

Country	caseid	Dx Terms	ICD-11 Title TM Disorder	ICD-11 Title TM Pattern	ICD-11 Title WM entity
JPN	1	Diagnostic information: acute nasopharyngeal catarrh , showing fever, sore throat, cough and runny nose. Additional TM specific information: common cold , with greater yang pattern , showing headache, neck stiffness, painful joints and a floating pulse.	Common cold disorder ^(TM)	Early yang stage pattern ^(TM)	Acute nasopharyngitis
JPN	2	Diagnostic information: fluid volume depletion by profuse sweating at several days after the onset of a febrile state, showing severe thirst with desire for water. Additional TM specific information: seasonal cold , with yang brightness pattern , showing constipation, tidal fever, abdominal distension, red face, forceful and slippery pulse, thick tongue coating.	Seasonal cold disorder ^(TM)	Middle yang stage pattern ^(TM)	Dehydration
JPN	3	Diagnostic information: bacterial or viral infection of the bronchi , showing fever, cough, wheezing, chest pain or dyspnoea. Additional TM specific information: common cold with lesser yang pattern , showing alternating chills and fever, loss of appetite, bitter taste in mouth, dry throat, dizziness and hypochondrial discomfort, white coat of the tongue or a wiry pulse.	Common cold disorder ^(TM)	Late yang stage pattern ^(TM)	Acute bronchitis, unspecified
JPN	4	Diagnostic information: watery stools by an increased frequency of bowel movements. Additional TM specific information: abnormally frequent bowel movements with greater yin pattern , showing abdominal fullness, weak and deep pulse.	Diarrhea disorder TM	Early yin stage pattern ^(TM)	Diarrhoea
JPN	5	Diagnostic information: fatigue , viral infection-induced, feeling of exhaustion, lethargy, decreased energy, diarrhea, cold limbs or dysphoria. Additional TM specific information: fatigue consumption of lesser yin pattern , showing diarrhea night sweating and thin pulse.	Fatigue consumption disorder TM	Middle yin stage Pattern ^(TM)	Postviral fatigue syndrome
JPN	6	Diagnostic information: endotoxic shock showing low blood pressure and lethargy. Additional TM specific information: dysentery with recurrent abdominal pain of reverting yin pattern , showing burning sensation on the chest and cold extremities with weak pulse.	Dysentery disorder ^(TM)	Late Yin stage Patterns ^(TM)	Septic shock
JPN	7	Diagnostic information: feeling of exhaustion , lethargy, or decreased energy, characterized by a decreased capacity for work and reduced efficiency in responding to stimuli. Additional TM specific information: consumption in qi decrease pattern , showing appetite loss, cold limbs, white tongue coating and deep pulse.	Consumptive disorder ^(TM)	Qi deficiency pattern ^(TM)	Fatigue
JPN	8	Diagnostic information: recurrent depressive episode . Additional TM specific information: feelings of despair in qi depression pattern , showing sensation of obstruction in the throat, a sensation of ear tube obstruction, fullness in the chest and abdominal distension.	Depression disorder ^(TM)	Qi stagnation pattern ^(TM)	Depressive disorders, unspecified
JPN	9	Diagnostic information: gastro-esophageal reflux disease (GERD) . Additional TM specific information: qi counterflow pattern , showing the regurgitation of food, hiccup, chronic cough, vomiting, and distention of the abdomen.	Food reverse flow disorder ^(TM)	Qi uprising pattern ^(TM)	Gastro-esophageal reflux disease
JPN	10	Diagnostic information: anaemia characterised by decreased levels of iron. Additional TM specific information: scanty menstruation in blood decrease patterns , showing nail deformity, pale lips, dizziness, light-colored menstrual blood and thready pulse.	Decreased menstruation disorder ^(TM)	Blood deficiency pattern ^(TM)	Iron deficiency anaemia, unspecified
CHN	11	Diagnostic information: anus abscess with pain and burning sensation. Additional TM specific information: red tongue with greasy and yellow coating, slippery and rapid pulse caused by dampness and heat in the lower	Anal abscess disorder (TM)	Dampness and heat in the lower energizer pattern TM	Anal abscess
CHN	12	Diagnostic information: stenosis of coronary artery . Additional TM specific information: severe heart pain , sweating, cold limbs, white complexion and blue lips, faint and barely perceptible pulse caused by heart meridian obstruction .	True heart pain disorder (TM)	Heart meridian obstruction pattern (TM)	Coronary atherosclerosis

Country	caseid	Dx Terms	ICD-11 Title TM Disorder	ICD-11 Title TM Pattern	ICD-11 Title WM entity
CHN	13	Diagnostic information: influenza . Additional TM specific information: common cold , cough with white watery sputum, white tongue coating and floating tight pulse caused by wind and cold fettering the lung .	Common cold disorder (TM)	Wind and cold fettering the lung pattern (TM)	Influenza, virus not identified
CHN	14	Diagnostic information: typhoid infection . Additional TM specific information: dampness and warmth entering the body, abdominal distention, vomiting, nausea, anorexia, thirst, loose stool, greasy coating on the tongue caused by dampness and heat in the middle energizer .	Dampness and warmth disorder (TM)	Dampness and heat in the middle energizer pattern (TM)	Typhoid fever
CHN	15	Diagnostic information: diarrhea with abnormally frequent bowel movements. Additional TM specific information: pale larger tongue with white greasy coating, moderate pulse caused by spleen deficiency with dampness encumbrance .	Diarrhea disorder (TM)	Spleen deficiency with dampness accumulation pattern™	Diarrhoea
CHN	16	Diagnostic information: low back pain . Additional TM specific information: pain which is fixed in one place, purple and spotted tongue, wiry pulse caused by blood	Lumbago disorder™	Blood stasis pattern (TM)	Low back pain
CHN	17	Diagnostic information: pneumonia due to bacteria . Additional TM specific information: stagnation of heat in the lung , cough with a sensation of chest pain, thick and yellow sputum, red tongue with yellow greasy coating, rapid slippery pulse caused by phlegm heat obstructing	Lung heat disorder (TM)	Phlegm heat obstructing the lung pattern (TM)	Bacterial pneumonia
CHN	18	Diagnostic information: male sterility . Additional TM specific information: aversion to cold, cold limbs, weakness and soreness in the waist and knees, white tongue coating and feeble pulse at cubit (chi) section caused by primordial yang deficiency .	Male Infertility disorder (TM)	Kidney yang deficiency pattern (TM)	Male infertility
CHN	19	Diagnostic information: rheumatoid arthritis . Additional TM specific information: painful impediment , cold pain with preference for heat, pale tongue with white coating, tight and slow pulse caused by external cold factor .	Cold impediment disorder (TM)	Cold factor pattern (TM)	Rheumatoid arthritis
CHN	20	Diagnostic information: painful periods . Additional TM specific information: lower abdominal cold pain with preference for warmth, whitish vaginal discharge, white tongue coating, deep and tight pulse caused by cold congealment in the uterus .	Dysmenorrhea disorder (TM)	Cold stagnation in the uterus pattern (TM)	Dysmenorrhoea
KOR	21	Diagnostic information: Infertility (female) induced by spleen deficiency with dampness accumulation . Additional TM specific information: white thick tongue coating, rolling pulse.	Infertility disorder™	spleen deficiency with dampness accumulation pattern™	Primary female infertility
KOR	22	Diagnostic information: Infrequent, delayed menses induced by disharmony of liver and spleen systems . Additional TM specific information: white thin tongue coating, feeble pulse.	Delayed menstruation disorder™	Disharmony of liver and spleen systems pattern™	GB20.22 Infrequent menstrual bleeding
KOR	23	Diagnostic information: Menopause induced by kidney yin deficiency . Additional TM specific information: white thin tongue coating, floating pulse.	Menopausal disorder™	Kidney yin deficiency pattern™	Menopausal or certain specified perimenopausal disorders
KOR	24	Diagnostic information: Dizziness induced by kidney yin deficiency . Additional TM specific information: dry tongue, white thin tongue coating, floating pulse.	Vertigo disorder™	Kidney yin deficiency pattern™	Dizziness and giddiness
KOR	25	Diagnostic information: Vaginal discharge induced by spleen qi deficiency . Additional TM specific information: weak pulse, pale tongue, white viscid tongue coating.	Leukorrhea disorder™	Spleen qi deficiency pattern™	Vaginal discharge
KOR	26	Diagnostic information: Diarrhea induced by spleen yang deficiency . Additional TM specific information: pale tongue, deep slow weak pulse.	Diarrhea disorder™	Spleen yang deficiency pattern™	Diarrhoea
KOR	27	Diagnostic information: Dry cough induced by lung yin deficiency . Additional TM specific information: reddish tongue, dry cracked tongue, rapid weak pulse.	Cough disorders(TM)	Lung yin deficiency pattern™	Cough
KOR	28	Diagnostic information: Insomnia induced by kidney yin deficiency . Additional TM specific information: white thin tongue coating, deep weak pulse.	Insomnia disorder™	Kidney yin deficiency pattern™	Insomnia disorders
KOR	29	Diagnostic information: Constipation induced by large intestine excess heat . Additional TM specific information: yellow tongue coating, rapid pulse.	Constipation disorder™	Large intestine excess heat pattern™	Constipation

Country	caseid	Dx Terms	ICD-11 Title TM Disorder	ICD-11 Title TM Pattern	ICD-11 Title WM entity
KOR	30	Diagnostic information: Facial palsy on the left side induced by liver wind stirring the interior . Additional TM specific information: wiry tight pulse, red tongue, white thin tongue coating .	Facial paralysis disorder™	Liver wind stirring the interior pattern™	Bell palsy
GBR	31	Diagnostic information: Chronic fatigue ; muscle/joint pain in the neck and shoulders, lower back and calves. Additional TM specific information: Fixed impediment. Dampness factor . Fatigue, heavy-headedness. Heaviness and stationary pain in the body, particularly in the joints, due to dampness. Soggy and moderate pulse; greasy tongue coating.	UC52 Dampness impediment disorder (TM)	UE72 Dampness factor pattern (TM)	8C79 Postviral fatigue syndrome
GBR	32	Diagnostic information: Low back pain . Pain and discomfort, localized below the costal margin and above the inferior gluteal folds. Additional TM specific information: Cold impediment disorder. Kidney yang deficiency pattern . Stationary pain. Cold, listlessness, weakness and soreness due to decreased kidney yang function failing to warm the body. Rapid wiry pulse; white	UC50 Cold impediment disorder (TM)	UF87 Kidney yang deficiency pattern (TM)	MG52 Low back pain
GBR	33	Diagnostic information: Chronic pain in multiple anatomical regions with significant emotional distress and functional disability. Additional TM specific information: Migratory impediment. Liver depression and qi stagnation pattern . Migratory pain in the body, particularly in the joints due to wind factor. Lower abdominal distention and oppression with moving pain that comes and goes due to a dysfunction of the liver system in carrying and dispersing qi causing a stagnation of qi movement in the body. Wiry pulse; red tipped tongue .	UC51 Wind impediment disorder (TM)	UF44 Liver depression and qi stagnation pattern (TM)	MJ40.1 Primary chronic pain
GBR	34	Diagnostic information: Gastro-oesophageal reflux disease . Reflux of stomach contents resulting in heartburn, nausea and vomiting. Additional TM specific information: Stomach ache disorder. Stomach qi uprising . Belching, hiccups, acid regurgitation and vomiting due to heat in the stomach preventing the downward flow of stomach qi. Pain in the upper abdomen (beneath the xiphoid process). Rapid pulse; swollen pale teeth marked	UA51 Stomach ache disorder (TM)	UF6F Stomach qi uprising pattern (TM)	DA12 Gastro-oesophageal reflux disease
GBR	35	Diagnostic information: Single episode depressive disorder . Daily depressed mood and diminished interest in activities; chronic fatigue. Additional TM specific information: Depressive disorder. Blood deficiency pattern . Anemia, atrophic dry skin, forgetfulness, pale lips, tongue and nails, dizziness, thready pulse and pale tongue.	UD82 Depression disorder (TM)	UE90 Blood deficiency pattern (TM)	6A40 Single episode depressive disorder
GBR	36	Diagnostic information: Pain in jaw . Additional TM specific information: Cold impediment disorder. Heart blood deficiency pattern . Stationary pain in the jaw aggravated by cold, palpitations, dizziness, pale complexion lips and tongue, pale swollen tongue and a feeble thready pulse.	UC50 Cold impediment disorder™	UF52 Heart blood deficiency pattern (TM)	MG79 Symptom or complaint of the jaw
GBR	37	Diagnostic information: Chronic fatigue , muscle/joint pain in the neck and shoulders, upper and lower back, and thighs. Additional TM specific information: Fixed impediment. Dampness factor . Fatigue, heaviness and stationary pain in the body, particularly in the joints, due to dampness. Soggy and moderate pulse; greasy tongue	UC52 Dampness impediment disorder (TM)	UE72 Dampness factor pattern (TM)	8C79 Postviral fatigue syndrome
GBR	38	Diagnostic information: Stress-related disorder . Additional TM specific information: Depressive disorder. Liver depression and qi stagnation pattern . Emotional depression, frequent sighing, breast distention and oppression with moving pain that comes and goes. Wiry pulse; red tongue with yellow coat .	UD82 Depression disorder (TM)	UF44 Liver depression and qi stagnation pattern (TM)	6A9Z Disorders specifically associated with stress, unspecified
GBR	39	Diagnostic information: Dyspnoea . Breathlessness resulting from chemotherapy treatment; fatigue; peripheral neuropathy. Additional TM specific information: Dyspnea disorder. Qi deficiency pattern . Decreased vitality, fatigue, weakness, appetite loss, short breath, feeble pulse, and pale slippery tongue .	UA80 Dyspnea disorder (TM)	UE80 Qi deficiency pattern (TM)	ME11.4 Dyspnoea

Country	caseid	Dx Terms	ICD-11 Title TM Disorder	ICD-11 Title TM Pattern	ICD-11 Title WM entity
GBR	40	<p>Diagnostic information: Chronic pain in multiple anatomical regions that is characterized by significant emotional distress (low mood, insomnia, fatigue) and functional disability (interference in daily life activities and reduced participation in social roles). Additional TM specific information: Cold impediment disorder.Kidney yin and yang deficiency pattern. Vertigo, soreness and weakness of various regions particularly the waist and knees, cold extremities, spontaneous sweating due to a decrease in overall kidney functions. Slow pulse; pale swollen slippery tongue.</p>	UC50 Cold impediment disorder (TM)	UF84 Kidney yin and yang deficiency pattern (TM)	MJ40.1 Primary chronic pain
