

## 研究成果の刊行に関する一覧表レイアウト

## 雑誌

| 発表者氏名                                                                 | 論文タイトル名                                                                               | 発表誌名                  | 巻号     | ページ | 出版年  |
|-----------------------------------------------------------------------|---------------------------------------------------------------------------------------|-----------------------|--------|-----|------|
| Ishigamori R., Ohno A., Fukuhara K., Hasegawa S., Totsuka Y.          | Genotoxicity Assessment of Mesoporous Silica and Graphene Oxide in GDL1 Cells         | Genes & Environment   | 48 (1) | 2   | 2025 |
| Betsuyaku Y., Motohashi M., Sassa A., Takamura-Enya T., Totsuka Y.    | Analysis of Novel DNA Adducts Derived from Acetaldehyde                               | Biomolecules          | 15(6)  | 878 | 2025 |
| Ando Y., Takeshima H., Hasegawa S., Watanabe C., Hara-Kudo Y., Oku T. | Dual Regulation of Coronavirus-1 Expression by the Core Promoter and Intronic Regions | Journal of Immunology | 215(3) | 349 | 2026 |
