

Nephrology WG

Concept title (Entity title)	Level 1	Level 2	Level 3	Level 4	Level 5	Level 6	Level 7	Level 8	Level 9
Diseases of the genitourinary system			Symptoms, signs and clinical findings involving the urinary system						
			Haematuria						
				Macroscopic haematuria					
					Macroscopic haematuria of urinary tract origin				
						Macroscopic haematuria of urinary tract origin, intermittent			
						Macroscopic haematuria of urinary tract origin, persistent			
						Macroscopic haematuria of urinary tract origin, unknown whether intermittent or persistent			
					Macroscopic haematuria of unspecified origin				
						Macroscopic haematuria of unspecified origin, intermittent			
						Macroscopic haematuria of unspecified origin, persistent			
						Macroscopic haematuria of unspecified origin, unknown whether intermittent or persistent			
				Microscopic haematuria					
					Microscopic haematuria of urinary tract origin				
						Microscopic haematuria of urinary tract origin, intermittent			
						Microscopic haematuria of urinary tract origin, persistent			
						Microscopic haematuria of urinary tract origin, unknown whether intermittent or persistent			
					Microscopic haematuria of unspecified origin				
						Microscopic haematuria of unspecified origin, intermittent			
						Microscopic haematuria of unspecified origin, persistent			
						Microscopic haematuria of unspecified origin, unknown whether intermittent or persistent			
		Hydronephrosis							
		Renal colic							
Diseases of the urinary system									
			Neoplasms of the urinary system						
			Abnormal findings on examination of urine, without diagnosis						
			Proteinuria						
				Bence Jones proteinuria					
					Bence Jones proteinuria, intermittent				
					Bence Jones proteinuria, persistent				
					Bence Jones proteinuria, unknown whether intermittent or persistent				
				Isolated proteinuria					
				Gestational proteinuria					
					Gestational proteinuria, intermittent				
					Gestational proteinuria, persistent				
					Gestational proteinuria, unknown whether intermittent or persistent				
				Orthostatic proteinuria					
					Orthostatic proteinuria, intermittent				
					Orthostatic proteinuria, persistent				
					Orthostatic proteinuria, unknown whether intermittent or persistent				
			Pyuria						
				Pyuria associated with urinary tract infection					
				Pyuria associated cause classified elsewhere					
				Pyuria, unknown cause					
		Glycosuria							
			Renal glycosuria						
		Chyluria							
		Myoglobinuria							
		Bilirubinuria							
		Haemoglobinuria							
		Acetonuria							
		Abnormal levels of serum electrolytes in the urine							
			Hypercalciuria						
			Hyperkaluria						
			Hypermagnesiuria						
			Hyperphosphaturia						
			Hypocalciuria						
			Hypokaluria						
			Hypomagnesiuria						
			Hypophosphaturia						
		Elevated urine levels of drugs, medicaments and biological substances							
		Abnormal urine levels of substances chiefly nonmedicinal as to source							
		Abnormal findings on microbiological examination of urine							
		Abnormal findings on cytological and histological examination of urine							
		Other and unspecified abnormal findings in urine							
Structural developmental anomalies of the urinary system									
Glomerular diseases									
			Glomerular disease classified by clinical features/syndromes						
			Chronic proteinuria with focal and segmental hyalinosis						
			Nephritic syndrome						
			Recurrent and persistent glomerular haematuria						
			Nephrotic syndrome						
				Steroid-sensitive nephrotic syndrome					
				Steroid-resistant nephrotic syndrome					
				Multi-drug resistant nephrotic syndrome					
			Isolated proteinuria and albuminuria						
			Combined haematuria with proteinuria and albuminuria						
			Glomerular disease classified by histology or pathology						
			Glomerular disease with minor glomerular abnormality						
				Glomerular disease with minimal change disease					
				Glomerular disease with minor glomerular abnormality in diseases classified elsewhere					
			Glomerular disease with proliferative glomerular changes						
				Glomerular disease with diffuse mesangial proliferation					
					Diffuse mesangial proliferation in diseases classified elsewhere				
				Glomerular disease with focal and segmental proliferation					
					Focal and segmental proliferation in diseases classified elsewhere				
				Glomerular disease with diffuse proliferation					
					Diffuse endocapillary proliferation				
					Diffuse proliferation in conditions classified elsewhere				
			Glomerular disease with capillary necrosis						
			Glomerular disease with diffuse crescentic (>50%) glomerulonephritis						
				Glomerular disease with acute cellular crescentic glomerulonephritis					
				Glomerular disease with chronic fibrotic crescentic glomerulonephritis					
			Glomerular disease with focal and segmental sclerosis						
				Collapsing glomerular disease with focal and segmental sclerosis					
				Tip lesion glomerular disease with focal and segmental sclerosis					
				Hilar glomerular disease with focal and segmental sclerosis					
			Glomerular disease with membranous glomerulonephritis						
				Glomerular disease with membranous glomerulonephritis in diseases classified elsewhere					
			Glomerular disease with membranoproliferative glomerular changes						
				Glomerular disease with membranoproliferative glomerular changes in diseases classified elsewhere					
			Glomerular disease with dense deposit disease						
			Glomerular disease with IgA disease						
			Glomerular disease with chronic global sclerosis and advanced chronic injury						
			Glomerular disease with appearance typical of familial and genetic diseases						
				Thin basement membranes consistent with familial haematuria					
				Basement membrane splitting and changes consistent with Alport syndrome					
				Cytoplasmic vacuolation consistent with Fabry disease					
				Diffuse mesangial sclerosis					
				Fibronectin glomerulopathy					
				Lipoprotein glomerulopathy					
			Glomerular disease with appearance typical of systemic diseases classified elsewhere						

- Diabetic glomerular changes
- Lupus glomerulonephritis
- Pauci-immune proliferative glomerulonephritis
- Anti-glomerular basement membrane antibody mediated disease
- Glomerular disease associated with amyloidosis and other immunoglobulin deposition diseases
 - Amyloid AL
 - Amyloid AA
 - Other amyloid and fibrillary deposition diseases
 - Monoclonal immunoglobulin deposition disease [MIDD]
 - Heavy chain deposition disease
 - Light and heavy chain deposition disease
 - Light chain deposition disease
 - Fibrillary glomerulonephritis
 - Immunotactoid glomerulonephritis
- Ischaemic glomerular disease
- Glomerular cholesterol embolic disease
- Idiopathic nodular glomerulosclerosis (non-diabetic)
- Glomerular disease classified by aetiology
 - Idiopathic glomerular disease
 - Glomerular disease associated with secondary causes/systemic conditions
 - Glomerular disease associated with infectious/parasitic diseases
 - Glomerular disease associated with neoplastic disease
 - Glomerular disease associated with (non-diabetic) endocrine, nutritional and metabolic diseases
 - Glomerular disease associated with haematological disease
 - Glomerular disease associated with systemic autoimmune and immunological diseases
 - Glomerular disease associated with genetic and familial disease
 - Glomerular disease associated with familial haematuria
 - Glomerular disease associated with thin basement membrane nephropathy
 - Autosomal dominant familial haematuria - renal arteriolar tortuosity - contractures
 - Glomerular disease associated with Alport syndrome
 - Alport syndrome
 - Alport syndrome, X-linked
 - Alport syndrome, X-linked diffuse leiomyomatosis
 - Alport syndrome, autosomal dominant
 - Alport syndrome, autosomal recessive
 - Glomerular disease associated with Fabry disease
 - Glomerular disease associated with familial or genetic nephrotic syndrome or isolated proteinuria
 - Glomerular disease associated with congenital nephrotic syndrome; Finnish type
 - Glomerular disease associated with proteinuria or nephrotic syndrome; autosomal recessive
 - Glomerular disease associated with proteinuria or nephrotic syndrome; autosomal dominant
 - Glomerular disease associated with proteinuria or nephrotic syndrome; unspecified
 - Glomerular disease associated with diffuse mesangial sclerosis
 - Glomerular disease associated with other familial and genetic diseases classified elsewhere
 - MYH9 macrothrombocytopenia syndromes
 - Glomerular disease associated with complex genetic syndromes classified elsewhere
 - Glomerular disease associated with nephrotic syndrome and other major non-renal features
 - Denys-Drash syndrome
 - Frasier syndrome
 - Galloway-Mowat syndrome
 - Pierson syndrome
 - Schimke immuno-osseous dysplasia
 - Glomerular disease associated with identified familial and genetic systemic metabolic abnormalities
 - Glomerular disease associated with mitochondrial diseases
 - Glomerular disease associated with inherited complement system disorders
 - Glomerular disease associated with inherited coagulation system disorders
 - Glomerular disease associated with other disorders classified elsewhere
 - Glomerular disease associated with action myoclonus - renal failure syndrome
- Renal tubulo-interstitial diseases
 - Acute tubulo-interstitial nephritis
 - Acute tubulo-interstitial nephritis due to drugs, biological agents and toxins
 - Acute tubulo-interstitial nephritis due to infectious agent
 - Acute tubulo-interstitial nephritis associated with immunological disorders
 - Acute tubular necrosis
 - Acute tubular necrosis due to tubular toxins
 - Acute tubular necrosis due to tubular toxins produced internally
 - Acute tubular necrosis due to drugs, biological agents and environmental toxins
 - Acute tubular necrosis due to ischaemia/hypotension or other causes classified elsewhere
 - Acute tubular necrosis due to mixed ischaemic and toxic causes
 - Acute cortical necrosis, cause classified elsewhere
 - Acute renal [papillary] necrosis
 - Acute [renal] papillary necrosis due to drugs, biological agents and environmental toxins
 - Acute (renal) papillary necrosis cause classified elsewhere
 - Acute renal infection
 - Acute bacterial pyelonephritis
 - Acute viral and protozoal renal infection due to organisms classified elsewhere
 - Tubulo-interstitial nephritis, not specified as acute or chronic
 - Chronic tubulo-interstitial nephritis
 - Chronic tubulo-interstitial nephritis associated with familial and genetic diseases
 - Juvenile nephronophthisis
 - Medullary cystic kidney disease, Type 1
 - Familial hyperuricemic nephropathy
 - Medullary cystic kidney disease Type 2
 - Chronic tubulo-interstitial nephritis associated with drugs, toxins and environmental agents
 - Aristolochic acid nephropathy
 - Balkan nephropathy
 - Analgesic nephropathy
 - Nephropathy induced by heavy metals
 - Chronic tubulo-interstitial nephritis associated with neoplastic disease
 - Myeloma cast nephropathy
 - Chronic tubulo-interstitial nephritis associated with metabolic disease
 - Hypophosphataemic rickets
 - Autosomal dominant hypophosphataemic rickets
 - Autosomal recessive hypophosphataemic rickets
 - Hypophosphataemic rickets with hypercalcaemia
 - X-linked hypophosphataemia
 - Urate (gouty) nephropathy
 - Chronic tubulo-interstitial nephritis associated with kidney infections
 - Chronic tubulo-interstitial nephritis associated with systemic connective tissue disorders
 - Tubulo-interstitial nephritis-associated uveitis syndrome
 - Chronic tubulo-interstitial nephritis associated with blood diseases and disorders involving the immune mechanisms
 - Renal sarcoidosis
 - Chronic tubulo-interstitial nephritis associated with ischaemia
 - Chronic tubulo-interstitial nephritis associated with radiation or trauma
 - Chronic tubulo-interstitial nephritis associated with renal transplantation
 - Chronic tubulo-interstitial nephritis, cause not known
 - Chronic tubulo-interstitial nephritis associated with other diseases classified elsewhere
 - Obstructive and reflux nephropathy
 - Hydronephrosis with ureteropelvic junction obstruction
 - Hydronephrosis with ureteropelvic junction obstruction, acquired
 - Hydronephrosis with ureteropelvic junction obstruction due to cause classified elsewhere
 - Hydronephrosis with ureteropelvic junction obstruction, congenital
 - Hydronephrosis with ureteral obstruction (except the ureteropelvic junction and the ureteral orifice)
 - Hydronephrosis with ureteral obstruction (except the ureteropelvic junction and the ureteral orifice, acquired)
 - Hydronephrosis with ureteral obstruction, acquired, due to cause classified elsewhere

- Hydronephrosis with ureteral obstruction, congenital
- Hydronephrosis with ureteral orifice obstruction
 - Hydronephrosis with ureteral orifice obstruction, acquired
 - Hydronephrosis with ureteral orifice obstruction, acquired, due to cause classified elsewhere
 - Hydronephrosis with ureteral orifice obstruction, congenital
- Hydronephrosis due to bladder obstruction
 - Hydronephrosis due to bladder obstruction, acquired
 - Hydronephrosis due to bladder obstruction, acquired, due to cause classified elsewhere
 - Hydronephrosis due to bladder obstruction, congenital
- Other and unspecified hydronephrosis
- Hydronephrosis and reflux nephropathy with vesicoureteral or vesico-uretero-renal reflux
 - Hydronephrosis and reflux nephropathy with vesicoureteral or vesico-uretero-renal reflux, acquired
 - Hydronephrosis and reflux nephropathy with vesicoureteral or vesico-uretero-renal reflux, acquired, due to cause classified elsewhere
 - Hydronephrosis and reflux nephropathy with vesicoureteral or vesico-uretero-renal reflux, congenital
- Certain obstructive and reflux uropathy
 - Other obstructive and reflux uropathy, acquired
 - Other obstructive and reflux uropathy, congenital
- Nephrocalcinosis
- Pyonephrosis
- Renal and perinephric abscess
- Kidney failure
 - Acute kidney disease and disorders
 - Acute kidney injury
 - Acute kidney injury, Stage 1
 - Acute kidney injury, Stage 2
 - Acute kidney injury, Stage 3
 - Acute kidney disease without acute kidney injury
 - Chronic kidney disease
 - Chronic kidney disease, stage 1
 - Chronic kidney disease, stage 2
 - Chronic kidney disease, stage 3
 - Chronic kidney disease, stage 3a
 - Chronic kidney disease, stage 3b
 - Chronic kidney disease, stage 4
 - Chronic kidney disease, stage 5
 - Chronic kidney disease, stage 5, not on dialysis
 - Chronic kidney disease, stage 5, on dialysis
 - Renal retinitis in chronic kidney disease, stage 5
 - Chronic kidney disease, unspecified
 - Chronic kidney disease - mineral and bone disease
 - Abnormal bone disease in chronic kidney disease
 - Osteopathy in renal osteodystrophy
 - Malabsorption
 - Abnormal mineralization of bone
 - Abnormal turnover of bone
 - Abnormal volume of bone
 - Suspected renal osteodystrophy
 - Other renal osteodystrophy
 - Biochemical abnormalities in chronic kidney disease
 - Hypercalcaemia in chronic kidney disease
 - Hypocalcaemia in chronic kidney disease
 - Hyperphosphatemia in chronic kidney disease
 - Hypophosphatemia in chronic kidney disease
 - High intact parathyroid hormone in chronic kidney disease
 - Low intact parathyroid hormone in chronic kidney disease
 - Low vitamin D in chronic kidney disease
 - High alkaline phosphatase in chronic kidney disease
 - Low alkaline phosphatase in chronic kidney disease
 - Calcification abnormalities
 - Calcific uraemic arteriopathy
 - Calcification of the vasculature
 - Calcification of the valves
 - Calcification of the soft tissue
 - Other calcification
- Urolithiasis
 - Calculus of upper urinary tract
 - Calculus of kidney
 - Calculus of renal calyces
 - Calculus of renal pelvis
 - Staghorn calculus
 - Calculus of ureter
 - Urinary calculus of upper urinary tract, unspecified
 - Calculus of lower urinary tract
 - Calculus in bladder
 - Calculus in urethra
 - Calculus of bowel segments for urinary diversion
 - Other lower urinary tract calculus
 - Calculus of lower urinary tract, unspecified
- Cystic and dysplastic kidney disease
 - Neonatal diabetes - congenital hypothyroidism - congenital glaucoma - hepatic fibrosis - polycystic kidneys
 - Senior-Bouchard syndrome
 - Cystic kidney disease, non-familial, non-genetic
 - Simple renal cyst
 - Solitary simple renal cyst
 - Multiple simple renal cysts
 - Loculated renal cyst
 - Solitary loculated renal cyst
 - Multiple loculated renal cysts
 - Complex renal cyst
 - Solitary complex renal cyst
 - Multiple complex renal cysts
 - Acquired uremic cystic kidney disease
 - Localised multi-cystic kidney disease
 - Post traumatic renal cyst(s)
 - Medullary sponge kidney
 - Medullary sponge kidney, unilateral
 - Medullary sponge kidney, bilateral
 - Multicystic renal dysplasia
 - Multicystic renal dysplasia, unilateral
 - Multicystic renal dysplasia, bilateral
 - Cyst adjacent to renal pelvis
 - Renal parapelvic cyst
 - Renal peripelvic cyst
 - Pyelocalyceal renal cyst
 - Perirenal lymphangioma
 - Subcapsular and perirenal urinoma
 - Perirenal or subcapsular lymphangioma
 - Hereditary cystic and dysplastic kidney disease, dominant inheritance
 - Autosomal dominant polycystic kidney disease
 - Autosomal dominant polycystic kidney disease type 1 without tuberous sclerosis
 - Autosomal dominant polycystic kidney disease, Type 2
 - Medullary cystic kidney disease, Type 1
 - Familial hyperuricemic nephropathy

- Glomerulocystic disease
- Medullary cystic kidney disease Type 2
- Syndromes with features of hereditary cystic or dysplastic kidney disease, dominant inheritance
 - Beckwith-Wiedemann syndrome
 - Branchio-oto-renal syndrome
 - Pallister-Hall syndrome
 - Renal cyst and diabetes syndrome
 - Townes-Brocks syndrome
 - Von Hippel-Lindau disease
 - Oral-facial-digital syndrome type 1
 - Alagille syndrome
 - Tuberous sclerosis
 - Angiomyolipomatosis and isolated cysts associated with tuberous sclerosis
 - Autosomal dominant polycystic kidney disease type 1 with tuberous sclerosis
 - Noonan syndrome
- Hereditary cystic or dysplastic kidney disease, recessive inheritance
 - Autosomal recessive polycystic kidney disease
 - Syndromes with features of hereditary cystic kidney disease, recessive inheritance
 - Alström syndrome
 - Bardet-Biedl syndrome
 - Laurence-Moon syndrome
 - Cerebro-reno-digital syndrome
 - Laurence-Moon syndrome
 - Meckel-Gruber syndrome
 - Senior-Loken syndrome
 - Joubert syndrome with oculorenal defect
 - Joubert syndrome with renal defect
 - Zellweger syndrome
 - Jensen syndrome
 - Nephronophthisis
 - Adult familial nephronophthisis - spastic quadripareisis
 - Juvenile nephronophthisis
- Hereditary cystic and dysplastic kidney disease, chromosomal abnormalities
 - Hereditary cystic kidney disease, known chromosomal abnormality
- Hereditary or congenital cystic or dysplastic kidney disease, inheritance unknown
 - Multicystic renal dysplasia
- Renal cystic neoplasms
 - Renal cystic neoplasms, cystic partially differentiated nephroblastoma
 - Renal cystic neoplasms, cystic renal cell carcinoma
 - Renal cystic neoplasms, mixed epithelial and stromal tumour
 - Renal cystic neoplasms, multilocular cystic nephroma
- Certain specified disorders of kidney and ureter
 - Macroscopic changes of size of the kidney
 - Smooth contracted kidney
 - Smooth contracted kidney associated with a cause classified elsewhere
 - Irregularly contracted kidney
 - Irregularly contracted kidney associated with a cause classified elsewhere
 - Small kidney
 - Small kidney, unilateral
 - Small kidney, bilateral
 - Hypertrophied kidney
 - Other disorders of kidney and ureter, not elsewhere classified
 - Nephropatosis
 - Inflammatory diseases of the renal pelvis or the ureter without tubulo-interstitial nephritis
 - Infectious diseases of the renal pelvis or the ureter without tubulo-interstitial nephritis
 - Non-infectious diseases of the renal pelvis or the ureter without tubulo-interstitial nephritis
 - Hydroureter
 - Ureteral kinking or deviation without obstruction
 - Ureteral fistula
 - Uretero-intestinal fistula
 - Ureteral fistula to the female genital tract
 - Uretero-cutaneous fistula
 - Uretero-arterial fistula
 - Ureteral fistula, not elsewhere classified
 - Vesico-ureteric reflux, acquired
 - Ischaemia and infarction of kidney
 - Complete arterial ischaemia and infarction of kidney
 - Complete arterial ischaemia and infarction of kidney due to renal artery obstruction
 - Complete arterial ischaemia and infarction of kidney due to embolism
 - Complete arterial ischaemia and infarction of kidney due to thrombosis
 - Complete arterial ischaemia and infarction of kidney due to dissection
 - Complete arterial ischaemia and infarction of kidney due to other cause
 - Complete venous ischaemia and infarction of kidney
 - Complete venous ischaemia and infarction of kidney due to renal venous obstruction
 - Complete venous ischaemia and infarction of kidney due to renal vein thrombosis
 - Complete venous ischaemia and infarction of kidney, other cause
 - Segmental arterial ischaemia and infarction of kidney
 - Segmental arterial ischaemia and infarction of kidney due to renal artery obstruction
 - Segmental arterial ischaemia and infarction of kidney due to embolism
 - Segmental arterial ischaemia and infarction of kidney due to thrombosis
 - Segmental arterial ischaemia and infarction of kidney due to dissection
 - Segmental arterial ischaemia and infarction of kidney, other
 - Segmental venous ischaemia and infarction of kidney
 - Segmental venous ischaemia and infarction of kidney due to thrombosis
 - Segmental venous ischaemia and infarction of kidney, other
 - Posttraumatic ischaemia and infarction of kidney
 - Posttraumatic complete ischemia and infarction of kidney
 - Posttraumatic segmental ischemia and infarction of kidney
 - Postinterventional ischaemia and infarction of kidney
 - Postinterventional complete ischemia and infarction of kidney
 - Postinterventional segmental ischemia and infarction of kidney
 - Other specified disorders of kidney and ureter
- Renal tubular function disorders
 - Disorders with impaired tubular function, not elsewhere classified
 - Hereditary renal hypouricemia
 - Hyperuricemia - anaemia - renal failure
 - Hypotonia-cystinuria type 1
 - Atypical hypotonia-cystinuria syndrome
 - Hypotonia-cystinuria syndrome
 - Nephrogenic syndrome of inappropriate antidiuresis
 - Primary familial hypomagnesaemia
 - Familial hypokalaemia - hypercalciuria
 - Familial hypokalaemia - hypomagnesaemia
 - Familial hypomagnesaemia - hypercalciuria - nephrocalcinosis - severe ocular involvement
 - Familial hypomagnesaemia - hypercalciuria - nephrocalcinosis
 - Claudemans type isolated autosomal dominant hypomagnesaemia
 - Hypomagnesaemia caused by selective magnesium malabsorption
 - Hypomagnesaemia with hypocalciuria
 - Hypomagnesaemia with normocalciuria
 - Pseudohypoaldosteronism type 1
 - Generalized pseudohypoaldosteronism type 1
 - Renal pseudohypoaldosteronism type 1
 - ScSAME syndrome
 - Transient pseudohypoaldosteronism

- Cystinuria
 - Cystinuria type A
 - Cystinuria type B
- Certain disorders associated with impaired kidney function
- Disorder associated with impaired kidney function, unspecified
- Fanconi syndrome
 - Fanconi syndrome associated with familial and genetic disorders elsewhere classified
 - Lowe syndrome
 - Fanconi-Bickel syndrome
 - Dent disease
 - Dent disease type 1
 - Dent disease type 2
 - Acquired Fanconi syndrome associated with causes classified elsewhere
- Bartter syndrome
 - Bartter syndrome with hypocalcaemia
 - Classic Bartter syndrome
 - bartter's syndrome
 - Bartter syndrome type 1
 - Bartter syndrome type 2
 - Bartter syndrome type 3
 - Bartter syndrome type 4
 - Infantile Bartter syndrome with deafness
 - Antenatal Bartter syndrome
- Renal tubular acidosis
 - Renal tubular acidosis - deafness
 - Osteopetrosis with renal tubular acidosis
 - Acquired renal tubular acidosis
 - Renal tubular acidosis due to familial and genetic disorders
 - Type I renal tubular acidosis
 - Distal (Type I) renal tubular acidosis due to familial and genetic disease classified elsewhere
 - Sporadic congenital renal tubular acidosis type 1
 - Autosomal dominant renal tubular acidosis type 1
 - Autosomal recessive renal tubular acidosis type 1
 - Renal tubular acidosis type 1 due to systemic disorders elsewhere classified
 - Acquired distal (Type I) renal tubular acidosis
 - Type II renal tubular acidosis
 - Proximal (Type II) renal tubular acidosis due to familial and genetic disease
 - Familial pure proximal (Type II) renal tubular acidosis
 - Proximal renal tubular acidosis with ocular abnormalities and intellectual deficit
 - Acquired proximal (Type II) renal tubular acidosis with causes elsewhere classified
 - Type III renal tubular acidosis
- Renal glycosuria
 - Renal glycosuria associated with acute or chronic renal failure
 - Renal glycosuria associated with familial and genetic disorders elsewhere classified
- Tubular disorders of sodium and potassium transport
 - Inherited tubular disorders of potassium and sodium transport
 - Acquired tubular disorders of potassium and sodium transport associated with causes classified elsewhere
- Aminoacidurias
 - Aminoacidurias due to familial and genetic disorders elsewhere classified
 - Acquired aminoaciduria associated with causes classified elsewhere
- Renal magnesium wasting
 - Renal magnesium wasting associated with familial and genetic disorders classified elsewhere
 - Acquired renal magnesium wasting
- Disorders of calcium and phosphate excretion
 - Pseudohypoparathyroidism
 - Albright hereditary osteodystrophy
 - Pseudohypoparathyroidism type 1A
 - Cataract in pseudohypoparathyroidism
 - Pseudohypoparathyroidism type 1B
 - Pseudohypoparathyroidism type 1C
 - Pseudohypoparathyroidism type 2
 - Pseudopseudohypoparathyroidism
 - Phosphate losing hypophosphataemia
 - Phosphate losing hypophosphataemia associated with familial and genetic disorders elsewhere classified
 - Hypophosphataemic rickets
 - Autosomal dominant hypophosphataemic rickets
 - Autosomal recessive hypophosphataemic rickets
 - Hypophosphataemic rickets with hypercalciuria
 - X-linked hypophosphataemia
 - Acquired hyperphosphaturia and hypophosphataemia
 - Acquired hyperphosphaturia and hypophosphataemia due to causes elsewhere classified
- Disorders of water excretion
 - Nephrogenic diabetes insipidus
 - Nephrogenic diabetes insipidus - intracranial calcification
 - Nephrogenic Diabetes Insipidus associated with familial or genetic disorders elsewhere classified
 - Acquired nephrogenic diabetes insipidus due to causes classified elsewhere
 - Nephrogenic Syndrome of Inappropriate Anti-Diuresis
- Renal hypocalciuria
 - Familial hypocalciuric hypercalcaemia
 - Acquired hypocalciuric hypercalcaemia
 - Hypocalciuria associated with tubular disorders classified elsewhere
- Certain disorders of kidney and ureter in diseases classified elsewhere
- Certain disorders of kidney and ureter in infectious and parasitic diseases classified elsewhere
 - Renal late syphilis
- Certain disorders of kidney and ureter in other diseases classified elsewhere
- Other diseases of urinary system
- Other disorders of the genitourinary system
- Persons encountering health services in circumstances related to reproduction

Rheumatology WG

Concept title (Entity title)	Level 1	Level 2	Level 3	Level 4	Level 5	Level 6	Level 7	Level 8
Diseases of the musculoskeletal system and connective tissue								
Neoplasms of the musculoskeletal system								
Symptoms, signs and clinical findings involving the nervous and musculoskeletal system								
Certain joint disorders, not elsewhere classified								
Fistula of joint								
Flail joint								
Other instability of joint								
Effusion of joint								
Not aspirated effusion of joint								
Effusion of joint containing blood								
Effusion of joint without blood								
Effusion of joint, not otherwise specified								
Pain in joint								
Stiffness of joint								
Osteophyte								
Certain specified joint disorders								
Calcification of joint								
Periarticular calcification								
Periarticular ossification								
Joint disorder, unspecified								
Autoinflammatory syndromes								
Granulomatous arthritis of childhood								
Early-onset sarcoidosis								
Early-onset sarcoidosis with primarily pulmonary manifestations								
Infantile onset panniculitis with systemic granulomatosis								
Pyogenic arthritis - pyoderma gangrenosum - acne								
PAPA - predominantly arthritis								
PAPA - predominantly cutaneous								
Familial mediterranean fever								
Familial mediterranean fever with amyloidosis								
Mevalonate kinase [MKV] deficiency with recurrent fever								
SAPHO syndrome								
Cryopyrin-associated periodic syndromes								
Chronic infantile neurological, cutaneous and articular syndrome [CINCA]								
Chronic infantile neurological cutaneous and articular syndrome with CNS disease								
Familial cold autoinflammatory syndrome								
Muckle-Wells syndrome								
Muckle Wells Syndrome with amyloidosis								
Muckle Wells Syndrome with neurosensory hearing loss								
Tumour necrosis factor [TNF] receptor 1 associated periodic syndrome [TRAPS]								
Tumour necrosis factor [TNF] receptor 1 associated periodic syndrome with amyloidosis								
Chronic recurrent multifocal osteomyelitis								
Arthropathies								
Infectious arthropathies								
Direct infections of joint								
Bacterial infection of joint								
Fungal infection of joint								
Mycobacterial infection of joint								
Other specified infection of joint								
Parasitic infection of joint								
Viral infection of joint								
Reactive arthropathies								
Arthropathy following intestinal bypass								
Arthropathy following gastrointestinal infection								
Arthropathy following vaccination								
Arthropathy following genitourinary infection								
Other reactive arthropathies								
Reactive arthropathy, unspecified								
Postinfective and certain specified reactive arthropathies								
Bacterial postinfective and reactive arthropathy								
Fungal postinfective and reactive arthropathies								
Viral postinfective and reactive arthropathies								
Mycobacterial postinfective and reactive arthropathies								
Parasitic postinfective and reactive arthropathies								
Other specified postinfective and reactive arthropathies								
Postinfective and reactive arthropathy, unspecified								
Inflammatory arthropathies								
Rheumatoid arthritis								
Rheumatoid arthritis with splenomegaly and leukopenia								
Rheumatoid arthritis with splenomegaly and leukopenia, anti-citrullinated protein antibody positive								
Rheumatoid arthritis with splenomegaly and leukopenia, anti-citrullinated protein antibody positive, erosive								
Rheumatoid arthritis with splenomegaly and leukopenia, anti-citrullinated protein antibody positive, non-erosive								
Rheumatoid arthritis with splenomegaly and leukopenia, both rheumatoid factor and anti-citrullinated protein antibody positive								
Rheumatoid arthritis with splenomegaly and leukopenia, both rheumatoid factor and anti-citrullinated protein antibody positive, erosive								
Rheumatoid arthritis with splenomegaly and leukopenia, both rheumatoid factor and anti-citrullinated protein antibody positive, non-erosive								
Rheumatoid arthritis with splenomegaly and leukopenia, rheumatoid factor positive								
Rheumatoid arthritis with splenomegaly and leukopenia, rheumatoid factor positive, erosive								
Rheumatoid arthritis with splenomegaly and leukopenia, rheumatoid factor positive, non-erosive								
Rheumatoid arthritis with splenomegaly and leukopenia, serology negative								
Rheumatoid arthritis with splenomegaly and leukopenia, serology negative, erosive								
Rheumatoid arthritis with splenomegaly and leukopenia, serology negative, non-erosive								
Rheumatoid arthritis with splenomegaly and leukopenia, serology not specified								
Rheumatoid arthritis with splenomegaly and leukopenia, serology not specified, erosive								
Rheumatoid arthritis with splenomegaly and leukopenia, serology not specified, non-erosive								
Rheumatoid lung disease								
Rheumatoid lung disease, anti-citrullinated protein antibody positive								
Rheumatoid lung disease, anti-citrullinated protein antibody positive, erosive								
Rheumatoid lung disease, anti-citrullinated protein antibody positive, non-erosive								
Rheumatoid lung disease, both rheumatoid factor and anti-citrullinated protein antibody positive								
Rheumatoid lung disease, both rheumatoid factor and anti-citrullinated protein antibody positive, erosive								
Rheumatoid lung disease, both rheumatoid factor and anti-citrullinated protein antibody positive, non-erosive								
Rheumatoid lung disease, rheumatoid factor positive								
Rheumatoid lung disease, rheumatoid factor positive, erosive								
Rheumatoid lung disease, rheumatoid factor positive, non-erosive								
Rheumatoid lung disease, serology negative								
Rheumatoid lung disease, serology negative, erosive								
Rheumatoid lung disease, serology negative, non-erosive								
Rheumatoid lung disease, serology not specified								
Rheumatoid lung disease, serology not specified, erosive								
Rheumatoid lung disease, serology not specified, non-erosive								
Rheumatoid vasculitis								
Rheumatoid vasculitis, anti-citrullinated protein antibody positive								
Rheumatoid vasculitis, anti-citrullinated protein antibody positive, erosive								
Rheumatoid vasculitis, anti-citrullinated protein antibody positive, non-erosive								
Rheumatoid vasculitis, both rheumatoid factor and anti-citrullinated protein antibody positive								
Rheumatoid vasculitis, both rheumatoid factor and anti-citrullinated protein antibody positive, erosive								
Rheumatoid vasculitis, both rheumatoid factor and anti-citrullinated protein antibody positive, non-erosive								
Rheumatoid vasculitis, rheumatoid factor positive								
Rheumatoid vasculitis, rheumatoid factor positive, erosive								
Rheumatoid vasculitis, rheumatoid factor positive, non-erosive								

Rheumatoid vasculitis, serology negative
 Rheumatoid vasculitis, serology negative, erosive
 Rheumatoid vasculitis, serology negative, non-erosive
 Rheumatoid vasculitis, serology not specified
 Rheumatoid vasculitis, serology not specified, erosive
 Rheumatoid vasculitis, serology not specified, non-erosive
 Rheumatoid arthritis with involvement of other organs and systems
 Rheumatoid arthritis without extra-articular involvement
 Rheumatoid arthritis without extra-articular involvement, anti-citrullinated protein antibody positive
 Rheumatoid arthritis without extra-articular involvement, anti-citrullinated protein antibody positive, erosive
 Rheumatoid arthritis without extra-articular involvement, anti-citrullinated protein antibody positive, non-erosive
 Rheumatoid arthritis without extra-articular involvement, both rheumatoid factor and anti-citrullinated protein antibody positive
 Rheumatoid arthritis without extra-articular involvement, both rheumatoid factor and anti-citrullinated protein antibody positive, erosive
 Rheumatoid arthritis without extra-articular involvement, both rheumatoid factor and anti-citrullinated protein antibody positive, non-erosive
 Rheumatoid arthritis without extra-articular involvement, rheumatoid factor positive
 Rheumatoid arthritis without extra-articular involvement, rheumatoid factor positive, erosive
 Rheumatoid arthritis without extra-articular involvement, rheumatoid factor positive, non-erosive
 Rheumatoid arthritis without extra-articular involvement, serology negative
 Rheumatoid arthritis without extra-articular involvement, serology negative, erosive
 Rheumatoid arthritis without extra-articular involvement, serology negative, non-erosive
 Rheumatoid arthritis without extra-articular involvement, serology not specified
 Rheumatoid arthritis without extra-articular involvement, serology not specified, erosive
 Rheumatoid arthritis without extra-articular involvement, serology not specified, non-erosive
 Rheumatoid bursitis
 Rheumatoid bursitis, anti-citrullinated protein antibody positive
 Rheumatoid bursitis, anti-citrullinated protein antibody positive, erosive
 Rheumatoid bursitis, anti-citrullinated protein antibody positive, non-erosive
 Rheumatoid bursitis, both rheumatoid factor and anti-citrullinated protein antibody positive
 Rheumatoid bursitis, both rheumatoid factor and anti-citrullinated protein antibody positive, erosive
 Rheumatoid bursitis, both rheumatoid factor and anti-citrullinated protein antibody positive, non-erosive
 Rheumatoid bursitis, rheumatoid factor positive
 Rheumatoid bursitis, rheumatoid factor positive, erosive
 Rheumatoid bursitis, rheumatoid factor positive, non-erosive
 Rheumatoid bursitis, serology negative
 Rheumatoid bursitis, serology negative, erosive
 Rheumatoid bursitis, serology negative, non-erosive
 Rheumatoid bursitis, serology not specified
 Rheumatoid bursitis, serology not specified, erosive
 Rheumatoid bursitis, serology not specified, non-erosive
 Rheumatoid nodule
 Rheumatoid nodule, anti-citrullinated protein antibody positive
 Rheumatoid nodule, anti-citrullinated protein antibody positive, erosive
 Rheumatoid nodule, anti-citrullinated protein antibody positive, non-erosive
 Rheumatoid nodule, both rheumatoid factor and anti-citrullinated protein antibody positive
 Rheumatoid nodule, both rheumatoid factor and anti-citrullinated protein antibody positive, erosive
 Rheumatoid nodule, both rheumatoid factor and anti-citrullinated protein antibody positive, non-erosive
 Rheumatoid nodule, rheumatoid factor positive
 Rheumatoid nodule, rheumatoid factor positive, erosive
 Rheumatoid nodule, rheumatoid factor positive, non-erosive
 Rheumatoid nodule, serology negative
 Rheumatoid nodule, serology negative, erosive
 Rheumatoid nodule, serology negative, non-erosive
 Rheumatoid nodule, serology not specified
 Rheumatoid nodule, serology not specified, erosive
 Rheumatoid nodule, serology not specified, non-erosive
 Rheumatoid arthritis, unspecified
 Rheumatoid arthritis, unspecified, anti-citrullinated protein antibody positive
 Rheumatoid arthritis, unspecified, anti-citrullinated protein antibody positive, erosive
 Rheumatoid arthritis, unspecified, anti-citrullinated protein antibody positive, non-erosive
 Rheumatoid arthritis, unspecified, both rheumatoid factor and anti-citrullinated protein antibody positive
 Rheumatoid arthritis, unspecified, both rheumatoid factor and anti-citrullinated protein antibody positive, erosive
 Rheumatoid arthritis, unspecified, both rheumatoid factor and anti-citrullinated protein antibody positive, non-erosive
 Rheumatoid arthritis, unspecified, rheumatoid factor positive
 Rheumatoid arthritis, unspecified, rheumatoid factor positive, erosive
 Rheumatoid arthritis, unspecified, rheumatoid factor positive, non-erosive
 Rheumatoid arthritis, unspecified, serology negative
 Rheumatoid arthritis, unspecified, serology negative, erosive
 Rheumatoid arthritis, unspecified, serology negative, non-erosive
 Rheumatoid arthritis, unspecified, serology not specified
 Rheumatoid arthritis, unspecified, serology not specified, erosive
 Rheumatoid arthritis, unspecified, serology not specified, non-erosive
 other seropositive rheumatoid arthritis
 Seropositive rheumatoid arthritis, unspecified
 Psoriatic arthritis
 Distal interphalangeal psoriatic arthritis
 Arthritis mutilans
 Psoriatic spondyloarthritis
 Oligoarticular psoriatic arthritis
 Polyarticular psoriatic arthritis
 Other and unspecified psoriatic arthritis
 Gastrointestinal arthritis
 Arthropathy in Crohn disease
 Arthropathy in ulcerative colitis
 Other gastrointestinal arthritis
 Remitting seronegative symmetrical synovitis with pitting oedema [RS3PE] syndrome
 Polymyalgia rheumatica
 Adult-onset Still disease
 Juvenile idiopathic arthritis
 Juvenile idiopathic oligoarthritis
 Juvenile idiopathic oligoarthritis, onset persistent
 Juvenile idiopathic oligoarthritis, onset persistent, ANA negative
 Juvenile idiopathic oligoarthritis, onset persistent, ANA negative, with uveitis
 Juvenile idiopathic oligoarthritis, onset persistent, ANA positive
 Juvenile idiopathic oligoarthritis, onset persistent, ANA positive, with uveitis
 Juvenile idiopathic oligoarthritis, onset extended
 Juvenile idiopathic oligoarthritis, onset extended, ANA negative
 Juvenile idiopathic oligoarthritis, onset extended, ANA negative, with uveitis
 Juvenile idiopathic oligoarthritis, onset extended, ANA positive
 Juvenile idiopathic oligoarthritis, onset extended, ANA positive, with uveitis
 Juvenile idiopathic polyarthritis
 Juvenile idiopathic polyarthritis, rheumatoid factor positive
 Juvenile polyarthritis, rheumatoid factor positive, anti-citrullinated protein antibody (anti-CCP) negative
 Juvenile polyarthritis, rheumatoid factor positive, anti-citrullinated protein antibody (anti-CCP) positive
 Juvenile idiopathic polyarthritis, rheumatoid factor negative
 Juvenile polyarthritis, rheumatoid factor negative, anti-citrullinated protein antibody (anti-CCP) negative
 Juvenile polyarthritis, rheumatoid factor negative, anti-citrullinated protein antibody (anti-CCP) positive
 Juvenile psoriatic arthritis
 Juvenile psoriatic arthritis, early onset
 Juvenile psoriatic arthritis, early onset, ANA negative
 Juvenile psoriatic arthritis, early onset, ANA negative, with uveitis
 Juvenile psoriatic arthritis, early onset, ANA positive

- Juvenile psoriatic arthritis, early onset, ANA positive, with uveitis
- Juvenile psoriatic arthritis, late onset
 - Juvenile psoriatic arthritis, late onset, rheumatoid factor negative, HLA B27 negative
 - Juvenile psoriatic arthritis, late onset, rheumatoid factor positive, HLA B27 negative
 - Juvenile psoriatic arthritis, late onset, rheumatoid factor positive, HLA B27 positive
 - Juvenile psoriatic arthritis, late onset, rheumatoid factor negative, HLA B27 positive
 - Juvenile psoriatic arthritis, onset age 6 years and older, rheumatoid factor negative, HLA B27 positive
- Juvenile enthesitis related arthritis
 - Juvenile enthesitis related arthritis, early onset
 - Juvenile enthesitis related arthritis early onset, ANA negative
 - Juvenile enthesitis related arthritis early onset, ANA negative, with uveitis
 - Juvenile enthesitis related arthritis early onset, ANA positive
 - Juvenile enthesitis related arthritis early onset, ANA positive, with uveitis
 - Juvenile enthesitis related arthritis, late onset
 - Juvenile enthesitis related arthritis, late onset, HLA B27 negative
 - Juvenile enthesitis related arthritis, late onset, HLA B27 negative, with uveitis
 - Juvenile enthesitis related arthritis, late onset, HLA B27 positive
 - Juvenile enthesitis related arthritis, late onset, HLA B27 positive, with uveitis
- Juvenile systemic arthritis
 - Juvenile systemic onset arthritis complicated by macrophage activation syndrome
 - Other or undifferentiated juvenile idiopathic arthritis
- Juvenile arthritis in diseases classified elsewhere
 - Juvenile arthritis in Crohn disease
 - Juvenile arthritis in ulcerative colitis
 - Juvenile arthritis in other diseases classified elsewhere
 - Qualifier/modifier/supplemental codes for JIA
 - Juvenile arthritis, affecting less than or equal to 4 joints
 - Juvenile arthritis, affecting more than 4 joints
 - Juvenile arthritis, affecting only large joints (knees, hips, shoulders, elbow, ankles)
 - Juvenile arthritis, affecting only large joints with cervical spine and/or TMJ involvement
 - Juvenile arthritis, affecting only small joints (fingers, toes, wrists,)
 - Juvenile arthritis affecting both large and small joints
 - Juvenile enthesitis related arthritis, axial involvement
 - Juvenile enthesitis related arthritis, peripheral involvement
 - Juvenile enthesitis related arthritis, axial and peripheral involvement
- Gout
 - Primary gout
 - Acute primary gout
 - Acute primary gout, monoarticular
 - Acute primary gout, polyarticular
 - Chronic primary gout
 - Chronic primary gout, monoarticular
 - Chronic primary gout, polyarticular
 - Secondary gout
 - Lead-induced gout
 - Acute lead-induced gout
 - Acute lead-induced gout, monoarticular
 - Acute lead-induced gout, polyarticular
 - Chronic lead-induced gout
 - Chronic lead-induced gout, monoarticular
 - Chronic lead-induced gout, polyarticular
 - Drug-induced gout
 - Acute drug-induced gout
 - Chronic drug-induced gout
 - Gouty arthropathy due to enzyme defects and other inherited disorders
 - Acute gouty arthropathy due to enzyme defects and other inherited disorders
 - Chronic gouty arthropathy due to enzyme defects and other inherited disorders
 - Gout without specification whether primary or secondary
 - Acute gout, unspecified whether primary or secondary
 - Chronic gout, unspecified whether primary or secondary
 - Tophaceous gout
 - Urate nephropathy
 - Urate nephropathy with impaired renal function, acute
 - Urate nephropathy with impaired renal function, chronic
- Certain specified crystal arthropathies
 - Calcium pyrophosphate dehydrate deposition disease [CPPD]
 - Hydroxyapatite deposition disease
 - Familial chondrocalcinosis
 - Oxalate arthropathy
 - Crystal arthropathy in other metabolic disorders
 - Other specified crystal arthropathies
 - Crystal arthropathy, unspecified
- Certain specified arthropathies
 - Chronic postinfectious arthropathy [Jaccoud]
 - Kashin-Beck disease
 - Villonodular synovitis (pigmented)
 - Palindromic rheumatism
 - Transient synovitis
 - Intermittent hydrarthrosis
 - Traumatic arthropathy
 - Other specific arthropathies, not elsewhere classified
- Certain specified arthritis
 - Polyarthritis, unspecified
 - Monoarthritis, not elsewhere classified
 - Other specified arthritis
 - Arthritis, unspecified
- Arthropathies in other diseases classified elsewhere
 - Diabetic arthropathy
 - Lipoid dermatoarthritis
 - Arthropathy in other endocrine, nutritional and metabolic disorders
 - Arthropathy in amyloidosis
 - Neuropathic arthropathy
- Osteoarthritis
 - Primary generalised osteoarthritis
 - Heberden's nodes (with arthritis)
 - Bouchard's nodes (with arthritis)
 - Secondary multiple arthritis
 - Erosive (osteo) arthritis
 - Generalised osteoarthritis
 - Certain joint disorders, not elsewhere classified
 - Fistula of joint
 - Flail joint
 - Other instability of joint
 - Effusion of joint
 - Not aspirated effusion of joint
 - Effusion of joint containing blood
 - Effusion of joint without blood
 - Effusion of joint, not otherwise specified
 - Pain in joint
 - Stiffness of joint
 - Osteophyte
 - Certain specified joint disorders
 - Joint disorder, unspecified
- Non-organ specific systemic autoimmune disorders [NOSSAD]

Vasculitis

- Large vessel vasculitis
 - Aortic arch syndrome [Takayasu arteritis]
 - Giant cell arteritis
 - Giant cell arteritis with polymyalgia rheumatica
 - Giant cell arteritis without polymyalgia rheumatica
 - Other giant cell arteritis
- Medium-sized vessel vasculitis
 - Polyarteritis nodosa
 - Polyarteritis nodosa with multi-system involvement
 - Polyarteritis nodosa with cutaneous involvement only (Cutaneous PAN)
 - Mucocutaneous lymph node syndrome [Kawasaki]
 - Other conditions related to polyarteritis nodosa
- Small vessel vasculitis
 - Antineutrophil cytoplasmic antibodies [ANCA] associated vasculitis
 - Microscopic polyangiitis
 - Glomerular disease associated with systemic autoimmune and immunological diseases
 - Granulomatosis with polyangiitis
 - Eosinophilic granulomatosis with polyangiitis [Churg-Strauss]
 - Immune complex small vessel vasculitis
 - Anti-glomerular basement membrane antibody disease
 - Cryoglobulinaemic vasculitis
 - IgA vasculitis
 - Hypocomplementaemic urticarial vasculitis [Anti-C1q vasculitis]
- Variable vessel vasculitis
 - Cogan syndrome
 - Behçet disease
- Single organ vasculitis
 - Vasculitis associated with systemic disease
 - Vasculitis associated with probable aetiology
 - Inflammatory bowel disease vasculitis
 - Lymphoproliferative disorder associated vasculitis
 - Myeloproliferative disorder associated vasculitis
 - Serum sickness vasculitis
 - Carcinoma-induced vasculitis
 - Drug-associated immune complex vasculitis
 - Paraneoplastic vasculitis
 - Infection-associated immune complex vasculitis
 - Solar vasculitis
- Certain specified vasculitides
 - Thrombotic microangiopathy
- Lupus erythematosus
 - Systemic lupus erythematosus
 - Systemic lupus erythematosus with vasculitis
 - Systemic lupus erythematosus with neuropsychiatric involvement
 - Systemic lupus erythematosus with psychosis
 - Systemic lupus erythematosus with seizures
 - Systemic lupus erythematosus with headache
 - Systemic lupus erythematosus with cognitive dysfunction
 - Systemic lupus erythematosus with acute confusional state
 - Systemic lupus erythematosus with chorea
 - Systemic lupus erythematosus with mood disorder
 - Systemic lupus erythematosus with cerebrovascular disease
 - Systemic lupus erythematosus with peripheral nervous involvement
 - Systemic lupus erythematosus with cardiac involvement
 - Systemic lupus erythematosus with pericarditis
 - Systemic lupus erythematosus with myocarditis
 - Systemic lupus erythematosus with endocarditis/valvulitis (Liebman Sacks disease)
 - Systemic lupus erythematosus with lung involvement
 - Systemic lupus erythematosus with pleuritis
 - Systemic lupus erythematosus with pulmonary hemorrhage
 - Systemic lupus erythematosus with pneumonitis/interstitial lung disease
 - Systemic lupus erythematosus with shrinking lung disease
 - Systemic lupus erythematosus with kidney involvement
 - Systemic lupus erythematosus with glomerulonephritis
 - Systemic lupus erythematosus with membranous kidney disease
 - Systemic lupus erythematosus with nephrotic syndrome
 - Systemic lupus erythematosus with end stage kidney disease
 - Systemic lupus erythematosus with gastrointestinal involvement
 - Systemic lupus erythematosus with pancreatitis
 - Systemic lupus erythematosus with peritonitis
 - Systemic lupus erythematosus with hepatitis
 - Systemic lupus erythematosus with musculoskeletal involvement
 - Systemic lupus erythematosus with arthritis
 - Systemic lupus erythematosus with myositis
 - Systemic lupus erythematosus with skin involvement
 - Acute cutaneous lupus erythematosus affecting more than 50% of the body surface
 - Systemic lupus erythematosus with malar rash
 - Systemic lupus erythematosus withl naso-oral ulcers
 - Systemic lupus erythematosus with photosensitive rash
 - Systemic lupus erythematosus with discoid rash
 - Systemic lupus erythematosus with subcutaneous rash
 - Systemic lupus erythematosus with alopecia
 - Systemic lupus erythematosus with scarring alopecia
 - Systemic lupus erythematosus with bullous lesions
 - Systemic lupus erythematosus with cutaneous vasculitis
 - Systemic lupus erythematosus with hematologic involvement
 - Systemic lupus erythematosus with Coombs positive anemia
 - Systemic lupus erythematosus with leukopenia
 - Systemic lupus erythematosus with lymphopenia
 - Systemic lupus erythematosus with thrombocytopenia
 - Systemic lupus erythematosus with immune system involvement
 - Systemic lupus erythematosus with multiple system involvement
 - Systemic lupus erythematosus, unspecified
- Antiphospholipid syndrome
 - Primary antiphospholipid syndrome
 - Secondary antiphospholipid syndrome
 - Antiphospholipid syndrome in pregnancy
- Idiopathic inflammatory myopathy
 - Dermatomyositis
 - Adult dermatomyositis
 - Amyopathic dermatomyositis
 - Hypomyopathic dermatomyositis
 - Adult dermatomyositis with calcinosis
 - Paraneoplastic dermatomyositis
 - Anti-synthetase syndrome with dermatomyositis
 - Adult dermatomyositis with overlap to non-organ specific systemic autoimmune disorders
 - Juvenile dermatomyositis
 - Hypomyopathic juvenile dermatomyositis
 - Juvenile dermatomyositis with cutaneous vasculitis
 - Juvenile dermatomyositis with necrotizing cutaneous vasculitis
 - Juvenile dermatomyositis with lipodystrophy
 - Juvenile dermatomyositis with myocarditis

- Anyopathic juvenile dermatomyositis
 - Juvenile dermatomyositis with calcinosis
 - Juvenile dermatomyositis with overlap to non-organ specific systemic autoimmune disorders
 - Dermatomyositis, unspecified
 - Polymyositis
 - Anti-synthetase syndrome with polymyositis
 - Juvenile polymyositis
 - Juvenile polymyositis (necrotizing)
 - Juvenile polymyositis (paraneoplastic)
 - Juvenile polymyositis with PM/Sci auto-antibody
 - Juvenile polymyositis with anti-synthetase auto-antibody
 - Juvenile polymyositis with interstitial lung disease
 - Juvenile polymyositis with overlap to non-organ specific systemic autoimmune disorder
 - Necrotising polymyositis
 - Polymyositis with overlap to non-organ specific systemic autoimmune disorders
 - Paraneoplastic polymyositis
 - Focal myositis
 - Extraocular myositis
 - Inclusion body myopathy
 - Inflammatory inclusion body myositis
 - Sporadic inclusion body myositis
 - Hereditary inclusion body myositis
 - Non-inflammatory inclusion body myopathy
 - Hereditary inclusion body myopathy
 - Sporadic inclusion body myopathy
- Systemic sclerosis
 - Paediatric onset systemic sclerosis
 - Diffuse pediatric systemic sclerosis
 - Limited pediatric systemic sclerosis
 - Other forms of pediatric systemic sclerosis
 - Diffuse systemic sclerosis
 - Limited systemic sclerosis
 - Other forms of systemic sclerosis
 - Systemic sclerosis, unspecified
- Overlap and undifferentiated non-organ specific systemic autoimmune disease
 - IgG4 related disease
 - Sjögren disease
 - Primary Sjögren disease
 - Secondary Sjögren disease
 - Sjögren syndrome vasculitis
 - Pediatric onset Sjögren disease
 - Pediatric onset Sjögren disease, secondary
 - Pediatric onset Sjögren disease, primary
 - Pediatric onset Sjögren syndrome vasculitis
 - Sicca syndrome [Sjögren] with keratoconjunctivitis
 - Undifferentiated non-organ specific systemic autoimmune diseases, unspecified
 - Mixed connective tissue disease
 - Paediatric-onset mixed connective tissue disease
 - Diffuse (eosinophilic) fasciitis
 - Relapsing panniculitis
 - Certain specified non-organ specific systemic autoimmune disease
- Conditions associated with the spine
 - Certain specified inflammatory spondylopathies
 - Other inflammatory spondylopathies with no determinant
 - Other inflammatory spondylopathies with determinants
 - Inflammatory spondyloarthritis
 - Axial spondyloarthritis
 - Axial spondyloarthritis with peripheral joint involvement
 - Axial spondyloarthritis-associated anterior uveitis
 - Spinal enthesitis
 - Sacroiliitis, not elsewhere classified
 - Peripheral spondyloarthritis
 - Other form of inflammatory spondylopathy
- Spondylopathies
 - Infective spondyloarthritis
 - Bacterial spondyloarthritis
 - Fungal spondyloarthritis
 - Mycobacterial spondyloarthritis
 - Other specified infective spondyloarthritis
 - Parasitic spondyloarthritis
 - Viral spondyloarthritis
- Soft tissue disorders
 - Disorders of muscles
 - Infective myositis
 - Bacterial myositis
 - Fungal myositis
 - Viral myositis
 - Mycobacterial myositis
 - Parasitic myositis
 - Other specified infective myositis
 - Calcification and ossification of muscle
 - Calcification and ossification of muscles with known aetiology
 - Calcification of muscle associated with adult dermatomyositis
 - Myositis ossificans traumatica
 - Paralytic calcification and ossification of muscle
 - Calcification and ossification of muscles associated with burns
 - Calcification of muscle associated with juvenile dermatomyositis
 - Calcification and ossification of muscles of genetic origin
 - Progressive osseous heteroplasia
 - Fibrodysplasia ossificans progressiva
 - Calcification and ossification of muscles with unknown aetiology
 - Other calcification of muscle
 - Other ossification of muscle
 - Calcification and ossification of muscle, unspecified
 - Certain specified disorders of muscle
 - Drug-induced myopathy
 - Dystasia of muscle
 - Other rupture of muscle (nontraumatic)
 - Ischaemic infarction of muscle
 - Immobility syndrome (paraplegic)
 - Contracture of muscle
 - Muscle wasting and atrophy, not elsewhere classified
 - Muscle strain
 - Other specified disorders of muscle
 - Disorders of synovium and tendon
 - Tenosynovitis
 - Infective tenosynovitis
 - Bacterial infection of tendon sheath
 - Fungal infection of tendon sheath
 - Infection of tendon sheath, unspecified
 - Mycobacterial infection of tendon sheath
 - Other specified infection of tendon sheath
 - Parasitic infection of tendon sheath
 - Viral infection of tendon sheath

- Other tenosynovitis and tendinitis
 - Plantar fasciitis
 - Posterior tibial tendonitis
 - Calcific tendinitis
 - Trigger finger
 - Radial styloid tenosynovitis [de Quervain]
 - Other tenosynovitis and tendinitis
 - Tenosynovitis and tendinitis, unspecified
 - Bicipital tendinitis
 - Calcific tendinitis of shoulder
 - Lateral elbow tendonitis
 - Rotator cuff tendonitis
 - Gluteal tendinitis
 - Psoas tendinitis
 - Patellar tendinitis
 - Achilles tendinitis
 - Peroneal tendinitis
- Spontaneous rupture of bursa and tendon
 - Rupture of popliteal cyst
 - Rupture of bursa
 - Spontaneous rupture of extensor tendons
 - Spontaneous rupture of flexor tendons
 - Spontaneous rupture of other tendons
 - Spontaneous rupture of unspecified tendon
- Certain specified disorders of tendon
 - Short Achilles tendon (acquired)
 - Other contracture of tendon (sheath)
 - Other specified disorders of tendon
 - Disorder of tendon, unspecified
- Miscellaneous specified soft tissue disorders
 - Bursitis
 - Infectious bursitis
 - Bacterial infection of bursa
 - Fungal infection of bursa
 - Mycobacterial infection of bursa
 - Other specified infection of bursa
 - Parasitic infection of bursa
 - Viral infection of bursa
 - Other bursitis with known aetiology
 - Bursitis related to use, overuse and pressure
 - Bursitis with unknown aetiology
 - Synovial cyst of popliteal space [Baker]
 - Other bursal cyst
 - Calcium deposit in bursa
 - Other bursitis, not elsewhere classified
 - Bursopathy, unspecified
- Fibroblastic disorders
 - Palmar fascial fibromatosis [Dupuytren]
 - Knuckle pads
 - Plantar fascial fibromatosis
 - Pseudosarcomatous fibromatosis
 - Systemic fibrosis induced by drugs and chemicals
 - Nephrogenic systemic fibrosis
 - Fibroblastic rheumatism
 - Multifocal fibrosclerosis
 - Other fibroblastic disorders
 - Fibroblastic disorder, unspecified
- Soft tissue disorders in diseases classified elsewhere
- Shoulder lesions
 - Adhesive capsulitis of shoulder
 - Rotator cuff syndrome
 - Impingement syndrome of shoulder
 - Other shoulder lesions
 - Shoulder lesion, unspecified
- Enthesopathies of leg, excluding foot
 - Iliac crest spur
 - Iliotibial band syndrome
 - Tibial collateral bursitis [Pellegrini-Stieda]
 - Other enthesopathies of leg, excluding foot
 - Enthesopathy of leg, unspecified
- Certain specified enthesopathies
 - Medial epicondylitis
 - Lateral epicondylitis
 - Periarthritis of wrist
 - Calcaneal spur
 - Metatarsalgia
 - Other enthesopathy of foot
 - Other enthesopathies, not elsewhere classified
 - Enthesopathy, unspecified
- Certain specified soft tissue disorders, not elsewhere classified
 - Foreign body granuloma of soft tissue, not elsewhere classified
 - Myalgia
 - Neuralgia and neuritis, unspecified
 - Panniculitis, unspecified
 - Hypertrophy of (infrapatellar) fat pad
 - Residual foreign body in soft tissue
 - Pain in limb
 - Fibromyalgia
 - Certain specified soft tissue disorders
 - Soft tissue disorder, unspecified
 - Algoneurodystrophy

Circulatory WG

Diseases of the circulatory system

Concept title (Entity title)	Level 1	Level 2	Level 3	Level 4	Level 5	Level 6	Level 7	Level 8
Diseases of the circulatory system								
Neoplasms of the circulatory system								
Cerebrovascular diseases								
Symptoms and signs involving the circulatory system								
				Paroxysmal tachycardia				
				Re-entry ventricular arrhythmia				
				Paroxysmal tachycardia, unspecified				
			Heart					
			pain					
			Pressure/tightness of heart					
			Cardiovascular pain					
			Prominent veins					
			Fear of heart disease					
			Fear of hypertension					
			Fear of cardiovascular disease other					
			Cardiac arrest					
				Cardiac arrest, unspecified				
				Ventricular tachycardia and fibrillation cardiac arrest				
				Bradycardic cardiac arrest				
				Asystolic cardiac arrest				
				Cardiac arrest with pulseless electrical activity				
			Abnormalities of heart beat					
				Tachycardia, unspecified				
				Bradycardia, unspecified				
				Palpitations				
				Other and unspecified abnormalities of heart beat				
			Cardiac murmurs and other cardiac sounds					
				Benign and innocent cardiac murmurs				
				Cardiac murmur, unspecified				
				Other cardiac sounds				
			Gangrene, not elsewhere classified					
			Abnormal blood-pressure reading, without diagnosis					
				Elevated blood-pressure reading, without diagnosis of hypertension				
				Nonspecific low blood-pressure reading				
Hypertensive diseases								
			Essential (primary) hypertension					
				Accelerated essential (primary) hypertension				
			Hypertensive heart disease					
				Hypertensive heart disease with (congestive) heart failure				
				Hypertensive heart disease without (congestive) heart failure				
			Hypertensive renal disease					
				Hypertensive renal disease with renal failure				
				Hypertensive renal disease without renal failure				
			White coat hypertension					
			Hypertensive crisis					
				Hypertensive emergency				
				Hypertensive urgency				
			Secondary hypertension					
				Secondary hypertension associated with renal parenchymal disease				
				Secondary hypertension associated with renovascular disease				
				Renal artery stenosis due to atherosclerosis				
				Renal artery stenosis due to fibromuscular hyperplasia				
				Arterial hypertension due to renal artery stenosis secondary to vasculitis				
				Renal artery stenosis due to congenital abnormality				
				Williams-Beuren syndrome [7q11.23 deletion]				
				Congenital renal artery stenosis				
				Autosomal dominant progressive nephropathy with hypertension				
			Secondary hypertension associated with renal tubular disorders					
				Pseudohyperaldosteronism type 1				
				Pseudohyperaldosteronism type 2				
				Pseudohypoaldosteronism type 2				
				Pseudohypoaldosteronism type 2A				
				Pseudohypoaldosteronism type 2B				
				Pseudohypoaldosteronism type 2C				
				Pseudohypoaldosteronism type 2D				
				Pseudohypoaldosteronism type 2E				
				Apparent mineralocorticoid excess				
			Secondary hypertension associated with congenital heart disorders					
				Hypertension secondary to aortic arch obstruction				
			Secondary hypertension associated with endocrine disorders					
				Hypertension secondary to congenital adrenal hyperplasia				
				Secreting paraganglioma				
				Phaeochromocytoma				
				Primary congenital hypothyroidism due to TSH receptor mutations				
				Familial gestational hyperthyroidism				
				Hyperaldosteronism				
				Primary hyperaldosteronism				
				Familial hyperaldosteronism				
				Familial hyperaldosteronism type 1				
				Familial hyperaldosteronism type 2				
				Familial hyperaldosteronism type 3				
				Non-familial primary hyperaldosteronism				
				Aldosterone-producing adenoma				
				Aldosterone-producing carcinoma				
				Idiopathic hyperaldosteronism				
				Primary bilateral adrenal hyperplasia				
				Primary unilateral adrenal hyperplasia				
				Secondary hyperaldosteronism				
				Other hyperaldosteronism				
				aldosteronism with hyperplasia of the adrenal cortex				
				bartter's syndrome				
				jugtaglomerular hyperplasia with secondary aldosteronism				
			Hypertension secondary to drug therapy					
Ischaemic heart disease								
			Angina pectoris					
				Unstable angina				
				Coronary vasospastic disease				
				Coronary vasospastic disease with angina				
				Coronary vasospastic disease with arrhythmia				
				Silent coronary vasospastic disease				
				Stable angina				
				Microvascular angina				
				Other forms of angina pectoris				
				Angina pectoris, unspecified				
			Acute myocardial infarction					
				Acute myocardial infarction, STEMI				
				Acute myocardial infarction, STEMI, anterior wall				
				Acute myocardial infarction, STEMI, anterior wall, with right ventricular involvement				
				Acute myocardial infarction, STEMI, inferior wall				
				Acute myocardial infarction, STEMI, inferior wall, with right ventricular involvement				
				Acute myocardial infarction, STEMI, other site				
				Acute myocardial infarction, STEMI, other site, with right ventricular involvement				

- Acute myocardial infarction, NSTEMI
 - Acute myocardial infarction, NSTEMI, anterior wall
 - Acute myocardial infarction, NSTEMI, anterior wall, with right ventricular involvement
 - Acute myocardial infarction, NSTEMI, inferior wall
 - Acute myocardial infarction, NSTEMI, inferior wall, with right ventricular involvement
 - Acute myocardial infarction, NSTEMI, other site
 - Acute myocardial infarction, NSTEMI, other site, with right ventricular involvement
- Acute myocardial infarction, without specification of ST elevation
 - Acute myocardial infarction, ST elevation unspecified, other site
 - Acute myocardial infarction, ST elevation unspecified, other site, with right ventricular involvement
 - Acute myocardial infarction, without specification of ST elevation, anterior wall
 - Acute myocardial infarction, without specification of ST elevation, anterior wall, with right ventricular involvement
 - Acute myocardial infarction, without specification of ST elevation, inferior wall
 - Acute myocardial infarction, without specification of ST elevation, inferior wall, with right ventricular involvement
- Acute periprocedural myocardial infarction
- Acute coronary syndrome, not elsewhere classified
- Subsequent myocardial infarction
 - Subsequent myocardial infarction, STEMI
 - Subsequent myocardial infarction, STEMI, anterior wall
 - Subsequent myocardial infarction, STEMI, inferior wall
 - Subsequent myocardial infarction, STEMI, miscellaneous specified site
 - Subsequent myocardial infarction, NSTEMI
 - Subsequent myocardial infarction, NSTEMI, anterior wall
 - Subsequent myocardial infarction, NSTEMI, inferior wall
 - Subsequent myocardial infarction, NSTEMI, other site
 - Subsequent myocardial infarction, ST elevation unspecified
 - Subsequent myocardial infarction, ST elevation unspecified, anterior wall
 - Subsequent myocardial infarction, ST elevation unspecified, inferior wall
 - Subsequent myocardial infarction, ST elevation unspecified, other site
- Old myocardial infarction
 - Old myocardial infarction, dated back 29 days but less than 1 year from onset
 - Old myocardial infarction dated back 1 year and more from onset
- Certain current complications following acute myocardial infarction
 - Pericarditis as current complication following acute myocardial infarction
 - Pericarditis as current complication following acute myocardial infarction, with effusion
 - Pericarditis as current complication following acute myocardial infarction, without effusion
 - Dressler syndrome
 - Ventricular aneurysm as current complication following acute myocardial infarction
 - Ventricular septal defect as current complication following acute myocardial infarction
 - Cardiac rupture as current complication following acute myocardial infarction
 - Pulmonary embolism as current complication following acute myocardial infarction
 - Rupture of papillary muscle and chordae tendineae as current complication following acute myocardial infarction
 - Mural thrombus as current complication following acute myocardial infarction
 - Atrial thrombus as current complication following acute myocardial infarction
 - Ventricular thrombus as current complication following acute myocardial infarction
 - Arrhythmia as current complication following acute myocardial infarction
 - Cardiogenic shock, unrelated to mechanical complications, as current complication following acute myocardial infarction
 - Other current complications following acute myocardial infarction
- Certain specified acute ischaemic heart diseases
 - Coronary thrombosis not resulting in myocardial infarction
 - Other forms of acute ischaemic heart disease
 - Acute ischaemic heart disease, unspecified
- Diseases of coronary artery
 - Coronary atherosclerosis
 - Coronary atherosclerosis of native coronary artery
 - Coronary atherosclerosis of autologous bypass graft
 - Coronary atherosclerosis of non-autologous bypass graft
 - Coronary artery aneurysm
 - Coronary artery dissection
 - Acute coronary artery dissection
 - Chronic coronary artery dissection
 - Coronary artery ostial stenosis
 - Coronary artery fistula, acquired
 - Iatrogenic coronary artery fistula
 - Cardiac transplant associated coronary allograft vasculopathy
 - Coronary artery obstruction by tumour
- Pulmonary heart disease and diseases of pulmonary circulation
 - Pulmonary thromboembolism
 - Acute pulmonary thromboembolism
 - Chronic pulmonary thromboembolism
 - Chronic pulmonary thromboembolism without pulmonary hypertension
 - Chronic thromboembolic pulmonary hypertension [CTEPH]
 - Pulmonary hypertension
 - Pulmonary arterial hypertension
 - Idiopathic pulmonary arterial hypertension
 - Heritable pulmonary arterial hypertension
 - Heritable pulmonary artery hypertension due to mutation of bone morphogenic protein receptor type 2
 - Heritable pulmonary artery hypertension due to mutation of other genes of transforming growth factor-beta super family and other gene families
 - Drug and toxin-induced pulmonary arterial hypertension [PAH]
 - Pulmonary arterial hypertension [PAH] associated with other specified diseases
 - Pulmonary arterial hypertension associated with connective tissue diseases
 - Pulmonary arterial hypertension associated with HIV infection
 - Pulmonary arterial hypertension associated with portal hypertension
 - Pulmonary arterial hypertension associated with congenital heart disease
 - Pulmonary arterial hypertension associated with schistosomiasis
 - Pulmonary veno-occlusive disease and pulmonary capillary hemangiomatosis
 - Persistent pulmonary hypertension of the newborn
 - Pulmonary hypertension due to left heart disease
 - Pulmonary hypertension due to left ventricular systolic dysfunction
 - Pulmonary hypertension due to left ventricular diastolic dysfunction
 - Pulmonary hypertension due to valvular heart disease
 - Pulmonary hypertension due to left heart inflow/outflow tract obstruction (congenital) (acquired) and congenital cardiomyopathies
 - Pulmonary hypertension due to lung disease and/or hypoxia
 - Pulmonary hypertension due to chronic obstructive pulmonary disease
 - Pulmonary hypertension due to interstitial lung disease
 - Pulmonary hypertension due to other pulmonary diseases with mixed restrictive and obstructive patterns
 - Pulmonary hypertension due to sleep-disordered breathing
 - Pulmonary hypertension due to alveolar hypoventilation disorders
 - Pulmonary hypertension due to chronic exposure to high altitude
 - Pulmonary hypertension due to developmental lung diseases
 - Chronic thromboembolic pulmonary hypertension (CTEPH)
 - Pulmonary hypertension with unclear and/or multifactorial mechanism
 - Pulmonary hypertension due to haematological disorders
 - Pulmonary hypertension due to systemic disorders
 - Pulmonary hypertension due to metabolic and endocrine disorders
 - Pulmonary hypertension due to other mechanisms
- Certain specified diseases of pulmonary vessels
 - Arteriovenous fistula of pulmonary vessels
 - Aneurysm of pulmonary artery
 - Rupture of pulmonary vessels
 - Acquired pulmonary venous abnormality
 - Acquired pulmonary venous obstruction
 - Acquired pulmonary venous stenosis

- Postprocedural pulmonary vein complication
 - Postprocedural obstructed pulmonary venous pathway
 - Postprocedural pulmonary vein stenosis
- Acquired pulmonary arterial tree abnormality
 - Acquired discontinuity of pulmonary arteries
 - Acquired left pulmonary artery stenosis
 - Postprocedural left pulmonary artery stenosis
 - Acquired pulmonary arterial aneurysm
 - Acquired pulmonary arterial dissection
 - Acquired pulmonary trunk stenosis
 - Postprocedural pulmonary trunk stenosis
 - Acquired right pulmonary artery stenosis
 - Postprocedural right pulmonary artery stenosis
 - Postprocedural pulmonary arterial tree complication
- Pulmonary vein stenosis

- Congenital anomaly of pulmonary arterial tree
- Congenital dilation of pulmonary arterial tree
- Congenital pulmonary trunk [main pulmonary artery] anomaly
 - Pulmonary trunk hypoplasia
- Congenital pulmonary arterial [branch] anomaly
 - Congenital pulmonary arterial [branch] stenosis
 - Congenital right pulmonary arterial stenosis
 - Congenital left pulmonary arterial stenosis
 - Congenital pulmonary arterial [branch] hypoplasia
 - Congenital right pulmonary arterial hypoplasia
 - Congenital left pulmonary arterial hypoplasia
- Absent right pulmonary artery
- Absent left pulmonary artery
- Congenital central pulmonary arterial stenosis or hypoplasia: proximal to hilar bifurcation
- Congenital peripheral pulmonary arterial stenoses or hypoplasia: at-beyond hilar bifurcation
- Congenitally discontinuous (non-confluent) pulmonary arteries
- Pulmonary artery origin from ascending aorta
 - Right pulmonary artery from ascending aorta
 - Left pulmonary artery from ascending aorta
- Pulmonary artery from patent arterial duct
 - Right pulmonary artery from patent arterial duct
 - Left pulmonary artery from patent arterial duct
- Pericarditis
- Acute pericarditis
 - Acute nonspecific idiopathic pericarditis
 - Infective pericarditis
 - Pericarditis in vasculitis and connective tissue disease
 - Pericarditis in disease of contiguous structure
 - Pericarditis in metabolic disease
 - Neoplastic pericarditis
 - Traumatic pericarditis
 - Radiation pericarditis
 - Myopericarditis
 - Other forms of acute pericarditis
 - Acute pericarditis, unspecified
- Certain diseases of pericardium
 - Constrictive pericarditis
 - Effusive-constrictive pericarditis
 - Cardiac tamponade
 - Other specified diseases of pericardium
 - Disease of pericardium, unspecified
 - Chronic adhesive pericarditis
 - Haemopericardium
 - Pericardial effusion (noninflammatory)
- Pericarditis
 - Pericarditis in bacterial diseases classified elsewhere
 - Pericarditis in other infectious and parasitic diseases classified elsewhere
 - Pericarditis in other diseases classified elsewhere
- Acute and subacute endocarditis
- Acute and subacute infective endocarditis
 - Acute and subacute infective endocarditis, laterality not specified
 - Acute and subacute infective endocarditis, left-sided
 - Acute and subacute infective endocarditis, right-sided
- Myoendocarditis
- Periendocarditis
- Endocarditis and heart valve disorders in diseases classified elsewhere
 - Endocardial involvement in gonococcal infection
- Acute endocarditis, unspecified
- Heart valve disease
- Mitral valve disease
 - Mitral valve stenosis
 - Rheumatic mitral valve stenosis
 - Nonrheumatic mitral valve stenosis
 - Postprocedural mitral valve stenosis
 - Mitral regurgitation
 - Rheumatic mitral regurgitation
 - Mitral regurgitation due to acute myocardial infarction
 - Mitral regurgitation due to acute myocardial infarction with papillary muscle and chordal rupture
 - Mitral regurgitation due to acute myocardial infarction without papillary muscle and chordal rupture
 - Mitral regurgitation due to infiltrative disease
 - Mitral regurgitation due to cardiomyopathy
 - Postprocedural mitral regurgitation
 - Postprocedural mitral regurgitation due to papillary muscle and chordal damage
 - Mitral valve prolapse
 - Rheumatic mitral valve prolapse
 - Degenerative mitral valve prolapse
 - Mitral stenosis with regurgitation
 - Rheumatic mitral stenosis with regurgitation
 - Non-rheumatic mitral stenosis with regurgitation
 - Mitral valvar abscess
 - Mitral valvar thrombosis
 - Mitral valve obstruction by tumour
 - Mitral valve rupture
 - Rupture of mitral valve chordae tendineae
 - Rupture of mitral valve papillary muscle
 - Injury to mitral valve
- Aortic valve disease
 - Aortic valve stenosis
 - Rheumatic aortic valve stenosis
 - Non-rheumatic aortic valve stenosis
 - Postprocedural aortic valve stenosis
 - Calcific aortic valve stenosis
 - Neo-aortic valve stenosis
 - Aortic valve regurgitation
 - Rheumatic aortic valve regurgitation
 - Aortic valve regurgitation due to dissection
 - Aortic valve regurgitation due to trauma
 - Aortic valve regurgitation secondary to aortic dilation
 - Postprocedural aortic valve regurgitation

- Neoaortic valve regurgitation
- Aortic valve stenosis with regurgitation
 - Rheumatic aortic stenosis with regurgitation
 - Non-rheumatic aortic valve stenosis with regurgitation
- Aortic valvar abscess
- Aortic valvar thrombosis
- Aortic valve obstruction by tumour
- Aortic valve inflammatory disease
- Injury (traumatic) to aortic valve
- Tricuspid valve disease
 - Tricuspid stenosis
 - Rheumatic tricuspid stenosis
 - Carcinoid tricuspid stenosis
 - Postprocedural tricuspid stenosis
 - Tricuspid regurgitation
 - Rheumatic tricuspid insufficiency
 - Carcinoid tricuspid regurgitation
 - Postprocedural tricuspid regurgitation
 - Tricuspid stenosis with regurgitation
 - Rheumatic tricuspid stenosis with regurgitation
 - Carcinoid tricuspid stenosis with regurgitation
 - Tricuspid valvar abscess
 - Tricuspid valvar thrombosis
 - Tricuspid valve obstruction by tumour
 - Tricuspid valve rupture
 - Rupture of tricuspid valve chordae tendineae
 - Rupture of tricuspid valve papillary muscle
 - Injury (traumatic) to tricuspid valve
- Pulmonary valve disease
 - Pulmonary valve stenosis
 - Rheumatic pulmonary valve stenosis
 - Postprocedural pulmonary valve stenosis
 - Neopulmonary valve stenosis
 - Pulmonary valve regurgitation
 - Rheumatic pulmonary valve regurgitation
 - Postprocedural pulmonary valve regurgitation
 - Neopulmonary valve regurgitation
 - Pulmonary valve stenosis with regurgitation
 - Rheumatic pulmonary valve stenosis with regurgitation
 - Non-rheumatic pulmonary valve stenosis with regurgitation
 - Pulmonary valvar abscess
 - Pulmonary valvar thrombosis
 - Pulmonary valve obstruction by tumour
 - Injury (traumatic) to pulmonary valve
- Multiple valve disease
 - Disorders of both mitral and aortic valves
 - Disorders of both mitral and tricuspid valves
 - Disorders of both aortic and tricuspid valves
 - Combined disorders of mitral, aortic and tricuspid valves
- Prosthetic valve disease
 - Mitral prosthetic valve disease
 - Mitral prosthetic valve stenosis
 - Mitral prosthetic valve stenosis due to calcification
 - Mitral prosthetic valve regurgitation
 - Acute mitral prosthetic valve regurgitation
 - Periprosthetic mitral valve regurgitation
 - Mitral prosthetic valve stenosis and regurgitation
 - Mitral prosthetic valve failure
 - Mitral prosthetic valve failure requiring replacement
 - Mitral prosthetic valve failure requiring revision
 - Endocarditis of mitral prosthetic valve
 - Aortic prosthetic valve disease
 - Aortic prosthetic valve stenosis
 - Aortic prosthetic valve regurgitation
 - Acute aortic prosthetic valve regurgitation
 - Periprosthetic aortic valve regurgitation
 - Aortic prosthetic valve stenosis and regurgitation
 - Aortic prosthetic valve failure
 - Aortic prosthetic valve failure requiring replacement
 - Aortic prosthetic valve failure requiring revision
 - Endocarditis of aortic prosthetic valve
 - Tricuspid prosthetic valve disease
 - Tricuspid prosthetic valve stenosis
 - Tricuspid prosthetic valve regurgitation
 - Acute tricuspid prosthetic valve regurgitation
 - Periprosthetic tricuspid valve regurgitation
 - Tricuspid prosthetic valve failure
 - Tricuspid prosthetic valve failure requiring replacement
 - Tricuspid prosthetic valve failure requiring revision
 - Endocarditis of tricuspid prosthetic valve
 - Pulmonary prosthetic valve disease
 - Pulmonary prosthetic valve stenosis
 - Pulmonary prosthetic valve regurgitation
 - Periprosthetic pulmonary valve regurgitation
 - Pulmonary prosthetic valve failure
 - Pulmonary prosthetic valve failure requiring replacement
 - Pulmonary prosthetic valve failure requiring revision
 - Endocarditis of pulmonary prosthetic valve
 - Mechanical haemolysis due to prosthetic valve
- Rheumatic heart disease
 - Rheumatic fever with heart involvement
 - Acute rheumatic pericarditis
 - Acute rheumatic endocarditis
 - Acute rheumatic myocarditis
 - Other acute rheumatic heart disease
 - Acute rheumatic heart disease, unspecified
 - Rheumatic chorea
 - Rheumatic chorea with heart involvement
 - Rheumatic chorea without heart involvement
- Diseases of the myocardium
 - Myocarditis
 - Giant cell myocarditis
 - Giant cell myocarditis, fulminant
 - Giant cell myocarditis, acute
 - Giant cell myocarditis, chronic
 - Infectious myocarditis
 - Bacterial myocarditis
 - Bacterial myocarditis, fulminant
 - Bacterial myocarditis, acute
 - Bacterial myocarditis, chronic
 - Fungal myocarditis
 - Fungal myocarditis, fulminant
 - Fungal myocarditis, acute

fulminant = less than 2 weeks, acute = 2 weeks to 6 months, chronic = greater than 6 months

- Fungal myocarditis, chronic
- Parasitic myocarditis
 - Parasitic myocarditis, fulminant
 - Parasitic myocarditis, acute
 - Parasitic myocarditis, chronic
- Protozoal myocarditis
 - Protozoal myocarditis, fulminant
 - Protozoal myocarditis, acute
 - Protozoal myocarditis, chronic
- Rickettsial myocarditis
 - Rickettsial myocarditis, fulminant
 - Rickettsial myocarditis, acute
 - Rickettsial myocarditis, chronic
- Spirochetal myocarditis
 - Spirochetal myocarditis, fulminant
 - Spirochetal myocarditis, acute
 - Spirochetal myocarditis, chronic
- Viral myocarditis
 - Viral myocarditis, fulminant
 - Viral myocarditis, acute
 - Viral myocarditis, chronic
- Hypersensitivity myocarditis
- Toxic myocarditis
 - Toxic myocarditis due to chemicals
 - Toxic myocarditis due to chemicals, fulminant
 - Toxic myocarditis due to chemicals, acute
 - Toxic myocarditis due to chemicals, chronic
 - Toxic myocarditis due to drugs
 - Toxic myocarditis due to drugs, fulminant
 - Toxic myocarditis due to drugs, acute
 - Toxic myocarditis due to drugs, chronic
 - Toxic myocarditis due to other external causes
 - Toxic myocarditis due to other external causes, fulminant
 - Toxic myocarditis due to other external causes, acute
 - Toxic myocarditis due to other external causes, chronic
- Myocarditis in diseases classified elsewhere
 - Myocarditis in acute rheumatic fever
 - Myocarditis in acute rheumatic fever, fulminant
 - Myocarditis in acute rheumatic fever, acute
 - Myocarditis in acute rheumatic fever, chronic
 - Myocarditis in autoimmune diseases
 - Myocarditis in autoimmune diseases, fulminant
 - Myocarditis in autoimmune diseases, acute
 - Myocarditis in autoimmune diseases, chronic
 - Myocarditis secondary to idiopathic hypereosinophilic syndrome
 - Myocarditis secondary to idiopathic hypereosinophilic syndrome, fulminant
 - Myocarditis secondary to idiopathic hypereosinophilic syndrome, acute
 - Myocarditis secondary to idiopathic hypereosinophilic syndrome, chronic
- Cardiomyopathy
 - Dilated cardiomyopathy
 - Primary dilated cardiomyopathy
 - Secondary dilated cardiomyopathy in diseases classified elsewhere
 - Arrhythmogenic right ventricular dysplasia
 - Left ventricular noncompaction
 - Hypertrophic cardiomyopathy
 - Obstructive hypertrophic cardiomyopathy
 - Non-obstructive hypertrophic cardiomyopathy
 - Apical hypertrophic cardiomyopathy
 - Apical hypertrophic cardiomyopathy with aneurysm
 - Apical hypertrophic cardiomyopathy without aneurysm
 - Endomyocardial cardiomyopathy
 - Tropical endomyocardial fibrosis
 - Endomyocardial (eosinophilic) disease
 - Endocardial fibroelastosis
 - Idiopathic restrictive cardiomyopathy
 - Cardiomyopathy due to drugs and other external agents
 - Pacemaker-induced cardiomyopathy
 - Ischaemic cardiomyopathy
 - Stress-induced cardiomyopathy
 - Certain cardiomyopathies
 - Cardiomyopathy, unspecified
- Heart muscle disease in diseases classified elsewhere
 - Cirrhotic cardiomyopathy
 - Heart muscle disease in nutritional diseases
 - Heart muscle disease in neuromuscular and neurological disease
 - Heart muscle disease in storage disease
 - Heart muscle disease in connective tissue disease
 - Infiltrative cardiomyopathy
 - Alcoholic cardiomyopathy

- Cardiac arrhythmia
- Sinus node dysfunction
 - Sick sinus syndrome
 - Tachycardia-bradycardia syndrome
 - Sinoatrial block
- Sinus node reentrant tachycardia
- Inappropriate sinus tachycardia
 - Inappropriate sinus tachycardia due to metabolic derangement
 - Drug induced inappropriate sinus tachycardia
- Sinus bradycardia
 - Vagal induced sinus bradycardia
 - Sinus bradycardia due to metabolic derangement
 - Drug induced sinus bradycardia
- Sinus arrest and pause
 - Sinus arrest and pause with atrial escape
 - Sinus arrest and pause with junctional escape
 - Sinus arrest and pause with ventricular escape
- Atrial premature depolarization
 - Atrial premature depolarization with normal conduction
 - Atrial premature depolarization without conduction
 - Atrial premature depolarization with aberrant ventricular conduction
- Junctional premature depolarization
 - Junctional premature depolarization with normal conduction
 - Junctional premature depolarization with aberrant ventricular conduction
- Supraventricular tachyarrhythmia
 - Ectopic atrial tachycardia
 - Multifocal atrial tachycardia
 - Junctional ectopic tachycardia
 - Congenital junctional ectopic tachycardia
 - Postoperative junctional ectopic tachycardia
 - Acquired idiopathic junctional ectopic tachycardia
 - Accelerated Junctional rhythm
 - Macro re-entrant atrial tachycardia
 - Cavotricuspid isthmus dependant macroreentry tachycardia
 - Cavotricuspid isthmus dependant macroreentry tachycardia: clockwise (atypical atrial flutter)
