

研究成果の刊行に関する一覧表

雑誌

1. Shinichiro Hirai, Eiji Yokoyama, Naoshi Ando, Junji Seto, Kyoko Hazama, Keigo Enomoto, Hidemasa Izumiya, Yukihiro Akeda, Makoto Ohnishi, Another advantage of multi-locus variable-number tandem repeat analysis that can putatively subdivide enterohemorrhagic *Escherichia coli* O157 strains into clades by *maximum a posteriori* estimation, PLOS ONE, 18(3): e0283684, 2023
2. Yano B., Taniguchi I., Gotoh Y., Hayashi T., & Nakamura K.: Dynamic changes in Shiga toxin (Stx) 1 transducing phage throughout the evolution of O26:H11 Stx-producing *Escherichia coli*, Scientific Reports, 13(1):4935, 2023.
3. Nakamura K., Seto K., Lee K., Ooka T., Gotoh Y., Taniguchi I., Ogura Y, Jacques Georges Mainil, Denis Piérard, Harata T., Etoh Y., Ueda A, Hamasaki M., Isobe H., Kimata K., Narimatsu H., Yatsuyanagi J., Ohnishi M., Iyoda S., Hayashi T.: Global population structure, genomic diversity and carbohydrate fermentation characteristics of clonal complex 119 (CC119), an understudied Shiga toxin-producing *E. coli* (STEC) lineage including O165:H25 and O172:H25, Microbial Genomics, 9:000959, 2023.
4. Miyata T., Taniguchi I., Nakamura K., Gotoh Y., Yoshimura D., Itoh T., Hirai S., Yokoyama E., Ohnishi M., Iyoda S., Ogura Y., Hayashi T.: Alteration of a Shiga toxin-encoding phage associated with a change in toxin production level and disease severity in *Escherichia coli*. Microbial Genomics, 9:0009935, 2023.
5. Ikeda R., Nakamura K., Saulmont M., Habets A., Duprez JN, Korsak N., Hayashi T., Thiry D., Mainil JG.: *Escherichia coli* O80 in Healthy Cattle: Absence of Shigatoxigenic and Enteropathogenic *E. coli* O80:H2 and (Phylo) Genomics of Non-Clonal Complex 165 *E. coli* O80, Microorganisms, 11(2):230, 2023.
6. Nakamura K., Seto, K., Isobe J., Taniguchi I., Gotoh Y., Hayashi T.: Insertion Sequence (IS)-Excision Enhancer (IEE)-Mediated IS Excision from the lacZ Gene Restores the Lactose Utilization Defect of Shiga Toxin-Producing *Escherichia coli*

0121:H19 Strains and Is Responsible for Their Delayed Lactose Utilization Phenotype,
Applied Environmental Microbiology, 88(16):e0076022, 2022.
