

発表者氏名	論文タイトル名	発表誌名	巻号	ページ	出版年
Sakai E, <u>Yoshimi N.</u> et al.	Identification of preneoplastic lesions as mucin-depleted foci in patients with sporadic colorectal cancer.	Cancer Science.	103	144-149	2012
Cui C, <u>Yoshimi N.</u> et al.	Pre-neoplastic lesion, mucin-depleted foci, reveals as de novo high-grade dysplasia in rat colon carcinogenesis.	Oncology Reports.	27	1365-1370	2012
Naiki, T., <u>Takahashi, S.</u> et al.	Organ-specific Gst-pi expression of the metastatic androgen independent prostate cancer cells in nude mice.	Prostate.	72	533-541	2012
<u>Takahashi, S.</u> et al.	Therapeutic targeting of angiotensin II receptor type 1 to regulate androgen receptor in prostate cancer.	Prostate.	72	1559-1572	2012
<u>Kuno T.</u> et al.	Cancer chemoprevention through the induction of apoptosis by natural compounds.	J Biophysical Chemistry.	3	156-173	2012
Tanaka T, <u>Kuno T.</u> et al.	Cancer chemoprevention by citrus pulp and juices containing high amounts of -cryptoxanthin and hesperidin.	J Biomed Biotechnol.	2012	516981	2012
Xie XL, <u>Wei M.</u> et al.	Dammar resin, a non-mutagen, induces oxidative stress and metabolic enzymes in the liver of gpt delta transgenic mouse which is different from a mutagen, 2-amino-3-methylimidazo[4,5-f] quinoline.	Mutat Res.	748	29-35	2012
Suzui M, Morioka T, <u>Yoshimi N.</u>	Colon Preneoplastic Lesions in Animal Models.	J Toxicol Pathol.	26	335-341	2013
Long, N., <u>Takahashi, S.</u> et al	Purple corn color inhibition of prostate carcinogenesis by targeting cell growth pathways.	Cancer Sci.	104	298-303	2013
Suzuki, S., <u>Takahashi, S.</u> , et al.	Apocynin, an NADPH oxidase inhibitor, suppresses rat prostate carcinogenesis.	Cancer Sci.	104	1711-1717	2013

Asada, K., <u>Tsukamoto, T.</u> , et al.	FHL1 on chromosome X is a single-hit gastrointestinal tumor-suppressor gene and contributes to the formation of an epigenetic field defect.	Oncogene.	32	2140-2149	2013
Nojiri, A., <u>Tsukamoto, T.</u> , et al.	Inflammation enhanced X-irradiation-induced colonic tumorigenesis in the Min mouse.	Asian Pac J Cancer Prev.	14	4135-4139	2013
Toyoda, T., <u>Tsukamoto, T.</u> , et al.	Gene expression analysis of a Helicobacter pylori-infected and high-salt diet-treated mouse gastric tumor model: identification of CD177 as a novel prognostic factor in patients with gastric cancer.	BMC Gastroenterol.	13	122	2013
Kato T, <u>Totsuka Y.</u> , et al.	In vivo examination of the genotoxicity of the urban air and surface soil pollutant, 3,6-dinitrobenzo[e]pyrene, with intraperitoneal and intratracheal administration.	Environ., Toxicol.	28	588-94	2013
Lin Y, <u>Totsuka Y.</u> , et al.	Epidemiology of Esophageal Cancer in Japan and China.	J Epidemiol.	23	233-43	2013
Nakano T, <u>Totsuka Y.</u> , et al.	ADP-ribosylation of guanosine by SCO5461 protein secreted from Streptomyces coelicolor.	Toxicol.	63	55-63	2013
Watanabe M, <u>Totsuka Y.</u> , et al.	Effects of Fe ₃ O ₄ Magnetic Nanoparticles on A549 Cells.	Int J Mol Sci.	14	15546-60	2013

Toyooka T, Kubota T, <u>Ibuki Y.</u>	UVB irradiation changes genotoxic potential of nonylphenolpolyethoxylates--remarkable generation of -H2AX with degradation of chemical structure.	Mutagenesis.	28	7-14	2013
Kubota T, Toyooka T, <u>Ibuki Y.</u>	Nonylphenol polyethoxylates degraded by three different wavelengths of UV and their genotoxic change--detected by generation of -H2AX.	Photochemistry and Photobiology.	89	461-7	2013
Sato, S., <u>Takahashi, S.</u> , et al.	Establishment of an invasive prostate cancer model in transgenic rats by intermittent testosterone administration.	J Toxicol Pathol.	27	43-49	2014
Okochi-Takada, E., Hattori, N., <u>Tsukamoto, T.</u> , et al.	ANGPTL4 is a secreted tumor suppressor that inhibits angiogenesis.	Oncogene.	33	2273-2278	2014
<u>Yokohira M</u> , et al.	Napsin A is possibly useful marker to predict the tumorigenic potential of lung bronchiolo-alveolar hyperplasia in F344 rats.	Exp. Toxicol. Pathol.	66	117-123	2014
