

Acknowledgments

We thank S. Ohmi, H. Fukuda, and K. Kurosawa for the MALDI-TOF analysis. We also thank Ayaka Sato for technical assistance. The fungal isolates used in this study were maintained and supplied by the National Bioresource Project of the Ministry of Education, Culture, Sports, Science and Technology, Japan. This study was supported by a Health Science Research Grant for "Research on Emerging and Re-emerging Infectious Diseases" (H20shinkouippan012) from the Ministry of Health, Labor, and Welfare of Japan and a Grant-in-Aid for Young Scientists (B), KAKENHI 20790329, from the Ministry of Education, Culture, Sports, Science and Technology, Japan.
