

研究成果の刊行に関する一覧表

発表者氏名	論文タイトル名	発表誌名	巻号	ページ	出版年
<u>臼井規朗</u> , <u>早川昌弘</u> , <u>奥山宏臣</u> , <u>金森 豊</u> , <u>高橋重裕</u> , <u>稲村昇</u> , <u>藤野裕士</u> , <u>田口智章</u> .	新生児横隔膜ヘルニア全国調査からみた治療方針の収束化と施設間差異.	日本周産期・新生児医学会誌	49(1)	149-152	2013
<u>田口智章</u> .	胎児治療の現状	小児外科	45(1)	5-7	2013
<u>高橋重裕</u> , <u>遠藤誠之</u> , <u>左合治彦</u> .	先天性横隔膜ヘルニアに対する胎児治療.	医学のあゆみ	244(3)	213-218	2013
<u>Hayakawa M</u> , <u>Ito M</u> , <u>Hattori T</u> , <u>Kanamori Y</u> , <u>Okuyama H</u> , <u>Inamura N</u> , <u>Takahashi S</u> , <u>Nagata K</u> , <u>Taguchi T</u> , <u>Usui N</u> .	The effect of hospital volume on the mortality of congenital diaphragmatic hernia in Japan.	Pediatr Int	55(2)	190-196	2013
<u>Takahashi S</u> , <u>Sago H</u> , <u>Kanamori Y</u> , <u>Hayakawa M</u> , <u>Okuyama H</u> , <u>Inamura N</u> , <u>Fujino Y</u> , <u>Usui N</u> , <u>Taguchi T</u> .	Prognostic Factors of Congenital Diaphragmatic Hernia Accompanied by Cardiovascular Malformation.	Pediatr Int	55(4)	492-497	2013
<u>Nagata K</u> , <u>Usui N</u> , <u>Kanamori Y</u> , <u>Takahashi S</u> , <u>Hayakawa M</u> , <u>Okuyama H</u> , <u>Inamura N</u> , <u>Fujino Y</u> , <u>Taguchi T</u> .	The current profile and outcome of congenital diaphragmatic hernia: A nationwide survey in Japan.	J Pediatr Surg	48(4)	738-744	2013
<u>Uehara S</u> , <u>Usui N</u> , <u>Kamiyama M</u> , <u>Masahata K</u> , <u>Nara K</u> , <u>Ueno, T</u> , <u>Soh H</u> , <u>Oue T</u> , <u>Fukuzawa M</u> .	Repair of congenital diaphragmatic hernias through umbilical skin incisions.	Pediatr Surg Int	29(5)	529-532	2013
<u>Usui N</u> , <u>Nagata K</u> , <u>Hayakawa M</u> , <u>Okuyama H</u> , <u>Kanamori Y</u> , <u>Takahashi S</u> , <u>Inamura N</u> , <u>Taguchi T</u> .	Pneumothoraces as a fatal complication of congenital diaphragmatic hernia in the era of gentle ventilation.	Eur J Pediatr Surg	24(1)	31-38	2014
<u>Usui N</u> , <u>Okuyama H</u> , <u>Kanamori Y</u> , <u>Nagata K</u> , <u>Hayakawa M</u> , <u>Inamura N</u> , <u>Takahashi S</u> , <u>Taguchi T</u> .	The lung to thorax transverse area ratio has a linear correlation with the observed to expected lung area to head circumference ratio in fetuses with congenital diaphragmatic hernias.	J Pediatr Surg	49(3)	In press	2014
