

**OUR MISSION IS TO
OVERCOME THIS INTRACTABLE DISEASE -TGCV**

**THE FIRST INTERNATIONAL SYMPOSIUM on
Triglyceride Deposit Cardiomyovascuopathy
&
Neutral Lipid Storage Disease**

PROGRAM & ABSTRACTS

DATE: November 26, 2011

VENUE: Kyoto University Clock Tower Centennial Hall 2F

PRESIDENT: Ken-ichi Hirano Osaka University

THE FIRST INTERNATIONAL SYMPOSIUM on
Triglyceride Deposit Cardiomyovasculopathy
Neutral Lipid Storage Disease &

PROGRAM & ABSTRACTS

DATE: November 26, 2011

VENUE: Kyoto University Clock Tower Centennial Hall

PRESIDENT: Ken-ichi Hirano Osaka University

PROGRAM & CONTENTS

Oral Session 1

Chairpersons: Masatsugu Hori (Osaka Medical Center for Cancer and Cardiovascular Diseases)
Seiya Kato (University of Ryukyus)

- O-1 Triglyceride deposit cardiomyovasculopathy-A novel clinical entity- ······ 4**
Ken-ichi Hirano (Osaka University)
- O-2 ATGL gene mutations: from molecular diagnosis to functional studies ······ 4**
Daniela Tavian (Catholic University of the Sacred Heart, Italy)
- O-3 Neutral lipid storage disease with myopathy in a Chinese family ······ 5**
Yun Yuan (Peking University, P. R. China)

Oral Session 2

Chairpersons: Ken-ichi Hirano (Osaka University)
Robert Zimmermann (Institute of Molecular Biosciences, Graz, Austria)

- O-4 Neutral lipid storage disease with myopathy – pathologically a unique entity ······ 5**
among lipid storage myopathies
Ichizo Nishino (National Center of Neurology and Psychiatry)
- O-5 Neutral lipid storage myopathy may respond to beta-adrenergic treatment ······ 6**
Rita Horvath (Newcastle University, UK)
- O-6 RNA Interference-directed Knockdown of Adipose Triglyceride Lipase Enhanced ······ 7**
TNF α -induced ICAM-1 Expression in Human Aortic Endothelial Cells via PKC-
dependent activation of NF- κ B
Kunihisa Kobayashi (Fukuoka University Chikushi Hospital)

Poster Session 1

Chairperson: Hiroshi Nakamura (Yamaguchi University)

- P-1 Siblings with Lipid Deposition in Cardiomyocytes** 7
Yuji Koide (Nagasaki University)
- P-2 Characteristic feature with infiltration of less intimal macrophage foam cells of arteriosclerotic lesions in triglyceride deposit cardiomyovasculopathy (TGCV)** 8
Yoshihiko Ikeda (National Cerebral and Cardiovascular Center)
- P-3 Raman microscopy analysis of triglycerides deposit cardiomyovasculopathy** 8
Mamoru Hashimoto (Osaka University)

Poster Session 2

Chairperson: Hitoshi Chiba (Hokkaido University)

- P-4 Establishment of the Induction of Vascular Smooth Muscle Cells from the Patient-specific iPS Cells and the fibroblasts** 9
Shunmei Chiba (University of Ryukyus)
- P-5 Biomarker Discovery for Triglyceride Deposit Cardiomyovasculopathy using Proteome and Transcriptome analysis** 9
Naoko Kawasaki (National Institute of Biomedical Innovation)

Poster Session 3

Chairperson: Hironori Nagasaka (Takarazuka City Hospital)

- P-6 Triglyceride Deposit Cardiomyovasculopathy Associated with Type 2 Diabetes Mellitus** 10
Nobuhiro Zaima (Kinki University)
- P-7 Relationship between lipid deposition and ATGL expression in human myocardial tissue: A study with autopsy cases** 10
Seiya Kato (University of Ryukyus)
- P-8 Adipose triglyceride lipase and comparative gene identification-58 are down-regulated in the heart of diabetic fatty db/db mice** 11
Tomoaki Inoue (Kyushu University)

Poster Session 4

Chairperson: Yasuyuki Nagasawa (Osaka University)

- P-9 A Dietary Therapy with Medium Chain Triglyceride for Triglyceride Deposit Cardiomyovasculopathy** 11
Yoko Yasui (Osaka University)
- P-10 Effect of Medium Chain Triglyceride on Adipose Triglyceride Lipase Knockout Mice** 12
Akira Suzuki (Osaka University)
- P-11 New approach for viral myocarditis by MCT diet** 12
Hiroshi Nakamura (Yamaguchi University)

Organization 13

Sponsorship (in Japanese) 15
