progress	No
Pulmonary vascular disorders	In progress	No
Symptoms & signs involving the respiratory system	In progress	No
Injuries to the thorax & Effects of Heat and light	In progress. Discussion on 10/1/2012 between ME and Topic Leader regarding code hierarchy development	No
Sleep disorders	In progress. Discussion on 10/1/2012 between ME and Topic Leader regarding code hierarchy development	No

No definitions drafted or entered into iCAT as yet

Progress report- overlap/underlap areas

Topic	TAGs/WGs discussed	Discussions and decisions
Respiratory malformations Interstitial lung disease Other genetic lung diseases Disorders of pulmonary circulation	Rare diseases	Rare Diseases have completed (17/12/2011) their draft for the classification of rare respiratory diseases which has been entered into iCAT. These areas are yet to be reviewed by the Respiratory WG sub-groups.
Paediatric respiratory diseases	Paediatric	Paediatric TAG have set up a working group to review this area of the code hierarchy and will liaise when required regarding overlap areas.

Next steps

- Plans by May 2012 (launching β draft)
 - Topic working groups assigned with leaders 12/11
 - Special content experts consulted for input (Lung Ca; ILD; ENT; sleep medicine; etc)
 - Topic area email discussions and some conference calls Jan – Feb
 - Late February: Collate recommendations of subgroups
 - 1st half March: Review of recommended structure by entire WG
- Plans until 2014
- Issues to be solved (if any)

Progress IM TAG

February 2012

Progress – α -drafting, iCAT entry, etc.

WG	Code hierarchy	iCAT entry	definitions	Managing editor
Cardiovascular	In progress	No	No	Kohro T
Endocrinology (Dr. Shimatsu)	In progress	In progress	No	
Endocrinology (Dr. Tajima)	Completed	Almost completed	No	
Gastroenterology	Completed	Completed	In progress	Akiyama J
Haematology	Completed	No	No	
Hepatology and Pancreaticobiliary	Completed	Almost completed	In progress	Tomiya T
Nephrology	Completed	Almost completed	In progress	
Respiratory	In progress	No	No	
Rheumatology	Completed	Completed	In progress	

Progress – decisions, issues to be discussed

- Issues have been discussed
 - No multisystem disorder chapter
 - Check the linearization error
 - R-chapter to be hold until May 2012 (but will be concerned if necessary)
 - Prioritize Assigned TAGs for editing contents of the content model (requested to WHO/Stanford team)
 - Assign reviewers from each WG
 - Requesting WHO to send letters to the potential academic societies
- Issues to be discussed
 - Completing α -drafting and iCAT entry by the Las Vegas meeting (by the 1st week of March)?
 - Entering the contents of the foundation layer including definitions
 - Assigning managing editors of each WG
 - Clarifying roles of WG managing editors, IM-TAG managing editors and WG members for reviewing comments in the β -phase
 - Clarifying the review mechanisms of the β -phase
 - Request to Infectious Diseases Societies for cooperation in the revision of chapter I
