Dear Prof. Schuler-Faccini,

Thank you for your e-mail. What you just knew about the reparation money is an very important issue. I think it's not allowed that the Contergan Foundation in Germany abruptly stop it without enough explanation and advance notice.

Fortunately, Dr. Schulte-Hillen is a medical committee member of the Contergan Foundation, and I'm sure he really knows the situation. In fact, it looks he has already responded to your problem in Brazil. Dr. Greiner in Heidelberg also knows well about the social pension or compensation as well as other welfare problems. She could also answer you about those problems in Germany if you ask.

Thank you again, and I hope the problem you showed will be resolved soon.

Kind regards,
